It seems hardly possible, but the people live when the legislature is adjourned for three days.

The publication of the delinquent tax lists would stop a few speculators at each county seat getting in and gobbling all the tax titles, making a clean rake-off of fifteen per cent, and ten per cent interest.

This paper is open for the presentation of both sides of every matter, and does not desire to do the thinking for the ordinary citizen.

The eight-hour bill to regulate employment at the Oregon City paper mills may be all right and have merit, and be aimed at an abuse.

A pretty battle has been waged between a few farmers from Union county and the State Good Roads Association of Portland, and from present indications the grangers have won out.

THE SALARY BILLS WILL WIN.

Indications are that the salary bills will all win out in the end.

A legislature is not a business body, but is under the dictation of those who want salaries.

The bill for the attorney-general's office has been trimmed of an additional deputy in the house.

But who doubts that all that department calls for will be tacked on in the senate, and a place made for another beneficiary?

Who doubts that there will not be two new judgeships created in the Portland district, and several new judicial districts created?

The salaries of the district attorneys will be raised all around and new deputyships created, and the county attorney bill killed.

Many boards and commissions are being created, and this legislature will break all records in making places for the parasites and satellites of society and politics.

But that seems to be what the people like, and the only way to satiate them is to give them their bellyful, and let them pay the bills.

The days of Jeffersonian simplicity, when it was a matter of pride not to live off the state, belong to the age of the megatherium.

OUR FIGHT HAS BORNE FRUIT.

The Capital Journal fight to stop collecting a factory act inspection fee from every little country printing office has borne fruit.

A bill to amend labor commissioner's fees so that plants with two horse power or less shall pay no inspection, has passed the house.

While the country newspapers do not appreciate the fight that has been made in their behalf, it was a fight against unjust taxation.

It was not the fault of the labor commissioner that it was in the law, but until it was pointed out and made obnoxious it could not be repealed.

While The Capital Journal will still pay the tax, about two hundred country printing offices will be relieved.

The danger was that this factory inspection law would be extended to every windmill, gasoline engine and threshing machine outfit in the state.

Labor Commissioner Hoff is a reasonable man, and the people must not blame him if he enforces the law as he finds it.

ABOLISH THE TAX TITLE GRAFT.

It is a well known fact that a regular system of wholesale grabbing of tax titles is being built up in Oregon.

This legislature will go on record against the present gumshoe method of swiping tax titles.

The committee on judiciary sent in a favorable report on the bill requiring publication of delinquent tax sales.

It restores the old law that no property can be sold for unpaid taxes without four weeks' publication of a description of the property.

JAPAN HAS LOST HER CONTROL

UNITED STATES, A JAP PAPER ASSERTS, IS NOW IN CONTROL AND WILL HAVE DOUBLE JAPANESE POWER BY 1917.

Vancouver, B. C. Feb. 3.—The Japanese press today teems with editorial comment on the manifesto by Oishi, leader of the Kokuminto, the popular party of Nippon, calling upon the government to arrange for further increases of its navy to regain command of the Pacific now lost," according to advices just received.

Oishi said that "unskillful diplomacy of the government has compelled Japan to lose her command of the Pacific, even without fighting a certain country." He furthermore declared that the safety of Japan is jeopardized and that anti-Japanese policy is spreading rapidly in the United States.

The manifesto was of the alarmist type. After declaring for a policy of larger naval outlay, Oishi asserted that the United States would have a greater naval strength than Japan on the Pacific by 1917. According to his figures 27 battleships will then fly the American flag on the Pacific against 13 or 14 under the colors of Japan.

New Orleans, La., Feb. 3.—Presidents of six big New Orleans exchanges and commercial organizations came out today with the statement that their city would accept the will of the national house, and not carry the fair fight further.

Voicing the sentiments of the others, A. F. Leonhardt, president of the board of trade, said:

"We have lost the exposition fight, and we should accept the inevitable. We should yield gracefully and assist San Francisco to make the celebration a success. We would have expected the same from San Francisco."

Los Angeles Has Milk Famine.

Los Angeles, Cal., Feb. 3.—There is a milk famine in Los Angeles affecting 15,000 families, according to President Carver of the Creamery Operators' Association. It is estimated that from 50,000 to 60,000 persons are compelled to go without milk.

TO RE-ARRANGE LEGISLATIVE DISTRICTS

SENATOR JOSEPH WILL INTRODUCE APPORTIONMENT BILL—MARION WILL LOSE ONE REPRESENTATIVE AND MULTNOMAH WILL GAIN.

When the senate convenes again next week there will come up for consideration Senator Joseph's apportionment bill, and should it pass, and become a law, it will mean that Marion county, now having the second largest delegation in the legislature, will have one less representative in the house.

Multnomah county, under the bill, is allowed seven senators and 16 representatives, and is also given a joint senator with Columbia and Clackamas counties. While, having practically a third of the population, and paying a third of the taxes, it only gets one-fourth of the senators, but gets about one-third of the representatives.

A fight no doubt will be made upon the bill by those counties losing representatives. Marion has now five, but under the bill will have four. Linn and Washington also lose a representative, while Baker is given an additional representative. The district which Senator C. A. Barrett represents, Union, Umatilla and Morrow, is abolished. An interesting question has arisen, as to whether the bill pass, it would also have the effect of abolishing the office.

WILL RECONVENE COURT ONE WEEK FROM MONDAY

After listening to the evidence and argument yesterday afternoon in the case of J. J. Lais against W. R. Smith, Judge Galloway took the case under advisement, and will probably render an opinion in the case when he returns to reconvene court in the city a week from next Monday.

Lais is a sawmill man, and the suit is brought by him to register the title to some land. Smith is opposing it on the ground that he claims that he is the owner of 10 acres of the tract, by virtue of open and notorious possession.

After listening to a few motions, the judge this morning adjourned court, and returned to his home at McMinnville.

CALIFORNIA GIVES \$5,000,000 TO THE FAIR

Sacramento, Cal., Feb. 3.—Before the present legislature adjourns bills will be introduced providing for the method of expending \$5,000,000 to be collected under the Panama exposition tax voted at the recent special session of the legislature. The bills are being prepared by Senator Wolfe, of San Francisco.

In addition to this a measure legalizing the appointment of a fair commission by the government and broadly outlining the state's policy toward the exposition will be presented. A state building and exhibit will be provided for out of the \$5,000,000, and the remainder of the fund will go to the fair commission to be distributed as it shall deem expedient.

JURY MAN HAD THE SMALLPOX

Seattle, Wash., Feb. 3.—Judge W. R. Gay, of the superior court, and 12 jurymen are in court today with very sore arms and trying to give justice a square deal in difficulties. All underwent vaccination in an ante-room in the court house yesterday, when it was discovered that a man called for jury duty was suffering from smallpox. When the man's condition was learned, he was hustled out of the court room and taken to the pest house.

QUARREL OVER HIS MILLIONS

ELKINS' FAMILY NOT SATISFIED WITH THE MANNER IN WHICH STEPHEN B. DIVIDED HIS PROPERTY.

Elkins, W. Va., Feb. 3.—Disension prevails in the Elkins' family today as a result of the disposition of the millions of Stephen B. Elkins, late senator from West Virginia. Elkins was twice married, and his widow, Mrs. Hallie D. Elkins, is dissatisfied with the manner in which he made for his children. Elkins provided that his seven children, including Mrs. Giffphant and Mrs. Weidensein, children by his first wife, should share equally. If Mrs. Elkins' claims one-third of the estate, which the state law allows, she will have from five to eight millions in her own right to divide among her five children.

Mr. Clemens said the postal card notice was enough. Huntington said this was a bill to protect the people against being robbed of their property. Mr. Johnson said if this bill became a law no property could be secretly grabbed up for delinquent taxes. McKinney said that in Baker county property under the present system could be jumped and claimed in the absence of notice. Mr. Brownhill defended the country newspaper as the friend of the people who suffered from want of notice that their taxes were delinquent.
