Home of "THE BIG RED APPLE"

NO subject connected with the development of the West is attracting more attention than the great profits Oregon apple growers are making. Other states produce far more apples than Oregon, but Oregon leads the world, according to the largest dealers in apples in this country, in quality of product and high prices received for same. Oregon is a great apple state, and Salem (the Willamette Valley) is the original home of the big red apple that is making a stir throughout the world.

The largest producing apple orchard in Oregon is located near Salem, the vicinity of which is also noted for its prunes, cherries, hops and small fruits.

Salem is the center of Oregon's prune industry, Oregon producing 90 per cent of the "Italian" prunes grown in this country. Salem is the center of Oregon's hop industry, and Oregon produces 40 per cent of the hops grown in the United States. Salem is known as the "Cherry City of the World," the Willamette Valley, of which Salem is the center, originating more commercial varieties of cherries than any other section of this country.

If you are interested in fruit growing, dairying, poultry raising, manufacturing possibilities, or general farming you make a big mistake if you overlook Salem. Salem is the capital city of Oregon—a vigorous, beautiful, progressive community. Write to-day for more information about Salem. Address Secretary, Board of Trade, and mention that you saw this advertisement in SUNSET Magazine.

NOTE—This advertisement was prepared for the Salem Board of Trade by the Sunset Magazine Bureau, Portland, Oregon. It will appear in August Number. This service is rendered in connection with the Co-operative Community plan of the Oregon Railroad & Navigation Co.

INVESTIGATE FOOD AND DAIRY COMMISSIONER

MR. BAILEY APPEARS AND ANSWERS QUESTIONS, AND HIS DEPUTIES AND OTHERS WILL BE EXAMINED THIS AFTERNOON.

The food and dairy committee of the house, and a committee of the senate, to which was referred the special message of Governor West, asking for an investigation of the management of the office of Food and Dairy Commissioner Bailey has begun its labors this morning at the state house. Summons were sent out yesterday to the commissioner and his deputies to be present and testify, and when the investigation commenced this morning, they were all in attendance. Bailey is represented by Attorney White, of Portland, and was the first witness to take the stand.

The charges against Bailey are incompetency, and having padded his expense account, and used the funds to purchase articles for his home and in payment of other expenses not of a public nature. Socratic Chase acted as chairman of the committee, and started the investigation by asking a series of questions, which had been reduced to writing, but by whom it seems is uncertain. The first questions were along a line which would determine whether Bailey was competent. They referred to the system used in keeping a record of inspections made of money collected, and reports submitted upon various matters. The commissioner admitted that the reports which formed a basis for his public reports—that is those submitted to the governor—had mostly been lost, but that it had occurred without his consent.

He also admitted that the score card system now in vogue in his office had been introduced by him, but claimed it was good, and that as soon as its use was suggested that he adopted it. After a number of other questions along this line the committee turned its attention to the second charge—that of Bailey having used the state's money for his own use.

He admitted that he had bought a horse and buggy, but maintained that it was bought with his own money, and while the state had paid for the keeping of two horses, that it had their services for nothing. He denied that he had charged the expense of his trips to his farm at Eugene to the state, and offered to present documents to prove the statements. He had not, he said, kept a record of the inspections made of the various dairies in the state.

This afternoon his deputies will be examined. There is also in attendance a delegation of women representing the Consumers' League, of Portland, and when the proper time comes they will give testimony along certain lines. The investigation will consume all of the afternoon.

LOUIS HAHN DECLARED TO BE A LUNATIC

RESISTED WHEN OFFICERS ATTEMPTED TO TAKE HIM IN CHARGE, BUT IS HANDCUFFED IS CRAZY ON SUBJECT OF RELIGION.

Being a man of massive strength, and possessing besides all the strength of a madman, it required the combined strength of Sheriff Harry P. Minton and Deputy Sheriff Esch this forenoon to arrest and handcuff Louis Hahn, the religious fanatic, for whom a warrant had been issued, and who was this afternoon sent to the state hospital for the insane, after an examination as to his mental condition by Dr. Byrd and Dr. Brewer, Jr.

Hahn is the man who was arrested and incarcerated in the county jail several weeks ago for refusing to send his children to school, refusing to do so unless the school laws were so revised that no school was kept on Friday. Upon his release he began preaching his fanatical religion on the streets, and also sending frank messages to the legislature threatening it with destruction unless certain legislation was enacted.

Today a warrant was sworn out for him, charging him with insanity, and when Sheriff Minto and Deputy Esch proceeded to arrest their man they found him preaching on the street. When they sought to take him into custody he resisted and made battle upon them, and it required their combined strength to subdue him. He is possessed with the delusion that he is called by the Lord to spread a certain religion of his own, and labors under the fur-

or delusion that at times in the past he has saved rulers of various nations from assassination.

EXPLODED A BOMB ON RESIDENCE PORCH

Last evening about 8:15 p. m., a report as loud as that of a shotgun was heard at the corner of Union and High streets, that aroused some of the neighbors. This being Chinese New Year, the report of a firecracker would not have raised one, but this report was immediately telephoned to the police station, and in less than 10 minutes an officer was on the scene and it was discovered that a large Chinese bomb was thrown on the front porch of one of the corner houses. The fact of the patrolman finding the trouble so quickly speaks well of the efficiency of our present police force and undoubtedly is very comforting to the citizens of Salem.

THE DANGER IN CALIFORNIA ABOUT OVER

FALLING TEMPERATURE CAUSES SNOW INSTEAD OF RAIN IN THE MOUNTAINS, WHICH WILL CHECK THE FLOODS.

Sacramento, Calif., Feb. 4.—With the cessation of rain along the upper Sacramento and San Joaquin water sheds, danger of floods is past, according to a statement made today by the local weather forecaster. The rains of the last 48 hours have not visibly affected the rivers in the upper part of the valley, although the Sacramento between Walnut Grove and the bay is still rising, as is also the lower San Joaquin.

At the summit the weather has turned decidedly cooler and snow is falling in place of rain.

TACOMA MAYOR DEMANDS HIS OWN RECALL

Tacoma, Wash., Feb. 4.—Mayor A. V. Fawcett today placed his name at the head of a petition demanding his own recall. The recall, which seems to have been instigated by persons opposed to the mayor's anti-treat ordinance, will be fought out at the polls.

Mayor Fawcett, after affixing his signature to the petition said: "I hope there will be enough names to insure an election, as I want the people to decide whether they want the saloons to run the city or not."

ESTIMATES MADE FOR MONMOUTH

The ways and means committee of the house, accompanied by President Ackerman, of the State Normal School, went to Monmouth today, and inspected the premises, looked over the lands and available site for new buildings, and will report on the conditions as they found them. The committee was visibly impressed with the need of an equipment, and on Monday the Board of Regents will meet and consider a bill to be introduced in the legislature. The bill will ask for money to purchase additional lands, and for at least two buildings, conditioned upon the Monmouth school district creating and maintaining a 12-grade public school on a block adjoining the state normal school. The Board of Regents will recommend about \$100,000, and Monmouth is to erect a \$30,000 high school.

Stagers Skeptics.

That a clean, nice fragrant compound like Bucklen's Arnica Salve will instantly relieve a bad burn, cut, scald, wound or piles, stagers skeptics. But great cures prove its a wonderful healer of the worst sores, ulcers, boils, felons, eczema skin eruptions, as also chapped hands, sprains and corns. Try it. 25c at J. C. Perry's Drug Store.

Mr. Carnegie gave \$10,000,000 to promote universal peace. There is one sure way to bring it about—compel those who bring on wars to do the fighting.

When the "tariff commission" is appointed we want to submit a carefully preserved lot of bills from the butcher the baker, the grocer the dry goods man and the coal dealer.

SUBSCRIBERS.
If you get your paper by mail kindly watch the tag and see when the time is up, and remit promptly, or notify us to stop the paper; otherwise bill will be made for the time the paper comes after expiration of the contract.

CAPTAIN EGGLESTON EXPIRES

MEMBER OF THE LEGISLATURE FROM JACKSON COUNTY TAKEN TO HOSPITAL LAST NIGHT, PASSES AWAY AT MIDNIGHT.

After suffering from ill health which extended over several months, Captain M. F. Eggleston, of Ashland, and a member of the house of representatives of the present legislature, died this morning at the Willamette Sanatorium within about five hours after he had been taken to the institution with the hope of restoring him to health.

Shortly after the session convened, Captain Eggleston returned to his home because of his health but in a few days was back at his desk in the house. A member of the senate remarked to him that he was not looking well and he replied by stating that he should probably be at home instead of at work in the legislature, but that he felt that he owed a duty to the state and that he desired to discharge it if possible. Within the last week he began to grow considerably worse and last night at 7 o'clock he was taken to the sanatorium and a few minutes after 12 o'clock he was dead, the immediate cause being paralysis.

Captain Eggleston was one of the most popular and esteemed men in the town of Ashland and during his residence there held several positions of public trust, among others being that of city recorder. At the last election he was nominated for the house of representatives from his district and elected by a handsome majority. He was a man of pleasing personality, of strong character and ability and was a potent factor in the house.

He leaves to survive him a wife and a child. The remains will be shipped to Ashland this evening by the Lehman & Clough Undertaking company, and will be accompanied by Dr. H. M. Shaw, of this city, who was an old time friend of the Captain and his physician during his illness.

IS SHOWING WONDERFUL SPECIMENS

SAMPLES OF ORE BROUGHT BY J. D. DENSMORE FROM SISKIYOU GOLD FIELDS, ARE ONE-HALF GOLD.

J. D. Densmore has just returned from his mines at Hill, California, just across the state line near Ashland. He brought samples of ore showing what that section is capable of producing. The specimens are as handsome as any the writer ever saw and he has passed the greater part of his life in the mines. They are practically half, gold a beautiful bright yellow leaf formation imbedded in a white sugary spar and look good enough to eat. Mr. Densmore and his associates are opening up one of the most promising gold mines ever found in the state of California, and are leaders in demonstrating that the Siskiyou range is one of the richest mineral sections in the world. Jackson, Josephine, Coos and Curry counties in Oregon and Del Norte and Siskiyou counties, California, contain the largest area of but little explored mineral ground in the United States, and it is an area, the writer predicts, that will be the richest and most extensive ever found in the world. The day of its opening and development is at hand—and such men as Densmore and his partners will become millionaires while calling the world's attention to that section.

Houses in the Right Place

When you build your home, select a tract where the other fellow's home will help enhance the value of yours. Every house that goes up in a tract with a building restriction, helps the tract and the houses in it.

Kingwood Park has a reasonable building restriction attached to contracts and deeds. This does not mean that the owners of lots must build but when they do build, that their house will be worth a certain price. Lots in Kingwood Park are sold on easy terms. The prices range from \$175 to \$500. These prices include graded streets, cement walks, curbs and street trees.

To the next builder of a home in Kingwood Park we will allow a discount of 40 per cent off the price of any lot selected and in addition will pay for the architect's plans.

There is a reason why West Salem is going ahead. Come in and let us tell you.

"I'VE ALWAYS SAID THAT BOY TOOK AFTER HIS DADDY."

—Donahay in Cleveland Plain Dealer.

CALIFORNIA WOULD CONTROL THE RAILROADS

[UNITED PRESS LEARNED WIRE.]
SACRAMENTO, Calif., Feb. 4.—The Stetson-Bonnett railroad bill passed the assembly today with 47 votes, only a bare quorum, present. The measure, which is one of the most important urged by the Johnson administration, gives the state railroad commission power to fix absolute transportation rates and likewise enforce them.

The bill went through as somewhat of a joke, nobody giving it serious debate. Assemblyman Bonnett said it was a railroad bill and could easily railroad itself through. After answering a number of "josh" questions from members, the roll was called. Members of the Labor and Capital committee who were out of the room expressed indignation when called to the chamber after the vote had been taken.

FATE OF MEXICO.

(Continued from page one.)
outposts are falling back, refusing battle.

May Delay Attack.
El Paso, Tex., Feb. 4.—The rebel generals, Orozco and Blanco joined forces at noon today, ten miles from Juarez. They are awaiting reinforcements of horses and men before starting the attack on the city, but are expecting to enter Juarez tonight. The leaders are deliberating as to the best points to attack.

After the junction of Blanco's forces, which were fatigued by their long march, they went into camp 10 miles south of Juarez. Their condition may prevent an attack tonight. Terror, which was caused in Juarez at noon today, when a huge dust cloud south was believed to presage the immediate insurgent advance, was allayed later when it was learned that a wind storm had caused all the fear, and that the insurgents were still inactive, save for the skirmishing of their outposts.

Montana Still Deadlocked.

[UNITED PRESS LEARNED WIRE.]
HELENA, Mont., Feb. 4.—The deadlock in the Montana legislature on the vote for a United States senator remained unbroken today. The official ballot gave Carter and Walsh each 31; Conrad 18 and 11 were scattering.

Children Cry FOR FLETCHER'S CASTORIA

There is Only One "Bromo Quinine"

That is Laxative Bromo Quinine
USED THE WORLD OVER TO CURE A COLIC IN ONE DAY.
