WHIRLWIND CAMPAIGN FOR MONEY

PORTLAND ELKS PERFECTING PLAN BY WHICH THEY EXPECT TO RAISE \$125,000 IN TWO DAYS TO SECURE BIG CONVENTION.

[UNITED PRESS RELEASED WIRE.] Portland, Or., Feb. 13.—With characteristic vim and vigor, the B. P. O. Es are today formulating plans for a whirlwind campaign to raise \$100,000 for the entertainment of the national convention of Elks, which they hope to secure for Portland for 1912. The sum considered necessary to care for the antlered herd was tentatively fixed at \$125,000, of which the local Elks have pledged \$25,000 from their own funds. Following the example set by the Lewis and Clark exposition canvassers ten years ago, the committee will strive to make a cleanup of the remaining amount in two days.

The Elks say they have not only been assured of this amount, but much more, if necessary to secure the convention.

JAPAN IS FRIENDLY TO AMERICA

COUNT OKUMA SAYS COMPLETION OF THE PANAMA CANAL WILL MAKE THEIR COMMERCIAL INTERESTS SO GREAT THEY CANNOT AFFORD TO QUARREL.

Tokio, Feb. 13.—Before the Panama Pacific exposition in San Francisco opens its gates, anti-Japanese agitation in California will be dead. The Panama canal will be a guarantee of peace between Japan and the United States.

Count Okuma, one of the elder statesmen of Japan, president of Waseda University and one of the biggest figures in the empire, thus expressed today his belief as to the international effects of the 1915 fair in San Francisco.

"The completion of the canal," he said, "will give such an impetus to trade relations between the United States and the Orient, especially Japan, that the mutual commercial interests, and the desire to maintain and increase them will obliterate such anti-Japanese feeling as now exists in the California legislature. When the Panama Pacific exposition is held at San Francisco, Japan will make every effort to demonstrate her friendliness and co-operation."

COOK CHARGES PEARY SWIPED HIS IVORY

[UNITED PRESS RELEASED WIRE.] New York, Feb. 13.—Evidence that Dr. Fredrick A. Cook, Polar explorer, is going to keep right after Captain Robert E. Peary is soon here today in the charges Cook made in a lecture before the Peledades club. Cook charges that Peary and the "Aretic Trust" has hounded him from the day they first learned he sought the pole.

Cook, in his lecture, alleged that Peary had compelled Rudolph Franke to transfer to him \$10,000 worth of furs and ivory belonging to Cook before he would carry Franke back to civilization.

"One tusk of my ivory collection," Cook said, "which was worth \$1600, Peary got in this way. He later presented it to Colonel Roosevelt as a specimen taken during the Peary expedition."

La Grippe Coughs

The New Arrivals are Making Our Assortment of
Spring Merchandise

More Complete Every Day. New Goods in Every Department
NEW FOULARD SILKS JUST IN, ALSO NEW PONGEES

There will be a great shortage in choice silks this season, owing to their great popularity. Many mills are refusing to promise any further deliveries before April. Our line of silks is not yet complete, but we expect two more large lots early this week. It is predicted that this will be the greatest silk season ever known; you had better not delay purchasing too long. Everything made of cotton will also be scarce; many Eastern mills which produce the greater part of the Gingham, Percales, Lawns and Sheetings have closed down entirely, and the rest of the cotton fabric mills are operating only half time. This means not only a scarcity, but higher prices. It will pay you to make your purchases as early as possible this spring. There is a redeeming feature in the situation, however, because everything made of wool is either better quality for the money or lower in price than it has been for several seasons. You'll notice this especially in the New Spring Dress Goods, which are decidedly better quality than they were last spring.

BOYS' SUITS
For spring are unusually good quality for the price. They're made of the choicest fabrics selected—especially for service which is what every healthy boy needs.

NEW LACES---NEW EMBROIDERIES

Just opened. The dainty patterns in our embroideries will please you. They are made in fine Nainsook and Swiss fabrics with well finished edge that will stand actual wear without fraying. It's true economy to buy good lace and embroidery.

WILL SELL MRS. EDDY'S LETTERS

IN ONE SHE TELLS OF HER MEETING WITH EDDY AND HOW HIS SKILL AND STRENGTH CAUSED HER TO FALL IN LOVE WITH HIM.

tion Science church in 1876, just after the first publication of her "Science and Health with Key to the Scriptures," will be sold at auction on February 23 and 24, according to announcement today.

In one of the missives Mrs. Eddy tells of falling in love with Eddy. Writing to a woman cousin, she told of a sick spell, during which Dr. Eddy was summoned.

"He (Eddy) came when I was unconscious," she wrote, "and immediately broke the spell. I was astonished at his skill; he was calm, clear and strong, and so kind that I fell in love with him."

Pneumonia Follows a Cold.

But never follows the use of Foley's Honey and Tar, which checks the cough and expels the cold. M. Stockwell, Hannibal, Mo., says, "It beats all the remedies I ever used. I contracted a bad cold and cough and was threatened with pneumonia. One bottle of Foley's Honey and Tar completely cured me." No opiates, just a reliable household medicine.

Backache, Rheumatism, Sleeplessness

Result from disordered kidneys. Foley Kidney Pills have helped others, they will help you. Mrs. J. B. Miller, Syracuse, N. Y., says, "For a long time I suffered with kidney trouble and rheumatism. I had severe backaches and felt all played out. After taking two bottles of Foley Kidney Pills my backache is gone and where I used to lie awake with rheumatic pains I now sleep in comfort." Foley Kidney Pills are a reliable remedy for backache, rheumatism and urinary irregularities. They are tonic in action, quick in results and afford a prompt relief from all kidney disorders.

GOVERNMENT CANNOT CANCEL HOMESTEADS

[UNITED PRESS RELEASED WIRE.] Portland, Or., Feb. 13.—In refusing to grant the application of the United States to cancel a homestead patent issued from the Roseburg land office to Charles P. Whitney today, United States Judge Bean announced that in his judgment the government cannot cancel patents issued to homesteaders after a reasonable length of time in which suit for cancellation could have been brought.

The decision is considered to have such an important bearing and will affect the standing of the government in so many similar suits in Oregon and the Pacific Northwest that United States District Attorney McCourt said that he will appeal the case.
Shortly before the exposure of the Oregon land frauds Whitney made proof of claim. An adverse report was made in September, 1906, but the patent was issued a year later. The government claims that Whitney visited the homestead only two or three times and did not take up actual residence and therefore was not entitled to a patent. Whitney lives at Aberdeen, Wash.

GOVERNOR VEToes THE LITTLE BILL

Governor West this morning vetoed House Bill No. 76 which provided for the confinement of appointments to the Oregon Board of Pharmacy to men selected or recommended by the Oregon Pharmaceutical Association and it has been returned to the house for consideration.
In returning the bill the governor says:
"I have no objection to this manner of selecting the board, if it is the wish of the legislature that it be so selected, but as the bill seems to be improperly drawn, and it being held by a number of able attorneys that in effect it abolishes the state board of pharmacy, I feel it my duty to call it to your attention."

CONGRESS IS IN FAVOR OF RECIPROCIty

Washington, Feb. 13.—Immediate consideration of the Canadian reciprocity bill was moved in the house today by Representative McCall, of Massachusetts. Rep. Olcott, of New York objected on the ground that the rules set aside the day for District of Columbia business. The adherents of the reciprocity program began a fight to force its consideration.

A test vote showed that the majority favored reciprocity. McCall moved that the house go into committee of the whole to consider the reciprocity bill. It carried 195 to 121.
Hill, of Connecticut, was the first speaker in favor of reciprocity after the house went into committee of the whole. Every seat in the house was occupied when Hill took the floor and the uproar was deafening when he quoted statistics and Republican campaign pledges in favor of a reduction in the tariff.

Gardner, of Massachusetts, Norris of Nebraska and Humphrey of Washington "hitched" Hill during his reciprocity speech, attacking his arguments on the lumber and fish schedules.
Hill said in defending the president's reciprocity agreement:
"If the proposition were one to form a single magnificent country extending from the Rio Grande to Hudson Bay, not a single member of this house would oppose it. Above and beyond all, we will favor anything making war impossible between two great nations with similar hopes and aims."

AN UP-TO-DATE DRUGGIST

It is surprising how many old-fashioned remedies are being used, which goes to show that it is hard to improve some of our grandmothers' old, time-tried remedies. For instance, for keeping the hair dark, soft and glossy, nothing equaling our grandmothers' "sage tea" has ever been discovered. Although, by the addition of sulphur and other ingredients, this old-fashioned brew has been made more effective as a scalp tonic and color restorer. Nowadays when our hair comes out or gets faded or gray, instead of going to the garden or parrot for herbs and making the "sage tea," we simply go to the nearest drug store and ask for a bottle of West's Sage and Sulphur. This preparation is sold by all leading druggists for 50 cents and \$1 a bottle, or is sent direct by the West Chemical Company, 74 Cortland St., New York City, upon receipt of order.
