FULL LEASED WIRE TELEGRAPH REPORT

The school board will go ahead and adopt plans for the enlargement of the Salem high school. The attempt to switch \$35,000 for the construction of two ward schools has not been worked out. The additional ward schools are much needed, but the bonds were voted for a specific purpose, and probably the board cannot see its way to divert the money to other uses. The high school needs room, and one central school is probably all that Salem can afford at present.

The city administration is going slowly and mountain water, more paved streets and a bridge across the Willamette are matters that can be delayed considerably by those who are inclined to question what has been done in the past. Salem has been a slow town in many ways, and the action of the Board of Trade, ordering a dozen cluster lights put in is a fair specimen of the deliberation that has been customary, when towns as small as Grants Pass have cluster lights on a business street three-fourths of a mile long. Even Woodburn has installed cluster lights.

Having plans to extend its line to Silverton, the Salem, Falls City & Western railroad wants a bridge across the river at Salem, and a franchise through the city to get out to the east. An enlarged state capitol, a million dollars for state institutions at Salem, mountain water (real water, not hot air) and another railroad, with about four miles of hard surface paving, would be quite a record of progress for the city to make in 1911.

The big battle that is next to be pulled off is over the Malarkey public utilities bill. Amendments were agreed upon in the house committee materially changing the bill, so that it will not carry the \$35,000 appropriation to be paid by the general taxpayer, but all public service corporations will pay a tax on their gross earnings to defray the expenses of administration, and thus the general taxpayer will not be asked to contribute to the solution of the problems that belong peculiarly to the cities. These amendments will be championed by Fouts, of Multnomah, and he will throw into them all his legal ability and mettle as a debater, and there will be a different battle from what was put up in the senate. The municipal corporations will get their matters attended to under the Malarkey bill practically at the expense of the whole state, while Mr. Fouts would put the burden of support of the public utilities commission on the corporations direct who get the benefit of the regulation.

The good roads laws are now so far as to have a county bonding act, under which it will be difficult to get bonds, a highway commission shorn of pretty much all its power, and then the state highway commissioner is to be left without any state appropriation to undertake any work with. He and his clerk will draw their salaries, and that is about all the whole thing amounts to, so far. The appropriation bill will be cut down to \$5000 a county, and how much state highway will \$5000 build in a year? The whole good roads agitation ends where it began, except, as usual, there is another commission created, and a few fat places provided for some one who could not get onto the state payrolls in any other way. The state highway is a dream that will remain unrealized for some time to come. It is a question whether we have not first got to work out a county highway plan.

The high school enlargement plan should include a good gymnasium. About three-fourths of the school year are taken up with weather that requires indoor exercises, and the campaign carried on by the student body emphasized the need of a gymnasium. High school education is going in the direction of doing things outside of books. Occupation and manual training shop work, and the development of real men and women, ready for practical struggles of life are taking the place of book-learning. The book learning is important, but will not furnish health and a good constitution for a boy or girl growing rapidly. The board of education has shown a progressive spirit, and should not now abandon the idea of a gymnasium, or stick it off in a corner, but rise to the occasion and provide the Salem high school with a suitable equipment in this respect. The pale-faced kid who is a prodigy of book-learning and the young lady with a beanpole body and a three-story intellect are the small minority, while honest, rugged manhood and womanhood of the common people that will always have to fight the battles of the world for bread and butter must have a place to expand. Buy a few more feet of land on the alley, and give the boys and girls a chance.

THE COUNTY ROAD BONDING BILL.

The house road bonding bill that is the result of compromises between the farmers and the good roads advocates. The bill is probably the best that can be secured at this session of the legislature. Section one provides that any county may issue road bonds. Section two provides that 25 per cent of the voters of a county may call a bond election. Section three provides that the voters may set out the road or roads to be improved in the body of the petition. Bonds may be voted for general or special road construction.

Bad Colds Some colds are worse than others, but they are all bad. Do not neglect them. Treat promptly, vigorously. First of all, ask your doctor about taking Ayer's Cherry Pectoral. Then do as he says. J. C. Ayer & Co., Lowell, Mass.

CHINA IN NO DANGER FROM JAPAN

COUNT OKUMA POINTS OUT THAT IT WOULD BE DANGEROUS FOR JAPAN TO TRY TO CONTROL 400,000,000 CHINESE.

[UNITED PRESS LEASED WIRE.]
Tokio, Feb. 14.—China is menaced today, not by Japan, by its own parliament. This is the opinion expressed by Count Okuma, president of Waseda University, an authority on foreign affairs affecting Japan. "In the next four or five years China's parliament will prove a source of constant danger," he said today. "It may overpower the Manchu dynasty. Debates and discussions might inflame the nation to revolutionary acts. Japan has no idea of conquering China. Korea, with her small population, was difficult to control; Formosa, with 3,000,000 persons, has not been regulated yet China, with her hundreds of millions, would be impossible to control."

WILL TALK LESS AND KNOW MORE

DR. WILEY, WHO IS TELLING HOW TO LIVE CHEAPLY, IS GOING TO MARRY—WILL NOT BE SO GLIB, BUT WILL KNOW A D—D SIGHT MORE.

[UNITED PRESS LEASED WIRE.]
Washington, Feb. 14.—Dr. Harvey H. Wiley, head of the bureau of chemistry, and purvis food expert, who is about to be married, after 45 years of bachelorhood, declared today, in an interview, that the solution of the cost of living problem is up to the housewives. "American women should discharge their cooks and don kitchen aprons," said Dr. Wiley. "If they did they would reduce the waste about 25 per cent. Our people should consume less meat and more vegetables. Housewives should purchase the raw broken cereals, and cook them at home."

An attack of the grip is often followed by a persistent cough, which to many proves a great annoyance. Chamberlain's Cough Remedy has been extensively used and with good success for the relief and cure of this cough. Many cases have been cured after all other remedies had failed. Sold by all dealers.

Wash That Itch Away.

It is said there are certain springs in Europe that give relief and cure to Eczema and other skin diseases. If you knew that by washing in these waters you could be relieved from that awful Itch, wouldn't you make every effort to take a trip to Europe at once. Would you not be willing to spend your last cent to find the cure? But you need not leave home for these distant springs. Relief is right here in your own home town!

A simple wash of Oil of Wintergreen, Thymol and other ingredients as compounded only in D. D. D. Prescription will bring instant relief to that terrible burning Itch, and leave the skin as smooth and healthy as that of a child.

Best possible wash for pimples and all skin impurities. If you have not already tried it, get at least a 25-cent bottle today. We assure you of instant relief. J. C. Perry, Druggist.

Effective Home Remedy for Tuberculosis

It is a serious matter when the lungs are affected. A trip away or to a sanatorium is not only tremendously expensive, but it involves separation from home and friends. Some are benefited, but none can safely return. Eckman's Alternative is effective—no leaving home necessary. For example: "221 S. Atlantic Ave., Haddonfield, N. J. Gentlemen: 'In the Fall of 1907, I contracted a very severe cold which settled on my lungs. At last I began to raise sputum and my physician then told me I must go to California immediately. At this time I was advised to take Eckman's Alternative. I stayed at home and commenced taking it the last week in October. I began to improve, and the first week in January, 1908, I resumed my regular occupation, having gained 25 pounds, fully restored to health. It is now five years since my cure has been effected and I cannot praise Eckman's Alternative too highly. I have recommended it with excellent results.'"
W. M. TATEM
Eckman's Alternative cures Bronchitis, Whooping Cough, Throat and Lung Inflammation, and all other cases of the chest. It is the best medicine ever sold in Philadelphia, Pa. For additional evidence, send for circulars.
For sale by all leading druggists and J. C. PERRY, Salem, Oregon

THE SENATE HOLDS HOT NIGHTFEST

Senator Carson's registration bill passed the senate late yesterday afternoon and should its career in the house be as fortunate and it will become a law and a radical change be made in the registration of voters in every county of the state, save Multnomah which is excepted by the bill.

The bill in brief provides that the county assessor and his deputies, while engaged in assessing property, shall also make a list of the persons entitled to vote. This list is then to be turned over to the county judge for revision and a determination be made, according to a procedure outlined, as to who are entitled to be registered and who are not. A penalty is provided for allowing anyone who is not entitled to exercise the ballot to register.

\$150,000 for New State Building.
Two other bills of Senator Carson also passed and are now ready for the consideration of the house. One of them relating to the charges to be made in the taking of depositions and the other authorizes the state board to acquire a tract of land within three blocks of the state house and erect thereon a building for the supreme court, the library commission and other state officers. The bill carries an appropriation of \$150,000 for the purchase of the land and the construction of the building. The provision in regard to the acquisition of the ground is made so to read that it excludes the possibility of constructing an addition to the present state house.

Bills Passed.
The afternoon was devoted to a steady grinding out of bills and the following were passed: Senator Von Der Hellen's bill fixing the salary of the county superintendent of Jackson county at \$1,800; two bills by the judiciary committee—one relating to the time in which to prosecute appeals to the supreme court and the other to the filing of motions for new trials; Senator Hawley's bill making an appropriation for the Oregon Agricultural college; Senator Barret's, (Washington) authorizing cities to construct sewers beyond their corporate limits; Senator Malarkey's bill authorizing the state land board to make an investigation of the lands held in trust by the state for Willamette & Cascade Wagon Road company under a grant from the federal government and to issue quit claim deeds to the company where conditions warranted it; Senator Burgess's bill to improve and regulate the civil service of the state; Senator Merryman's bill making an appropriation of \$4,000 for a fish hatchery on Spring Creek in Klamath county; Senator Joseph's bill requiring contractors for public works to give a bond and making it a penalty for municipal officers to decline to take such a bond.

Bills Defeated.
Senator Barret's (Umatilla) bill providing for the classification of counties and fixing the salaries of the officers thereof went down to defeat and so did Senator Sinnott's bill which made it unlawful for corporations to exact hospital fees from their employees without their consent.

Most acting-mayors are subject to stage fright.

A quick lunch prepared in a minute. Take no substitute. Ask for HORLICK'S. In No Combine or Trust

QUEEN VICTORIA'S HAIR.

Its Great Profusion Was Always a Cause of Wonder.
Even at the age of 80 years, Queen Victoria's hair was a marvel of luxuriance. The court physician, following Prof. Unna's discovery, undoubtedly, treated her Majesty's scalp with a germ destroying preparation that was not made public. It is now known, however, that the remedy for dandruff, the germ destroying element, is embodied in Newbro's Herpicide, the only hair preparation on the market that does destroy the hair will grow profusely, and falling hair will be stopped. "Destroy the cause, you remove the effect." Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. One dollar bottles guaranteed. J. C. Perry, Druggist.

MIGHT BE DEAD TODAY

Garden City, Kan.—In a letter from Mrs. James Hamner, of this city, she says, "I firmly believe that I would not be alive today, if it were not for Cardul. I had been a sufferer from womanly troubles all my life, until I found that great remedy. I feel that I can't praise it too highly." Are you a woman, suffering from some of the troubles to which a woman is peculiarly liable? If so, why not try Cardul, the woman's tonic? You can rely on Cardul. It is purely vegetable, perfectly harmless, and acts gently but surely, without bad after effects. "Twill help you. Ask your druggist."

A King Who Left Home

set the world talking, but Paul Mathuka, of Buffalo, N. Y., says he always KEEPS AT HOME the king of all laxatives—Dr. King's New Life Pills—and that they're a blessing to all his family. Cure constipation, headache, indigestion, dyspepsia. Only 25c at J. C. Perry's Drug Store.

If a very bad boy will not be received at the reform school and may not be sent to the penitentiary, he is surely on the road to ruin.

Attack Like Tigers.

In fighting to keep the blood pure the white corpuscles attack disease germs like tigers. But often germs multiply so fast the little fighters are overcome. Then see pimples, boils, eczema, salt rheum and sores multiply and strength and appetite fall. This condition demands Electric Bitters to regulate stomach, liver and kidneys and to expel poisons from the blood. "They are the best blood purifier," writes C. T. Budahn, of Tracy, Calif. "I have ever found." They make rich, red blood, strong nerves and build up your health. Try them 50 cents at J. C. Perry's Drug Store.

Children Cry FOR FLETCHER'S CASTORIA

THINKS HE HAS FOUND THE REAL TRUE REASON

Editor Journal: I find in the Journal of yesterday (Friday) evening this:
"It is a pity that Salem is too poor to afford a uniform system of pavement, like Eugene, Albany, Corvallis and other cities in the state. Sure enough! It is a pity it is true, and true that it is a pity. Perhaps the explanation may be found in the fact that these enterprising cities went dry, while Salem went wet! What now becomes of the contention of the advocates of the saloon (the Journal included) that if we outlawed the liquor traffic that it would kill prosperity; that grass would grow in our streets, even on the bitulithic or concrete pavements, if we voted dry? Bah!"

JOHN P. ROBERTSON.
Feb. 11.

Thirty Years Together.

Thirty years of association—think of it. How the merit of a good thing stands out in that time—or the worthlessness of a bad one. So there's no guesswork in this evidence of Thos. Ariss, Concord, Michigan, who writes: "I have used Dr. King's New Discovery for 30 years, and it's the best cough and cold cure I ever used." Once it finds entrance in a home you can't pry it out. Many families have used it 40 years. It's the most infallible throat and lung medicine on earth. Unequaled for lagrippe, asthma, hay fever, croup, quincy or sore lungs. Price 50c, \$1.00. Trial bottle free. Guaranteed by J. C. Perry, Druggist.

Salem Cement Sewer Pipe

Glazed inside by friction; made with Salem labor, by Salem men, with Salem money. Patronize home industry. Delivered in all parts of the city. House connections a specialty. Cement sewer pipe does not have to be burned, so does not warp as salt-glazed pipe does. Cement pipe has greater compressive tensile and bursting strength.

We exercise the greatest care in the manufacture of this pipe, using a mixture of one part cement to two parts coarse, clean sand.
