### LEGISLATURE SNAPSHOTS.

The senate engrossing committee has broken all records by working every night last week and will have to do it again this week. The young ladies have nearly ruined their complexions and deserve the protection of an eight-hour law.

Mr. Amme seems to get some kind of vertebatic stimulation out of voting NO on most bills. Does he not know that whether he knows anything about a bill or not, or whether anybody is holding to have a bill passed or not, it is considered almost a breach of legislature etiquette to vote NO quite so frequently. What rae you here for if not to vote YES?

Mr. Ambrose showed himself a bold and ready fighter to kill the bill requiring that true net weight be marked on all packages of food products hereafter sold in Oregon. As Mr. Ambrose is connected with the wholesale business, he had no particular interest in the passage of Mr. Shaw's bill. Wholesalers and retailers could make an honest living under such a law.

Representative Jawbrake wants to have it explained why he should vote salaries all the way from \$1,500 to \$5,000 a year when he only gets \$2.00 a day for 49 days or \$40 a year for two years to create all the other offices. The \$3.00 a day job is never refused. No one ever resigned it. A flat salary of \$3.00 a day for all public officials would be about twice what a laboring man gets and he is able to live and support his family. Officials could live for \$2.00 a day and save a dollar a day at that, and as they hardly ever get out of office but stay in for life, they are 50 per cent better off than those who work for a living.

## IMMIGRATION FOR OREGON IS PROMOTED

WESTERLUND MAKES STRONG SPEECH THAT CARRIES THE MEASURE—SAYS OREGON IS BEHIND OTHER STATES IN GETTING DESIRABLE POPULATION.

When the Abbott bill to create the office of a state immigration department was up for third reading Hunt,ington made a hard fight against it, and there was some danger of its defeat. Westerlund, of Jackson, jumped to his feet and made a powerful plea for the bill.

He said Oregon was 50 years behind some other states, and that the great need of the state was to secure more agricultural laborers and families who would make homes on the small tracts and develop the dairy and fruit industries. We needed more Germans, Scandinavians and the thrifty and industrious laboring people of Northern Europe.

The house then passed the bill for an act creating the office of state immigration agent and prescribing his duties, and authorizing such agent to co-operate with and delegate to the Oregon Development League and the Department of Commerce of the Agricultural College of the state of Oregon, immigration advertising and statistical work, respectively; and making appropriation for the carrying on of such work of \$25,000.

It contains the following sections: That for the purpose of securing desirable immigration to the state of Oregon, and for the purpose of preparing and distributing at immigration stations and elsewhere in the United States statistical information and literature setting forth the resources, industries, products and physical characteristics of the state of Oregon by published bulletins, reports and other documents, and for the purpose of classifying and having of record reliable statistical and other information of such resources and industries of the state, the office of state immigration agent is hereby created.

There shall be appointed by the governor within 30 days after the taking effect of this act, some person to the office of state immigration agent who shall hold said office for the term of four years, unless sooner removed by the governor for cause, and who shall serve without compensation.

There shall be and is hereby appropriated out of any moneys in the state treasury not otherwise appropriated the sum of \$20,000 for the necessary expenses of carrying on the immigration advertising work, and the further sum of \$5000 for statistical research and collection for the period from January 1, 1911, to January 1, 1913. Upon requisition being made by the state immigration agent the secretary of state shall draw quarterly warrants upon the state treasurer in favor of the respective league or department necessarily expending funds for the work done by it. The state immigration agent shall not be accountable for any money for which he may issue requisition regularly under this act, and turn over to said Oregon Development League or said Department of Commerce, but he shall take receipt for and require vouchers to be furnished him covering expenditures under the distribution of said funds. The receipts and vouchers are to be filed by him with the secretary of state with his annual report.

## WOMEN MAY AVOID OPERATIONS

By taking Lydia E. Pinkham's Vegetable Compound

The following letter from Mrs. Orville Rock will prove how unwise it is for women to submit to the dangers of a surgical operation when it may be avoided by taking Lydia E. Pinkham's Vegetable Compound. She was four weeks in the hospital and came home suffering worse than before.

### Here is her own statement.

Paw Paw, Mich.—"Two years ago I suffered very severely with a diarrhea, and I could not get on my feet for a long time. My physician treated me for seven months without much relief and at last sent me to Ann Arbor for an operation. I was there four weeks and came home suffering worse than before. My mother advised me to try Lydia E. Pinkham's Vegetable Compound, and I did. Today I am well and strong and do all my own housework. I owe my health to Lydia E. Pinkham's Vegetable Compound and advise my friends who are afflicted with any female complaint to try it."—Mrs. ORVILLE ROCK, R. R. No. 5, Paw Paw, Michigan.

If you are ill do not drag along until an operation is necessary, but at once take Lydia E. Pinkham's Vegetable Compound.

For thirty years it has been the standard remedy for women's ills, and has positively restored the health of thousands of women. Why don't you try it?

## THE POSTOFFICE, THE POPULAR MAGAZINES AND THE PEOPLE

A provision has been added to the postoffice appropriation bill by the Senate postoffice committee without proper notice or public hearing. It provides for an unjust, discriminatory and confiscatory tax on the popular magazine by attaching this provision to the postoffice appropriation bill at the eleventh hour. All opportunity for open discussion and consideration by the people, the publishers and the Senate was cut off. It was an un-American Star Chamber proceeding, accomplished under Presidential and political coercion.

If this bill is passed with the provision which practically exempts from taxation magazines which have not spoken boldly on public questions, many of the popular periodicals will be put out of business altogether and the others, without exception, will be seriously crippled. Even if it were possible for the magazines to continue in business under these new conditions, the people would derive no benefit from the measure, for until the Postoffice Department is taken out of politics, and a business-like management installed, it is improbable that any additional revenue collected will be used economically.

We urge every friend of honest politics, economical government and a free press to telegraph or write an immediate protest to their Senators and Representatives.
