Fishing Season Closed-- Today marked the closing of the salmon fishing season on the Willamette, Clackamas and other tributaries of the Columbia river, and they will remain closed until May 1. These streams under the law, should remain closed only until April 15, but the law vests the state board with certain prerogatives in the matter and it decided to close it until May 1, when fishing will also be opened on the Columbia.

Looks for Large Attendance-- President Ackerman of the Monmouth Normal school has been spending a few days in the city. In the near future he expects to be east to select his faculty. He predicts that the enrollment on the opening day will be 300 and is looking forward to a most successful year of school work.

Terms Expired-- The terms of Mark Hurboldt, of Albany, and Henry Downing of Shaw, as members of the state fair board, have expired and their re-appointment or the appointment of their successors will be made in the course of a few days by Governor West. Until the appointment is made it is doubtful whether the board could meet and legally transact business.

Veterinary Board to Meet-- Governor West has called a meeting of the state veterinary board for Saturday for the purpose of having it elect a president and organizing for business. For some time the board, it seems, has been without a president and the governor takes the position that if it is to carry out the purposes for which it was created, it must organize. The members of the board are: F. T. Notz, Baker; J. F. Morrel, Corvallis; B. M. Weller, Eugene; B. S. Eddy, Oregon City; and W. H. Lyttle, Pendleton.

Don't Forget the Masquerade Ball-- St. Patrick's evening, March 17, 1911, given by Silver Bell Circle, W. of W., at Steeves hall, corner State and Liberty streets. Music furnished by Prof. Stoudenmeyer's orchestra. Prizes will be given. Waxed floor. Admission, 25 cents. 3-15-2t

Governor West Is Back-- Governor West returned last evening from the Sluway country where he went to inspect tide lands along the Sluway river, which the Sluway Lumber company desires to purchase. As soon as the state land board meets he will make a report to it as to his investigations.

To Render Decisions In Afternoon-- After March 28, according to an announcement made by the supreme court, that tribunal will render its decisions at 1 o'clock in the afternoon instead of 10 o'clock in the forenoon. The reason for the change is that under the present system the court is compelled to prepare its opinions of evenings and at night, and to listen to the argument of cases during the forenoon and afternoon. Under the new arrangement the justices will be given the forenoon in which to prepare their opinions and the afternoon will be reserved for the argument of cases.

Welch Funeral Held Today-- The funeral of Earl Howard Welch, who died at Vancouver, Washington, from pneumonia, was held this afternoon at 2 o'clock from the chapel of the undertaking firm of Lehman & Clough. THE MOVED IN TEN MINUTES STORE AND ALL

San Diego, Cal., March 15.—Typhoid vaccination is now well under way with the soldiers of the provisional brigade stationed at San Diego. Not one case in 100,000 has occurred after vaccination, it is declared. Three applications of the serum are necessary, ten days apart, in order to guarantee good results. Unlike the vaccine for smallpox, the typhoid vaccine has no appreciable effect. It leaves no sores and there is small danger from blood poisoning where ordinary precautions are taken. Officers and men over 45 years of age are not compelled to submit to the vaccination, the matter being optional with them, as they are considered reasonably safe from the disease.

Moving with a red hot stove is one of the every day stunts of the American army. Yesterday orders were received by Company B, 36th Infantry, stationed at Camp San Diego, to move to Tia Juana. The orders arrived at 2:10 p. m., just after the men had eaten—the stove was still red hot. In 11 minutes the camp had moved, red hot stove included, and was steaming over the bay to San Diego on the tug Lieutenant Harris. Two men in swimming were excused and ordered to report at the front as soon as they were dressed, as Lieutenant Wade, commanding, did not care to take them along in their bathing suits.

Major Blakely, inspector general, is having a busy time today inspecting the brigade camp. It is reported from headquarters that there are no plans for moving the brigade camp from Point Loma. Frequent moves by companies and battalions will be made to the camp grounds at La Mesa for practice work, but no permanent camps will be maintained there, it is said.

MANY ARE HURT IN HEADEND COLLISION

[UNITED PRESS LEARNED WIRE.] San Bernardino, Cal., March 15.—One man is reported killed and 29 injured in a head-on collision between Santa Fe passenger trains Nos. 41 and 42 near Glendora, at 10:45 this morning.

Los Angeles, Cal., March 15.—General Manager Brewer today verified reports of a collision between two passenger trains at Glendora this morning, and dispatched a relief train with physicians and nurses to the scene. No details of the wreck have been received.

TO INTERVENE IF CHIHUAKUA IS CAPTURED

[UNITED PRESS LEARNED WIRE.] Cleveland, O., March 15.—American intervention in Mexico when the rebels capture Chihuahua was predicted today by United States Senator Theodore Burton. America would invade Mexico and establish the government there on a firm footing, he said, and then withdraw. "We have nothing to fear from Japan," Burton said. "The Mexican situation is grave, but it is merely a serious revolt. Should the United States intervene it would be a repetition of the Cuban intervention."

LOOTED CARNEGIE COMPANY. New York, March 15.—When the grand jury begins its investigation into the looting of the Carnegie Trust Company, Andrew Carnegie will be among the witnesses. District Attorney Whitman said this afternoon that Carnegie had advanced a vast amount of money to the institution bearing his name, although he was not officially connected with it.

OFFICIAL JAP PAPER (Continued from page one.)

American fleet conceivable would be helpless in such an immense area of operation as the Pacific ocean without advance bases so that capture of these bases by Japan would render that country undisputed mistress of the Pacific.

Could Hold Islands Now. "There can be no doubt that Japan is now in a position to seize islands, because either they are unfortified or insufficiently fortified, and the sufficient protection of the American fleet is impossible. The sudden seizure of these islands is neither desirable nor improbable. It must be remembered that the time is rapidly approaching when Japan will be compelled to defend her political and commercial condition under less favorable circumstances, and so that reason operates in favor of the earliest possible seizure of America's Pacific possessions. That American officials realize this is shown by their feverish haste to fortify the Panama canal.

A significant sidelight on Japan's attitude toward the use of the Philippines as a naval base is afforded by the fact that a large floating dry-dock, conveyed to Olongapo under difficulties developed a leak in a most inexplicable manner and sank. This and many circumstances kept quiet show that Japan is almost ready to deprive the United States of her naval base before the American fleet grows to such an extent that its superiority over the Japanese navy would be overwhelming."

Japan Ready to Strike. The article criticizes America's failure to properly fortify its Pacific possessions, and refers to the fact that Admiral Dewey, immediately after the Portsmouth peace conference, said that Japan would soon be too powerful for America. Count Von Reventlow asserts that Japan was hard at work preparing for war when the American fleet was sent to the Pacific, and that this produced "temporary tranquility" but that Japan is now ready to strike. "In conclusion the count says: "The seizure of the American islands in the Pacific would be essentially a defensive act on Japan's part, notwithstanding its aggressive character. It is a question of life with Japan, and there is no doubt whatever that her rulers are fully aware of this truth."

Indorses His Views. Washington, March 15.—Discussing Count Von Reventlow's statement of the preparedness of Japan and the United States for war, Frederic Hudekoper, the noted military expert, today said:

"That is the sanest statement of the real situation I have read. There are about 50,000 Japanese in Hawaii, all veterans of the Russian war. There are armed Japanese there working as menials. Within three days after word was given they could be organized into an effective fighting corps, officered and armed. "It would be the best thing for us, if we should have war with Japan, that the first year we should be beaten. I do not think any nation in the world could ultimately beat the United States. We would be beaten the first year, but after that the United States would wake up and be ready. England is in the same position. She never is ready for war, and always has been beaten at the outset, because she never has been prepared. We are worse off than England."
