

# COAST COAL CONDEMNED BY THE NAVY

**AFTER SEVERE TESTS BY THE CRUISERS THE PACIFIC COAST COAL IS PRONOUNCED UNFIT BY THE NAVAL BOARD.**

[UNITED PRESS LEASED WIRE.]

San Diego, Cal., March 17.—What ever the original purpose of the assembling of the United States cruiser fleet here, announcement by Admiral Thomas to the United Press today precluded the possibility of any immediate war move. Admiral Thomas stated that target practice by the cruisers of Coronado would be resumed at once, and this means that the vessels will be less scattered and that the present and commanding supply of coal will be used up so rapidly as to affect the readiness of the warships for immediate cruising.

All the cruiser men will now begin on various kinds of target work, including boat and shore practice. The West Virginia and Maryland men have more to do than those of the other cruisers on account of having lost time during the coal tests, that have been occupying them for two months.

Damaging facts about the value of Pacific coast coal were brought out in these tests, the official report declares. The sister cruisers, Maryland and West Virginia, up to the time of their arrival here last week, were steaming under the same conditions at the same times, the Maryland burning Pacific coast coal and the West Virginia using the regular Eastern supply of the navy. Coming to San Diego from Puget Sound last week the Maryland consumed 500 tons more coal than the West Virginia. The Pacific coast coal is also exceedingly bad for the boiler tubes, it is alleged.

Interested Seattle men complained that the Pacific coast coal in the Maryland bunkers had been mined too long, so another trial was made with some fresh from the screens. The result was the same.

Admiral Thomas states that such is the substance of the official report submitted to him by Captain J. M. Orchard, of the West Virginia and Captain James C. Gilmore, of the Maryland.

The report has been forwarded to the navy department.

# PLANT MINES IN HARBOR AT SAN FRANCISCO

San Francisco, March 17.—On April 1 three mine-planting companies will begin the work of mining the entrance to San Francisco harbor, under the supervision of coast artillery officers, in accordance with orders from the war department.

A second order directing the distribution of the provisional regiment of artilleryists at the Presidio to the forts about the bay was obeyed within an hour after its receipt. The various emplacements could be manned with service gun crews at the present time, but sufficient men for relief duty are not at hand, according to army officers.

The mine planting order marks a more alert coast defense. The three artillery companies comprise 300 men who will become skilled mine operators under experienced officers. The planting will be done at night in order to give the men experience in mining a harbor under cover of darkness. In addition to this, night practice on the rifles at the forts will be held. The operations will be under direction of Captain Johnson, district artillery engineer.

Although it was first declared that the mines would be "dummies," it was later admitted that certain harbor pilots would be given charts of the mine fields and entrusted with the safety of shipping entering or clearing from San Francisco.

The mine fields will be scattered in strategic positions, the greater number being placed in front of the entrance to the golden gate.

Army officers declare that the planting is part of the yearly "maneuvers" of the coast defense, but the order caused considerable speculation at the presidio. The thoroughness of the mining plans, as revealed, in connection with rifle target practice and exploding of mines, however, is admittedly unusual.

# INTERESTING LECTURE LAST NIGHT

**MR. WEED TALKED ON TREES, SHRUBS AND FLOWERS, AND BEAUTIFYING THE CITY, TALKS AGAIN TONIGHT ON PLAY-GROUNDS FOR THE SCHOOLS, ETC.**

Of great interest to his audience was Howard Evaris Weed's lecture last night on "Trees, Shrubs and Flowers." His suggestions for adapting them to the grounds of homes, factories and parks were illustrated by numerous stereopticon views, presenting a practical working knowledge to the amateur gardener. His talk throughout showed a deep study of his subject, and the methods of caring for sick and deformed trees, was a revelation. His subject this evening will be "A More Beautiful Salem" and he will talk of the wonderful possibilities here which he has been investigating for the past two days. He declares this can be made an ideal "City Beautiful"; as 80 per cent of the residents own their homes, while the average throughout the United States of home owners, is but 20 per cent. This statistic alone should cause an awakening, and every man, woman and child with a love for the beautiful, should take advantage of this opportunity to learn how to direct their efforts for the best results. In tonight's lecture Mr. Weed will outline a plan for public playgrounds for children, which have come to be recognized as second in importance only to the school itself, in making fine men and women.

# IT GROWS HAIR

**HERE ARE FACTS WE WANT YOU TO PROVE AT OUR RISK.**

Marvelous as it may seem, Rexall "93" Hair Tonic has grown hair on heads that were once bald. Of course, in none of these cases were the hair roots dead, nor had the scalp taken on a glazed, shiny appearance.

Rexall "93" Hair Tonic acts scientifically, destroying the germs which are usually responsible for baldness. It penetrates to the roots of the hair, stimulating and nourishing them. It is a most pleasant toilet necessity, is delicately perfumed, and will not gum or permanently stain the hair.

We want you to get a bottle of Rexall "93" Hair Tonic and use it as directed. If it does not relieve scalp irritation, remove dandruff, prevent the hair from falling out, and in every way give entire satisfaction, simply come back and tell us, and without question or formality we will hand back to you every penny you paid us for it. Two sizes, 50c and \$1.00. Sold only at our store—The Rexall Store, Salem, Oregon.

## WHY IT SUCCEEDS

Because It's for One Thing Only, and Salem People Appreciate This. Nothing can be good for everything. Doing one thing well brings success.

Doan's Kidney Pills do one thing only. They help sick kidneys. They are for backache, other kidney ills.

Here is Salem evidence to prove it. W. C. Johnston, 1021 Mill street, Salem, Ore., says: "About a year ago I had an attack of Lagrippe and upon recovering I noticed that my kidneys were disordered. I suffered from pains in the small of my back, especially severe at night, and when I arose in the morning I was very lame and sore. I became tired easily, felt languid nearly all the time and was also subject to headaches and dizzy spells. The kidney secretions were irregular in passage and otherwise unnatural. Doan's Kidney Pills were finally brought to my attention and I began their use. The contents of the first box, obtained at Dr. Stone's Drug store gave me great relief and I am now in excellent health." (Statement given March 30, 1906.)

## Three Years Later.

On November 20, 1909, Mr. Johnston said: "The statement I gave for publication three years ago, recommending Doan's Kidney Pills still holds good. I will always think highly of this remedy."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

## Remember the name—Doan's—and take no other.

## Not a Word of Scandal

Marred the call of a neighbor on Mrs. W. P. Spough, of Manville, Wyo., who said: "She told me Dr. King's New Life Pills had cured her of obstinate kidney trouble, and eased her feel like a new woman." Easy but sure remedy for stomach, liver and kidney trouble. Only 25c at J. C. Perry's.

## Notice of Intention to Improve Twelfth Street.

Notice is hereby given that the common council of the City of Salem, Oregon, deem it expedient and proposes to improve Twelfth street, in the City of Salem, Oregon, with concrete pavement from the south line of Bellevue street to the south line of Mission street at the expense of the adjacent and abutting property within said limits, and according to the plans and specifications adopted for said improvement and on file at the office of the city recorder, which said plans and specifications are hereby referred to for a more specific and detailed description of said improvement, and are hereby made a part of this notice.

This notice is published ten (10) days pursuant to the order of the common council, and the date of the first publication thereof is the 14th day of March, 1911.
