LIMANTOUR TAKES CHARGE OF MOVE TO BRING ABOUT PEACE IN MEXICO

ASKS REBELS TO DISARM AND THEN SEND DELEGATES TO NATIONAL CONVENTION

Rebels Say They Know Diaz, and Will Negotiate Only While They Are Armed--Once They Give Up Their Arms Diaz Will See That They Have No Headpieces Left to Negotiate With, As He Would Order Their Backs to the Wall and a Firing Squad to Do His Part of the Negotiating.

[UNITED PRESS LEASED WIRE.]
El Paso, Tex., March 21.—That Jose Yves Limantour, principal adviser of President Diaz, has been placed in charge of the Mexican interior affairs, and that he soon will issue an order to the insurgents to abandon their arms and send delegates to a national convention at Mexico City was stated in official circles at Juarez today. The convention, it is said, will take up reforms demanded by the insurgents. It is declared that President Diaz will not resign and that he will not order a new election as long as a single man is under arms against the government. A large body of insurgents, it is reported, crossed the Rio Grande into Mexico near Langtry last night with much arms and ammunition. A company of the 23rd infantry under Captain Dillingham, started today for

MURDERED HER SON AND THEN KILLED HERSELF

[UNITED PRESS LEASED WIRE.]
Walla Walla, Wash., March 21.—For a reason that probably never will be known, Mrs. George Wilcoxson, of this city, shot her 23-year-old son, William, and then blew out her own brains with the same gun. Neighbors heard the shots, but paid no attention to them, and as the father was not at home, the crime was not discovered until today. A search revealed the murder and suicide. The woman left no note, and her friends know of no reason for her act. That it was an acute attack of insanity seems to be the only theory of the tragedy. The weapon was found in her hand. The young man was asleep when killed. The father, who travels for the Best Manufacturing company, of this city, is on the road, supposedly somewhere in Montana.

Mizner, brother of Brigadier-General Henry Mizner, of Detroit, is lying delirious at the county hospital here, his face torn to pieces from a premature explosion of dynamite at La Mesa yesterday. The right eye ball was worn out, but the doctors say there is a chance for the left eye. Mizner, who is 55 years old, recovers from the shock.

Langtry, which is 300 miles below here. Washington, March 21.—The administration apparently "marked time" today until the result of Minister Limantour's mission to Mexico City shall have become known. It was learned that Limantour carried official messages to President Diaz from the Taft administration. On account of the absence of several members the cabinet meeting set for today was postponed until tomorrow. It was asserted that no need for hasty action by the cabinet existed, and that the president personally does not fear international complications from the Japanese angle. The war department announced today that hereafter it will publish all orders to troops participating in military maneuvers.

Los Angeles, Cal., March 21. Greeted by 20,000 Angelinos, headed by Mayor Alexander and a committee of 300, Colonel Theodore Roosevelt arrived in Los Angeles at 10:30 today. When the train drew up, Roosevelt, with his wife and daughter were standing on the rear platform. A wild cheer was loosed, and the colonel, leaning over the railing, grasped Mayor Alexander's hand. One Round Was Enough.

Aboard Flagship Connecticut, cut, off Tangier Island, Chesapeake Bay, Md., March 21.—Just one round of firing from the great guns of the battleship New Hampshire was required here today to put the old battleship Texas, now the San Marcos, out of commission. The guns were trained on the San Marcos to test the new "detached explosive," to be used in the navy. After only one round had been fired the San Marcos was in an unseaworthy condition.

ANOTHER MAN HAS A HOP DREAM

Burr McIntosh, Said to Be a War Correspondent, Talks Like He Had Been Drinking From Hobson's Milk Bottle.

JAPS COULD TAKE COAST

Says There Are 60,000 Armed Japs on the Coast—Japs Could Land 200,000 Men Here in 30 Days, 10,000 Japs in Seattle Could Take That City and all the Sound—And More Stop of Same Kind.

[UNITED PRESS LEASED WIRE.]
Portland, Ore., March 21.—"I was recently told by officers high in the navy that the Washington government has known for some months that there is a force of 60,000 trained Japanese in Oregon, Washington and California, all with rifles and ammunition," said Burr McIntosh, famous war correspondent, who is in Portland today. "In my opinion," he continued, "Japan and the United States will be involved in war and the time is not so far distant as many imagine."

"I have been making a careful study of the situation and am convinced that the Japanese now here, working as laborers and servants are ready to take up arms at a moment's notice. Their first act will be to blow up the passes between the Pacific states and the East—thus cutting off all communication by rail. Then, with a fleet of 230 merchant vessels and men of war that Japan has been collecting for two years she can land 200,000 men here within 30 days. There are 10,000 Japanese in Seattle alone, and this force could easily take the Puget Sound country." McIntosh intimated that Japan would start trouble by insisting that the Panama canal should remain unfortified.

CORPORATION FALSIFIED ITS RECORDS

[UNITED PRESS LEASED WIRE.]
San Francisco, March 21.—Falsification of corporation books and false quotations of the company's financial status are charged in an affidavit filed by J. T. Wampler, manager of the superior court here today against I. Strossberger, manager of a local concern, said to be buying up land for the Associated Oil company. Wampler asked the court to order Strossberger to return a fee of \$150,000 which he says he paid him in connection with the sale of \$3,000,000 worth of oil land in Kern county. Wampler claimed that Strossberger is not entitled to the commission.

A MILLION A WEEK FOR THE MAILS

UNCLE SAM THIS YEAR PAYS THE RAILROADS THAT SUM FOR CARRYING THE MAILS--\$5,000,000 MORE THAN LAST YEAR.

[UNITED PRESS LEASED WIRE.]
Portland, Ore., March 21.—Uncle Sam will pay the railroads of the United States \$50,000,000 this year for carrying the mails—an advance of \$5,000,000 over any previous figure.

The new postal law, copies of which have been received by postoffice officials in Portland, shows the appropriation for the inland transportation of mail by railroads to be \$50,992,200, of which about \$49,000,000 will be available July 1 of this year. Wooden mail cars will have to go out of commission soon, however, unless what may be a joker in the new postal law kills the intent of the department. The law provides that after July 1 no wooden cars, except those approved by the postmaster-general, can be operated in trains where the majority of the cars are steel or steel underframe, or between the locomotive and a steel frame car.

A Woman's Smoking Club.

[UNITED PRESS LEASED WIRE.]
Boston, Mass., March 21.—A temper has been caused in the Back Bay section by the efforts of Mrs. Walter B. Leeds, of New York, to establish a new club for women in the quarters occupied by the British Tea Table, in Boylston street. The announcement that women will be allowed to smoke in the new club is the reason for the angry babbling between smokers and anti-smokers.

ANTI-CIGARETTE BILL IS NOW REPEALED

[UNITED PRESS LEASED WIRE.]
Olympia, Wash., March 21.—The Collins anti-cigarette bill, repealing the law prohibiting cigarettes within the state of Washington, was signed by Governor Hay today. Under the new law it is still a misdemeanor for minors to smoke cigarettes.

Those who favor the old law persisted today in declaring that the Collins law repeals the measure which prohibits women from entering saloons.

Watching for Murderer.

San Francisco, March 21.—Circulars offering a reward of \$750 for the arrest of the fiend who murdered Barbara Holzman, the 5-year-old daughter of V. Holzman, of Portland, Or., were received by the police department here today. Detectives are anxiously awaiting advices from members of their posse, who are stationed on the schooner Elizabeth, now discharging her cargo at a wharf in Oakland. It is believed the murderer may have left the scene of his crime by stowing away on this vessel. All but the hold of the ship has been searched, and this part of the craft will be opened some time today.

WIRELESS FIGHTING NOT DANGEROUS

REBELS AND FEDERALS BOTH HAVE LARGER BILLS FOR AMMUNITION THAN FOR COFFINS AND SURGEONS' WORK.

[UNITED PRESS LEASED WIRE.]
San Diego, Calif., March 21.—Reports from Tecate, Lower California, today were that the federal troops were still keeping up a fight across the narrow valley near the town with the revolutionary force. This force, said to number 200 and to be under the command of Berthold and Leyva, is keeping the federals well within their scant fortifications. There was a good deal of firing last night, but no damage was reported from the federal side.

McCULLOCH DISMISSED DAIRYMPLER RESIGNS

Without assigning any reason for his act—at least to the public—A. M. Dairymple who has been for four years at the head of the commissary department of the state penitentiary yesterday tendered his resignation to the superintendent and it has been accepted. Guard McCulloch was dismissed from the institution some time ago and the reason assigned for it was that he had criticised the management. In the case of Dairymple there seems to be no such reason, however, but in view of the fact that the resignation came so suddenly and the fact that he declines to discuss it has caused some to believe that—well, anything they wanted to believe.
