

# THE EASTER FASHIONS IN NEW YORK

DETAILS THAT MARK THE SEASON'S STYLES—ONE-SIDED EFFECTS—FREAKISH COATS—CORD GIRDLES—BELTS AND FIXINGS.

New York, April 4.—Short coats, straight skirts with long, loose panels at the back, high-lifted waist lines and averted sleeves, most of them cut in one with the rest of the garment, are some of the striking details of this season's styles. Skirts are somewhat wider but still straight and clinging in effect, with few pleated models in the smartest showings. The circular or gored skirt, plain all round or with inverted plaits front and back is the leader for suits.

**For Fussy Dresses.**  
For fussy dresses made of thin silks, voiles or chiffons skirts filled into the waist are often seen, but even these measure not over three yards at the foot, and fall into much narrower lines over the skimpy drop skirt. Some of the French dresses show a rushing of the dress material or of net bound with the material at the hem of the skirt, the hems of silk, satin, cloth or braids in matching or in contrasting colors are very much used. Especially on the dresses of white cotton voile that promise to be a veritable craze this year, are their colored hems of voile to match the tones employed, in the beaded or embroidered patterns that, with lace, trim such gowns attractively.

**The Clever Needle Woman.**  
The clever needlewoman scores this year, if ever, for a little time spent in embroidery a blouse or dress patterns turns an inexpensive investment in material into styles that bring very high prices when bought ready made. French knots done in beaded patterns in heavy embroidery silks make modish garnitures quickly accomplished. The couching of heavy threads in the brilliant corals or blues particularly effective on whites or very light grounds, is another fashionable form of embroidery that is easy to do, and goes quickly.

**Cord Girdles.**  
Cord girdles continue their vogue and beaded styles and those with contrasting colors or tinsel in their weave add much to the style of many toilets. Mercerized cords are used in the same way with linens, voiles and other wash fabrics.

**New Footwear.**  
Spats and colored uppers, or shoes that give a spat effect are very much worn by the fashionable. Hosiery

matches usually, and patent leather fixings are popular. With black tailored suits of satin or serge, white spats, gloves and hat or hat trimmings are smartly worn here. Black ties with red hose, red hat and other touches of the color are also somewhat seen, but are rather garish.

**Matching Sets.**  
Sets of matching scarf, toque and parasol are replacing the fur match ups of the winter, and are similarly useful in dressing up a plain gown or suit becomingly. These are often of embroidered or beaded, or French knot designs. Sometimes the work is done in raffia, a straw-like material familiar in basquetry, that can be had in almost any desired shade.

**One-Sided Effects.**  
One-sided effects prevail not only in elaborate toilets, but in simple, practical morning dresses and suits. They are not only novel but almost universally becoming, since the woman with Maudie's type of face, "jelly regular," is the only one who looks her best in set styles, and she is the exception.

Wherever colors emerge into the open from their numerous veillings they are decidedly noisy. Only their Oriental combinations saves them from being unpleasantly insistent. Fortunately veillings show no sign of abatement and gowns built of many materials are the rule.

**LUCY CARTER.**  
Nothing distresses a woman more than to have a style go out just as she has saved sufficient money to get an article of the sort that has been the darling of her desire.

### High Pressure Days.

Men and women alike have to work incessantly with brain and hand to hold their own nowadays. Never were the demands of business, the wants of the family, the requirements of society more numerous. The first effect of the praiseworthy effort to keep up with all these things is commonly seen in a weakened or debilitated condition of the nervous system, which results in dyspepsia, defective nutrition of both body and brain, and in extreme cases in complete nervous prostration. It is clearly seen that what is needed is what will sustain the system, give vigor and tone to the nerves, and keep the digestive and assimilative functions healthy and active. From personal knowledge, we can recommend Hood's Sarsaparilla for this purpose. It acts on all the vital organs, builds up the whole system, and fits men and women for these high-pressure days.

Col. Roosevelt says that he considers the republican party an instrument that just at present it is somewhat out of tune.

## LORIMER'S ATTORNEY DENIES IT

THIS DENIAL COMING FROM A MAN HIRED TO DENY IT, HAS ALMOST AS MUCH WEIGHT AS IF LORIMER HIMSELF HAD DENIED IT.

[UNITED PRESS LEASED WIRE.]  
Chicago, April 8.—Declarations that the charge made by Clarence S. Funk to the Illinois legislature that a \$100,000 "slush fund" had been used to elect William Lorimer to the United States senate were derided here today by Judge Haney, Lorimer's counsel. Denying that Edward Hines, the lumber magnate, had ever raised the \$100,000 as Funk charged, Haney made the following statement to the United Press:

"The charges amount to nothing. They are all innuendo, based on hearsay. Who is Funk? He has nothing. People are not going to somebody's hired man to ask for \$10,000 to elect a United States senator. "The whole affair is simply part of a general scheme to 'get' Lorimer. They want to get him because they can't use him. By 'they' I mean the newspapers who have been fighting him. When they failed in attempts to use him they immediately opened the attack. "Funk told nothing of evidential value. Nothing from nothing leaves nothing."

## HIGH SCHOOLS TO HOLD BIG TRACK MEET

TWENTY-THREE SCHOOLS REPRESENTED BY 125 STUDENTS WILL TAKE PART—MEETING IS MAY 12.

(Special to the Journal.)  
University of Oregon, Eugene, April 8.—The inter-scholastic track meet, which will determine the championship of the state preparatory schools, will be held in Eugene, May 12. Practically all the big high schools in the state will be represented and elaborate preparations are being made for the entertainment of the teams.

Some 23 schools have signed up for the meet to date. Among them are: Washington, Lincoln, Jefferson, Allen, Preparatory, of Portland; Columbia University, Vancouver, Eugene, Baker, Pendleton, Enterprise, The Dalles, Medford, Oregon City, Newberg, Prineville, Hood River, Roseburg, Oakland, Grants Pass, La Grande, Cottage Grove, Junction and Springfield.

The larger schools are sending six men each and the smaller ones four. Altogether, about 125 men are expected. The track is being widened and a large number of new hurdles are being constructed, which will lessen considerably the number of preliminaries necessary. Silver trophy cups will be given to the winning teams and to the high point men and individual winners. Every man that makes a place in the finals of an event will receive a medal. The medals for each event are in sets of three, gold for the first, silver for the second, and bronze for the third place. These medals are given by the different fraternities at the university and each will be engraved with the winner's name.

A good opportunity is one who insists upon belonging to you and none other.

## THE BALDWIN GIRL AGAIN IN LIME LIGHT

Boston, Mass., April 8.—Mystery surrounds Beatrice Anita Turnbull, Baldwin, claimant as daughter to the millions left by Lucky Baldwin, the deceased turf magnate of California. It is as yet unknown whether she has disappeared or is safe at home at the residence of her foster father here.

Late last night the police were asked to hunt for the girl, who was said to have vanished. Only a few hours afterward her family communicated with the police and said she was safe at home and the report that she was missing was a mistake.

Today neither the girl's mother nor her foster father, Dr. Turnbull, would discuss the episode in any way and the police are all at sea.
