

# DECLARE MARRIAGE A FAILURE

TWO WOMEN DECLARE THEY DREW BLANKS IN THE MATRIMONIAL LOTTERY, AND WANT TO CANCEL THEIR INTERESTS IN THEM.

Alleging that soon after their marriage that her husband ceased to labor at all, and that he began laying around the house cultivating an insane jealous disposition, Mrs. Jessie Williams today began divorce proceedings in the circuit court against Grant R. Williams.

They were married, she says, in 1909, and the husband, she alleges, had represented to her that he was able to earn a good living for her. He soon ceased to work, however, and she soon learned, she avers, that he was not the man she believed him to be when she married him.

Besides failing to support her, she says that he was cruel to her, and that upon two different occasions he struck her—on one of them knocking her down. She finally fled to her parents for shelter and was made dependent upon them for her support.

Husband Deserted Her. Mrs. Lydia Whitman also began divorce proceedings today against Lloyd Whitman. They were married in Salem in 1907, and in 1910, while they were living in Michigan, she alleges, her husband deserted her.

Besides the members of the local bar there were present at the convening of court attorneys from neighboring cities in the district.

# LOS ANGELES CARPENTERS HAVE WALK-OUT

Los Angeles, May 1.—Demanding a minimum wage of \$4 per day, several hundred union carpenters in Los Angeles quit work today when the demand was refused. Labor leaders were emphatic in the declaration that the move was not a strike. They said that the carpenters were not demanding a closed shop, but had simply agreed among themselves to quit until the raise was forthcoming. Those who left their jobs reported at labor headquarters and were registered to be given jobs as fast as work at \$4 or more per day could be obtained for them. The men assert that carpenters in every city in Southern California outside of Los Angeles receive at least that much.

Bryan refused to discuss the matter, but Jerry Sullivan, a prominent Democrat said: "Bryan will lay the corner stone. # Saved the People of Salem by the Manufacture in This City of Cement Sewer Pipe.

Less than one year ago, before the manufacture of cement sewer pipe was begun in Salem by the Salem Sewer Pipe Co., salt glazed clay six-inch sewer pipe retailed to consumers at 30 cents per foot, today is sold at 22 cents. The reduction in price is due entirely to the establishment of the Salem Sewer Pipe Co. in Salem. It has been estimated that in Salem in the next two years there will be at least 2000 homes to be connected with sewers, with an average of 100 feet per house. Now at the saving of 8 cents per foot, \$8.00 per hundred feet, would make a saving of \$16,000 to the people of Salem. If they were going to use the six-inch salt glazed clay pipe, but all the people are not going to do it. This is proven by the sales made by the Salem Sewer Pipe Co., who sell both clay and cement. Their sale are more than ten times of cement to one of clay. We solicit your patronage, will save you still more money and will give you just as serviceable pipe, stronger and last longer. # CHOPPED OFF BILLS 17 PER CENT

Complying with the recommendation made by the State Printing Expert Harris some time ago Secretary of State Olcott today reduced the bill of State Printer Dunway for printing the bills, resolutions and memorials of the last legislature from \$3,236.41 to \$2,686.22, making a reduction of \$550.19 which is equivalent to 17 per cent. The grounds upon which the state printing expert based his recommendations was that the state printer in computing his bills for the work had done so severally instead of collectively. Under the law, he maintained, a token for press work was eight pages while the state printer had charged for eight tokens on eight one-page bills when all should be done as one token which made the charge about three times as high as it should be. Another ground for the reduction was the measuring of each fractional page as a full page.
