

LOOK INTO PADDING OF CENSUS

[UNITED PRESS LEASED WIRE.]
Tacoma, Wash., May 15.—The mass of evidence which the department of justice have been accumulating concerning alleged crooked work in the taking of Tacoma's 1910 census was placed before the federal grand jury, which met in the federal building here today.

The jury, it is understood, will devote the greater portion of its time to an investigation of the alleged padding in connection with the count taken more than a year ago. The information gained by William A. Hunt, special supervisor of the census during the recount which was made, has been further extended by the inquiries made by a number of secret service officials, who have been calling on families all over the city to learn whether or not they had lived at their present address on April 1, 1910.

Aside from the federal census probe, there will be the usual number of smuggling cases to be heard, and other matters of like nature to be presented to the grand jury.

THE LAND WHERE DREAMS COME TRUE

(Re-published by request.)
They came of brave and hardy stock,
Those Oregon pioneers,
Their sires had braved the wilderness
From where the fierce Atlantic waves
Lashed the wooded coast of Maine,
To where Missouri's yellow flood
Poured out of an unknown plain,
Crusaders they, of the modern days,
Who came with the axe and plow—
Their flags, the wagon's canvas tops
And "to win," their only vow.
Dreamers and "seers," who dreaming saw
And seeing they dared to do—
Turning their faces toward the West
And the land where dreams come true.

Dreamers they were, those pioneers
Of the "Forties," three and four;
Who braved the unknown of the plains
In search of an untried shore.
Brave of soul were the women folk
And the bearded men were strong,
They counted not the trail was rough,
Nor cared that the way was long.
Week after week, month after month
Steadily, surely, but slow
They pressed on 'till they reached
The stream—
Where the waters westward flow,
And they could see the mountains where
Night drew her curtain of blue
Beyond which lay the land they sought—
The land where dreams came true.

And from the lofty mountain tops
The valley was wondrous fair,
For billowed plains of dimpling grass
And winding streamlets were there,
Land where the Red man wandered free,
Nor civilization trod;
Rich as the fields of Eden were,
When fresh from the hand of God,
An Emerald world, a turquoise sky,
A hundred amethyst streams;
Crown jewel of the continent;
The land they had seen in dreams,
Worth all the toll they had endured—
The hardships they struggled through—
Land of the elves and fairies homes,
And the land where dreams come true.

It was a dream, a vision fair
To the weary pioneers,
A dream come true to you and I
In the lapse of seventy years,
Billowing fields of waving grain
To set the jewels in gold;
Miles upon miles of orchard bloom,
In place of the forests old,
The busy mart, the whirling wheels
And the things that man has made;
Churches and schools and pleasant homes;
The gift of the "Un-afraid"—
Gift of the women strong of soul
Of the men who dared to do—
Who dreaming saw and showed the way
To the land where dreams come true.

BOND ISSUE FOR BRIDGES UNPOPULAR

Salem is in a serious predicament in regard to some very much needed bridges. By a sudden freshet last winter the city lost the bridges on its principal streets, and there is a universal demand that the bridges be rebuilt. A proposed bond issue of \$50,000 of 5 per cent bonds was voted down, the people having no confidence in the proposed plan of expenditure. The committee in charge of the matter next submitted a bond issue of \$60,000 at 6 per cent, providing for additional bridges, the location of which is unknown to the people. At that high rate of interest the bonds ought to sell for a large premium. Many business men are opposing this second bond issue on the ground that it was not fairly and frankly placed before the people, and they do not consider that it has been put before them fairly. The sentiment of the people generally is against the bond issue in the manner in which it was proposed. There is a feeling on the part of business men to uphold any good work done by the mayor, and to submit policies of progress on broad lines, and when undertaken in an open-handed manner that citizens generally can understand. No reason has ever been given for adding ten per cent to the amount of the bonds, and one per cent to the rate of interest. The people cannot understand what secret artifice is back of it, or why it was done.

CONGRESS HAS DONE NOTHING

[UNITED PRESS LEASED WIRE.]
Washington, May 15.—For lack of accomplishment observers of the activities of the 62nd congress here today united in awarding the palm over all previous congresses. To date the house has met 29 days and been in session 148 hours and five minutes. The senate has met 15 days and been in session 37 hours and 14 minutes. Last week each branch met on three days. The house was in session 17 hours, 13 minutes; the senate 7 1/2 hours. During the week the house passed the farmers' free list bill. The senate consumed its 7 1/2 hours in a futile effort to elect a president pro tem. A touch of rheumatism or a twinge of neuralgia, whatever the trouble is Chamberlain's Liniment drives away the pain at once and cures the complaint quickly. First application gives relief. FAMOUS OLD BUILDING IS BURNED

According to advices received here Saturday evening the St. Paul convent, located nine miles north from here was burned to the ground on the day before.

Just how the fire originated seems to be a mystery, but when it was discovered it was on the top floor, and though the institution was equipped with a good fire apparatus, the flames could not be stayed, and it became apparent in a short while that the building was doomed.

The building was a three-story frame structure, and it was one of the historic institutions of the Pacific coast. Preparations were under way for the celebration of the 50th anniversary of the institution.

Whether another building will be erected upon the ground could not be learned.

Averts Awful Tragedy.

Timely advice given Mrs. C. W. Loughby, of Marengo, Wis., (R. No. 1) prevented a dreadful tragedy and saved two lives. Doctors had said her frightful cough was a "consumption" cough and could do little to help her. After many remedies failed, her aunt urged her to take Dr. King's New Discovery. "I have been using it for some time," she wrote, "and the awful cough has almost gone. It also saved my little boy when taken with a severe bronchial trouble." This matchless medicine has no equal for throat and lung troubles. Price 50 cents and \$1.00. Trial bottle free. Guaranteed by J. C. Perry.

Saved the People of Salem by the Manufacture in This City of Cement Sewer Pipe.

Less than one year ago, before the manufacture of cement sewer pipe was begun in Salem by the Salem Sewer Pipe Co., salt glazed clay six-inch sewer pipe retailed to consumers at 30 cents per foot, today is sold at 22 cents. The reduction in price is due entirely to the establishment of the Salem Sewer Pipe Co. in Salem. It has been estimated that in Salem in the next two years there will be at least 2000 homes to be connected with sewers, with an average of 100 feet per house. Now at the saving of 8 cents per foot, \$8.00 per hundred feet, would make a saving of \$16,000 to the people of Salem, if they were going to use the six-inch salt glazed clay pipe, but all the people are not going to do it. This is proven by the sales made by the Salem Sewer Pipe Co., who sell both clay and cement. Their sales are more than ten times that of one of clay. We solicit your patronage. We will save you still more money and will give you just as serviceable pipe, stronger and last longer. Salem factory; Salem men, and employ Salem labor at best wages. Your money is paid back to your own citizens. We are glad to make tests for you at any time. Call and see our plant.
