**HAMBURG-BREMEN FIRE INSURANCE CO.**

By F. O. AFFELD, Manager of U. S. Branch.  
Statutory resident general agent and attorney for Oregon.  
H. BIRRELL, Portland, Or.

**ELECTRICAL STORM VISITS BAKER COUNTY**

The severest electrical storm that has visited Eastern Oregon in many years passed over that section between 8 and 9:30 o'clock Monday night.

It was accompanied by a deluge of rain, followed by hail. Windows were smashed, in many places trees were blown down and telephone and electric lines were put out of commission for a time.

The scope of the storm was small, but reports from nearby ranches in the valley say that fruit suffered much as the result of the hail. Wheat and other grain is not far enough advanced to be damaged much. Some streams overflowed their banks, and roads were damaged considerably.

**OPEN FORUM.**

**About Express Wagons.**  
Ed. Journal: The present city administration should not force drays and express wagons off the street of the city. This city has wide streets, and no man will let his team stand when he can find anything to be earning money with. Is there not some regulation that we can all stand for? A team should not stand in one place more than an hour. Business men should not be allowed to collect \$5 a month to let a dray or express wagon stand in front of their place. I for one will be willing to pay a reasonable license to the city for wear and tear of the pavements.

**A Pointed Letter.**  
Ed. Journal: We are all so glad that at last Court street is to be paved east of the railroad. That is one of the most beautiful parts of the city, and the streets impassable a large part of the year. Messrs. Lafky and Durbin are dead right in doing a little paving in front of their own property. Isn't there some way to all the concrete and keep down the clouds of lime dust that are formed by wind and traffic? I am surprised that any one should fight litigation on East State street. Property owners out there are dead to their interests fighting for macadam, which means mud, dust and cheap property.

**Endorses Home Employment.**  
Ed. Journal: I wish to thank you for advocating that city work be done by home people. We would vote for the bridge bonds for concrete bridges if we were sure that the city would do the work. We want Salem people employed, who have homes and families here. We do not like to see the city let these bridges built by contractors who make from 30 to 50 per cent profit, and have every inducement to slight their work. Mr. Stolz built the concrete bridge on Twelfth street for about half what the contractors wanted. When the people pay for labor and material nobody is robbed. Let us have home rule and home employment, and build a city of homes. The first question is to keep the money at home, among our own people, and if we have to pay even a little more, we are better off. The contractor cannot be at work all the year around, and his plant and machinery are lying idle, and he does business on borrowed capital, and must pay the banks. The city engineers can as well work for the city as to stand over a contractor and watch him. Then it is a question whether the contractor can pay him more than the city does.

**THE EASTERN STAR ELECTS GRAND OFFICERS**

Mrs. Pauline More Riley, of Baker, will be the official head of the Grand Chapter of Oregon, Order of Eastern Star, for the ensuing year, having been elected grand worthy matron at the 22d annual convention of the Eastern Star in this city yesterday. Clyde Evans, of this city, in the same election was made worthy grand patron.

Other officers elected by the Eastern Star delegates yesterday were: Assistant grand matron, Mrs. Margaret V. Hayter, of Dallas; assistant grand patron, James E. Godfrey, of Salem; grand secretary, Miss Nellie McKinley, of Portland; grand treasurer, Mrs. Mary E. Johnson, of Pendleton; grand conductress, Mrs. Mary M. Reischer, of Condon; assistant grand conductress, Mrs. Nellie McGowan, of Medford.

Formal installation of these officers will take place tomorrow afternoon when Mrs. Riley, worthy grand matron elect, will announce the appointment of candidates to the appointive stations in the state organization.

**PORTLAND CHERRY FAIR EXCURSION**

Work has been started by the committees on advertising and reception of the Salem Cherry Fair to make the annual excursion from Portland a great success. C. C. Chapman is in communication with W. I. Staley and R. M. Hofer, planning for a special train and a program at Salem especially for the Portland people, to make them feel at home at the Capital City. Writing to Mr. Staley, the secretary of the Portland Commercial club says: "I address you as chairman of the reception committee, realizing that anything done through this office to bring a crowd from Portland to Salem to the Cherry Fair will be welcomed by you and your committee."

"I believe we can repeat the success of last year's Portland excursion on a larger scale, and would like to receive suggestions from you as to a Portland day. Saturday would be a good day to make the trip."

"Some of the party could go by special cars attached to the Oregon Electric express, leaving Portland at 9.15 a. m. Quite a number of the party would come down by automobile."

"The size of the excursion would depend mainly upon the amount of personal work that I could secure. If you can name a number of residents of Salem who can visit Portland July 5th, the day before the fair opens, we can make the rounds of the principal houses and secure subscriptions to the excursion. Only this kind of work will round up a good-sized party."

This, coupled with the newspaper advertising incident to the opening of the fair, will create great interest in the excursion. The publicity in connection with the presence in Portland of the visiting committee will also give additional advertising.

"If it is within your province, and you will do so, I would suggest the arrangement of a brief program for the reception of the Portland visitors. If, upon arrival, they can be taken to one of your exhibit tents or a meeting place close by, and, while in a body, told something about Salem, the Cherry Fair, the growth you have made in Marion county, etc., it will enable you to drive home some good advertising facts."

"A meeting of this kind centers the interest of the visitors, results in full publicity and makes the visitors feel quite important."

"Assuring you that this office is anxious to co-operate with you in any way that will make the Cherry Fair a success."

"Our press bureau is already sending publicity all over the Pacific Northwest, reaching nearly 200 papers, advertising the Cherry Fair."

It is suggested that all Salem people take up the matter with relatives and personal friends at Portland and send them a personal invitation to be in the city on Portland day at the Cherry Fair.

Special post card invitations will be printed for this purpose and the co-operation of every true Salemite is earnestly solicited by the advertising and reception committees.

**DR. TODD IS RETAINED AS VICE-PRESIDENT**

Besides voting to continue Dr. E. H. Todd as vice-president of Willamette University for another year, the members of the board of trustees of the Willamette University, at their meeting held last evening, authorized Dr. Fletcher Homan to secure necessary assistance he may deem necessary to raise the endowment fund of the institution to \$500,000.

Dr. Todd was commended for the work he has accomplished in boosting for the institution, and also in securing funds for it. The board felt that so excellent had been his services that the wise course to pursue was to retain him for another year, and unanimously voted to do so.

The board also authorized the construction of an addition to the gymnasium. The addition will be in the way of an extension of 50 feet on the south and will cost \$100,000. The gymnasium will also be improved by the installation of modern dressing rooms, and also baths for men and women.

**PENITENTIARY MAY FURNISH THE WATER**

For the purpose of determining the advisability of substituting the water service of the state penitentiary for the capitol building for that now provided by the Salem Water company, Secretary of State Olegit has been testing the power of both by means of a gauge.

So far the experiments have been in favor of the penitentiary water service and the secretary announced today that unless something unfavorable should arise, that he would like to make the substitution. According to the secretary during the sprinkling season it is often that the capitol building is without water on the third floor, and besides this, by making the change he estimates that he can save the state the sum of \$60 a month.

**X-RAYS AND SMILES.**

Now that the drinking cup and roller towel are found to be regular germ incubators, the average man will protect himself by drinking beer and wiping his mouth on his cool sleeve.

It is to be hoped that King George's crown proves a fit—or he does.

Nigger Johnson with 50 suits of clothes and Mr. John Hays Hammand with 50 new gowns are the cream of America's contribution to the coronation ceremonies.

Doubtless the defeated candidates will all be in favor of a commission for mob government.

**SHE SUFFERED FIVE YEARS**

Finally Cured by Lydia E. Pinkham's Vegetable Compound.

Erie, Pa.—"I suffered for five years from female troubles and at last was almost helpless. I went to three doctors and they did me no good, so my sister advised me to try Lydia E. Pinkham's Vegetable Compound, and when I had taken only two bottles I could see a big change, so I took six bottles and I am now strong and well again. I don't know how to express my thanks for the good it has done me and I hope all suffering women will give Lydia E. Pinkham's Vegetable Compound a trial. It was worth its weight in gold."—Mrs. J. P. ENDRICH, R. F. D. No. 7, Erie, Pa.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases. We know of, and thousands of voluntary testimonials are on file in the Pinkham laboratory at Lynn, Mass., from women who have been cured from almost every form of female complaints, such as inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration. Every suffering woman owes it to herself to try Lydia E. Pinkham's Vegetable Compound.

If you want special advice write Mrs. Pinkham, Lynn, Mass., for it. It is free and always helpful.

**A SUMMER SESSION AT U. OF O.**

(Special to The Journal.) Eugene, Or., June 14.—The seventh annual summer session of the University of Oregon will open Monday, June 26, 1911. The session lasts six weeks, and will close Friday, August 4th. The purpose of the university in offering six weeks' summer term is to extend to those who are otherwise engaged during the school year the advantages the university offers for instruction. Special effort is made in all departments to make the work of practical benefit to those engaged in teaching. Last year a large per cent of the summer school students were teachers from various parts of the state. The faculty of the university summer session comprises some of the most efficient educators in Oregon. Such men as J. H. Ackerman, L. R. Alderman and J. C. Collicott, of Tacoma, Washington, will be noteworthy additions to the faculty this year.

**Notice of Sewer Assessment.**

"Notice is hereby given that the common council of the city of Salem, Oregon, will on or about 8 o'clock, p. m. on the 26th day of June, 1911, at such time thereafter as may be convenient, at the common council chambers at Salem, Oregon, proceed to assess by an ordinance upon each lot or parcel of land deemed and considered by the council to be directly benefited, its proportionate share of the cost of the construction of the Union street sewer, and persons interested therein are hereby notified that the assessment roll has been prepared under the direction of the council and is now on file at the office of the city recorder subject to the inspection of any person or persons interested therein, and that such assessment roll contains the property proposed to be assessed for the cost of the construction of such sewer, and that said property is generally included within the following limits:

Commencing at the intersection of North Mill Creek with the Willamette River in the city of Salem, Marion county, state of Oregon; thence along said North Mill Creek easterly to block two (2) in Reed's Addition to the city of Salem, Oregon; thence along Thirteenth street to block six (6) in Robert's Addition to the city of Salem, Oregon; thence easterly on Cheneketa street to Fourteenth street; thence easterly through the center of the alley between Court and Cheneketa streets to Mill creek; thence easterly on Cheneketa street to the state lands; thence southerly along the said state lands to Mill Creek; thence along Mill Creek to State street; thence westerly on State street to the Willamette river; thence northerly along the east bank of the Willamette River to the place of beginning.

However, all persons interested in said assessment are hereby notified that the said sewer proposed to be established and the said property proposed to be assessed for the cost thereof, is more particularly described and shown upon the maps, plans and specifications adopted for said sewer and upon the said assessment roll on file at the office of the city recorder, which said maps, plans, and specifications and assessment roll are hereby notified to appear and file or present objections, if any they have, to said assessment on or before the 26th day of June, 1911.

CHAS. F. EDGIN, City Recorder.

**REPORT OF THE CONDITION**

Of the Salem Bank & Trust Co., at Salem, in the state of Oregon, at the close of business June 7, 1911.

**The Earth Wearing.**

Investigation by the United States geological survey of the erosion of numerous drainage basins of the United States shows that the surface of the country is being removed at the rate of about an inch in 760 years. Though this amount may seem trivial when spread over the surface of the country, it becomes stupendous when considered as a total, or even in separate drainage basins. Mississippi River, for instance, carries annually to the sea 136,400,000 tons of dissolved matter and 340,500,000 tons of suspended matter, and of this total the Ohio river carries \$3,350,000 tons and the Missouri river carries more than twice as much. Colorado river, which has built up for itself a vast delta, brings down more suspended matter than any other river in the United States, discharging annually 387 tons for each square mile of its drainage basin, or a total of 100,740,000 tons.

The rivers of the United States carry to tide water every year 270,000,000 tons of dissolved matter and 513,000,000 tons of suspended matter. This total of 783,000,000 tons represents more than 350,000,000 cubic yards of surface soil. If this erosive action had been concentrated on the isthmus of Panama at the time of American occupation it would have excavated the prism for an 85-foot-level canal in about 73 days.

**A Terrible Blunder**

To neglect liver trouble. Never do it. Take Dr. King's New Life Pills on the first sign of constipation, biliousness or inactive bowels and prevent violent indigestion, flatulence or gall stones. They regulate liver stomach and bowels and build up your health. Only 25 cents at J. C. Perry's.

Sealed bids will be received at the office of C. D. Frazer, secretary State Purchasing Board, state capitol, Salem, Ore., until June 25, 1911, for supplies, etc., for the state institutions for the ensuing six months. Bids will be opened June 26. Specifications and lists may be obtained by calling on or addressing C. D. Frazer, secretary State Purchasing Board, State Capitol, Salem, Ore. 6-13-11
