THE BORDER COUNTRY OF CHILDHOOD

"THE TOYMAKER" ONE OF THE GREATEST OF ALL COMIC OPERAS WILL BE PRESENTED THURSDAY BY STROBE COMPANY.

Perhaps the most noteworthy event in local theatricals that has occurred here in a long time is the forthcoming appearance of Ferris Hartman and his superb company in "The ToyMaker", that delightful comic opera "The ToyMaker" seems to be the only one that preserves its youth and is seemingly destined to continue for many years to tell its fairy tale of the realization of childhood dreams. Mr. Hartman has never had a part which fitted him so well, nor has he ever had a better company than he has now. Direct from a season of 30 consecutive weeks in Los Angeles, where they have just closed a most successful season during which they achieved a marvelous run of 16 weeks with "The Campus," a college musical comedy by Walter De Leon. Mr. De Leon is appearing with the Hartman company as "Frederick" in "The ToyMaker" and is ably assisted by Miss "Muggins" Davies as "Elsa." This production of "The ToyMaker" will excel in every way all former efforts. The staging and costuming, being especially elaborate, while the great toy shop scene is an everlasting delight to the young folks. This scene, showing the interior of the shop of "Johannes Guggenheimer, is a marvel of mechanical ingenuity with its thousands of toys, its animated dolls, its huge revolving drum, the elaborate finale of the first act, with its vision of "Mother Goose," "Little Red Riding Hood" all serve to make it the most unique and charming entertainment ever seen here. Mr. Hartman's long and distinguished services on the comic opera stage have given him a place in the affections of the theater-going public that is second to none, and he is in the first rank of the great comedians of the present day. His fun is always clean and wholesome and one always feels better after witnessing one of his performances. Most everyone knows the story of "Johannes Guggenheimer" the wonderful German artisan, who has constructed a marvelous doll that walks and actually speaks and sings. A young and handsome nobleman seeks marriage, but as he has accepted vows of celibacy in a religious order he purchases the doll, which has become the talk of the country. Then "Elsa" Guggenheimer's daughter, whom he has used as the model for the doll takes its place, and nature's curious situations come to pass, but of course in the end, as in all good plays "The ToyMaker" is happy in its wedding march. Popular prices will prevail and notice of the seat sale will be given hereafter. Grand Opera house Thursday, June 29. Prices, \$1.00, 75c and 50c.

HOW SEA BIRDS DRINK.

Under the headline, "Where Do They Get Water?" a writer in the Young Folks Catholic Weekly says: "When I was a cabin boy I often used to wonder, seeing birds thousands of miles out to sea, what they did for fresh water when they were thirsty. One day a squall answered that question for me. It was a hot and glittering day in the tropics, and the clear sky overhead a black rain cloud appeared all of a sudden. Then out of empty space over a hundred sea birds came darting from every direction. They got under the rain cloud and waited there for about 10 minutes circling around and when the drops began to fall they drank their fill. In the tropics, where the great sea birds sail thousands of miles away from shore, they get their drinking water in that way. They smell out a storm a long way off; they travel a hundred miles maybe to get under it, and they swallow enough raindrops to keep them going."

MOUNTAIN TROUT SENT TO STREAMS

The Eugene Guard of Monday says: "Thirty thousand mountain trout were sent out of Eugene this morning for Triangle and Summit lakes the former in the Coast range at the head of Lake Creek 30 miles from Eugene, and the latter at the head of the Willamette in the Cascade mountains. The fish were received at the request of the Lane county game and fish association from the government hatcheries in the east. The eggs were sent to Oregon City, where they were hatched and the fish shipped to Eugene this morning by express. Drew Griffin and George McLean left at once with 20 cans of the young fish on ice in a wagon for Summit lake, and W. A. Kuykendall took 10 cans to Triangle Lake. The trip to Summit lake is a long trip and will require several days. The expense is borne by the Eugene Game and Fish Association."

ONE-HALF FAILED TO PASS EXAMINATIONS

Final returns from all counties in the state, save Harney and Lake, show that out of 3968 pupils taking the eighth grade examinations in the state 1457 passed, 1532 failed and 979 were conditioned. The examinations were held in May, but additional examinations were again held in June, and most of the conditioned took the examinations then, and probably the majority of them passed. At first many were inclined to believe that the eighth grade examinations were too difficult. County superintendents who are now in the city examining teachers' examination papers do not favor this view, however, and some other cause must be looked for.

ATTORNEY-GENERAL GIVES SOME OPINIONS

That stocks of merchandise brought into the state after March 1 are assessable is the opinion of the attorney-general. It was given in reply to a question propounded to him by an assessor in Eastern Oregon. The attorney-general also rendered two other opinions, one relating to the inspection of boilers of the locomotives of the portage railroad at Celilo. He held that it was subject to inspection under the interstate commerce act. The other answered a question as to whether a sheriff could appoint deputies without authority by statute, and the attorney-general's opinion was in the affirmative, saying the court could legally allow the claims for their work.

DOING SOME WORK ALONG GOOD LINES

A series of lectures began this week at the Oregon Agricultural College Summer session deals with various problems of household economy, from the teaching of the little girls as to home duties, to the scientific composition of a meal.

Dean Juliet Greer began the course with a lecture dealing with the introduction of domestic economy in the grades and high schools and the various problems involved, including the cost of installation, the necessary equipment and the correlation with other studies.

Today Miss Marion S. VanLew lectured on food, its composition and purpose in the body, combinations required for a good menu, and discussed the most recent dietic theories. Dean Greer tomorrow will treat of the preparation that training in domestic science and art gives a young woman for home or professional life. In this connection she will outline the plan of the course given at the college.

Marketing will be the theme of Miss VanLew's Thursday lecture. It will include the consideration of various cuts of meat, their nutritive value, prices and methods of cooking. The purchase of canned foods in large and small quantities, their keeping qualities and adulterations will also be discussed.

The series will end Friday with a talk by Miss Greer on art and science in the home and school, and their application to home furnishing, together with the general care of the family.

RUDYARD KIPLING MORE PROPHET THAN POET

Over in Bloomfield, N. J., Rudyard Kipling is serving a sentence of 30 days in the local jail, having been convicted of drunkenness. The announcement of the accused man's name produced something of a sensation in court.

"Rudyard Kipling is my name, and I'm not unknown to fame," hiccupped the prisoner when arraigned.

"Yes, another stole my name, but I'm Kipling just the same," continued the accused in response to a question from the magistrate.

"My home is on the ocean blue and sailor's work I often do, the culprit rambled on. 'I will not try to give you bunk. I know, your honor, I am drunk. I've often tried to mend my ways, but I s'pose you'll give me 30 days.'

"You're not much of a poet," commented the magistrate, "but as a prophet you are all right. Thirty days."

GOVERNOR KNOWS NOTHING OF CASSADY PARDON

The executive said that so far nothing has been put up to him, and that he has heard nothing from the petitions purported to be circulated in Baker county in Cassidy's behalf. The Portland Turners captured several firsts at the big meet at Los Angeles yesterday. While playing in Pittsburg recently Bob Coulson, of the Brooklyn team, was presented with a gold watch by a delegation of citizens, from Donora, Penn.

FOLEY'S KIDNEY REMEDY

Is particularly recommended for chronic cases of kidney and bladder trouble. It tends to adjust and control the kidney and bladder action and is healing, strengthening and bracing. L. McConnell, 117 Catherine St., Elmira, N. Y., says: "Two bottles did the work most effectively, and proved to me beyond doubt it is the most reliable kidney medicine I had ever taken and it shall always have my endorsement."—Red Cross Pharmacy.

A SIMPLE QUESTION

Salem People Are Requested to Honestly Answer This. Is not the word of a representative citizen of Salem more convincing than the doubtful utterances of people living everywhere else in the Union? Read this.

P. A. Sutton, Holt and West Sts. Salem, Ore., says: "For ten or twelve years kidney trouble was the plague of my life. I suffered intensely from a pain in the small of my back and was often unable to move. I doctored and tried a number of remedies, but to no avail, and I was in a bad way when I procured Doan's Kidney Pills at Dr. Stone's drug store. They benefited me at once and after I had taken the contents of three boxes, I was free from every symptom of kidney complaint. My health is now the best and for that reason I cannot recommend Doan's Kidney Pills too highly." (Statement given Jan. 31, 1908.)

Remember the name—Doan's—and take no other.

GRANTS PASS IS

Business men are giving encouragement to the project of Crescent City men to secure the construction of a railway from that city through Grants Pass to Medford. It is believed that \$100,000 could be raised here to aid in the work. It is the opinion that the better plan is to give a bonus to some company to take over the building of the road. For a number of years different concerns have gone over the field, and have made surveys and filed information, and each time the matter has ultimately ended in the courts, or has been transferred and tied for future consideration. Grants Pass business men believe that the amount will be subscribed quickly, providing the company willing to undertake the project will show good faith. Del Norte county is rich in standing timber, and so is the south end of Joseph's county which joins it. The standing available timber is sufficient to supply mills for years to come, running day and night. The big redwoods on the California side and the sugar pine in the fastnesses of Josephine county will employ both capital and labor to place the raw material on the market.

Administrator's Notice.
