SITUATION IN ENGLAND DESPERATE STRIKERS WILL TIE UP EVERY PORT

FOOD ROTTING ON THE DOCKS ALL SHIPPING PARALYZED COMPANIES WILL NOT YIELD

Shipping Federation Is Determined to Fight to the Last Ditch and Will Undertake to Replace Strikers by Chinese—Seamen's Strike the Most Paralyzing to Business of Any Ever Occurring in England—One Company Ties Up Half of Its Ships—Country Will Soon Run Shy of Food Stuffs.

[UNITED PRESS LEASED WIRE.] London, June 30.—Determined to fight to the last ditch against recognition of the seamen's union and the demands of their striking sailors the Shipping Federation today decided to lay up half of their total tonnage and to apportion the men still loyal to them to the other half. In answer the strikers immediately ordered that every port be tied up at all cost, and unless Premier Asquith's peace plans avail, the struggle about all English ports is expected to grow more acute hourly.

Try to Get Chinese, Glasgow, June 30.—Driven to desperation by their inability to

break the seamen's strike in this port and suffering losses of huge sums by their delayed freights, ship owners here will seek Chinese to man their vessels. It is expected that the introduction of the Chinese will result in rioting.

Desperate at Hull, Hull, Eng., June 30.—There has been almost continuous rioting along the docks here since Wednesday. Scores of persons have been injured in the fighting, and the police are worn out by incessant trouble calls. The business of the port is paralyzed.

Food Stuffs Rotting, Liverpool, June 30.—The White Star line here announced today the

Aeroplane in Control.

New London, June 30.—Atwood's biplane landed at the Harvard quarters at Redtop at 9:30 o'clock, having flown a little more than 100 miles. He carried a passenger, a mechanic of the fleet, thus establishing a passenger-carrying cross-country record for America.

On the flight the aviator stopped and started his motor again in midair. Later, when his engine was giving trouble, he set his levers, climbed up on the lower plane, adjusted a valve and then, returning to his seat, continued his flight.

The "Unkissed" Bride.

New York, June 30.—Love troubles of Mrs. Edith Gambler, the "unkissed bride," who is involved in cross-suits for divorce and separation here with her banker husband, Edward Gambler, ended suddenly their public phases today. Justice Pendleton gave attorneys for both sides ten days to file briefs. He referred the motion of Attorney Van Wyck, for Mrs. Gambler, for a jury trial of Gambler's cross-suit, to a special term. This carries the case over until October.

DUNIWAY WILL SELL HIS PLANT

Has Completed Arrangements for Moving Out of the Capitol, and Reliable Authority Says He Has Sold His Plant.

GEO. F. RODGERS BUYER

The Same Authority From Whom the Story Was Learned Says Rodgers Will Purchase the Plant, Lease It to Duniway Until the Latter's Time Expires, and Then Enter the "Job" Field—State Must Buy Plant.

That State Printer Duniway has decided to not contest the legal authority of Secretary of State Olcott to oust him from the capitol building and that in order to comply with the notice of the secretary of state to vacate by August 1, he is now negotiating for the sale of the plant to Geo. F. Rodgers was learned today from an authoritative source—a source which apparently cannot be doubted. The same authority has it that the plant will be leased to the state printer during his term of office, and that at its end Mr. Rodgers will enter the job printing business.

Could Not Find Room. It is stated that Duniway some time ago abandoned his intentions if he ever had any—of resisting Olcott's order to vacate, and that within the last few weeks he has been searching the city over for quarters for his plant. Unable to find any that were suitable for it, it is stated, that he finally went into negotiations with Mr. Rodgers for its sale. The sale is practically consummated, and the legal papers conveying the plant will be made out in the next few days. Just what the consideration is could not be learned.

Under the terms of the sale, it is said, the state printer will lease the plant until the end of his term of office, for \$100 a month. At the end of his term of office, it is understood, that Mr. Rodgers will enter the job printing field in the city.

What Will State Do? At the expiration of Duniway's term of office the state printer will go on a flat salary. The state will then find itself confronted with the proposition of buying a new plant, and it is estimated that it cannot do so for less than \$20,000. In addition to that will come the cost of the linotype machines. As the state's work is increasing large presses will be needed and the state at the outset, in purchasing a new plant, must expend in the neighborhood of \$30,000.

Pug Morrison Pulled, [UNITED PRESS LEASED WIRE.] Portland, Ore., June 30.—Kid Morrison, a pugilist well-known on the Pacific coast, was arrested today for striking Miss Beatrice Smith in

ALLEGED DYNAMITERS ARRESTED BURNS IN LIMELIGHT IN ENGLAND

Killed Children and Self.

Plainview, Tex., June 30.—Driven insane by the heat, Mrs. Maude McLarry, of Los Angeles, it was discovered today, killed her three children at Lockney, near here, where the woman was visiting her mother. Mrs. McLarry then committed suicide.

Mrs. McLarry took her three children, aged five and three years and three months, into a vacant house, cut their throats with a piece of glass, threw their bodies into a clump of weeds and then ended her own life by hanging herself to the cross arms of a windmill.

CAME 15,000 MILES JUST TO FISH

Los Angeles, Cal., June 30.—Major H. C. Renger, retired British army officer, is here today after having traveled 15,000 miles from British East Africa to enjoy the fishing off Southern California's coast.

Will Withdraw Troops.

Washington, June 30.—General Leonard Wood, after a conference with President Taft this afternoon, announced that four regiments would be withdrawn at once from San Antonio, Tex.

All or Nothing.

[UNITED PRESS LEASED WIRE.] Liverpool, June 30.—The unions issued a statement listing four lines which have conceded all their demands and urging the strikers to resume work for these companies. The men refused to return to work until all lines had surrendered.

CAPLAN IS ONE OF THEM BURNS CLAIMS HE WAS WITH THE M'NAMARA BOYS

The Other Man Reported Arrested Is Also Claimed to Have Been an Accomplice of the McNamaras in Blowing Up the Plant of the Los Angeles Times—Department at Washington Confirms the Story, But Refuses to Give Any Details—Clarence Darrow Says the Arrest Is of No Interest to Him or His Clients.

Los Angeles, Cal., June 30.—Confirmation of the reported arrest in London of David Caplan, wanted here in connection with the destruction of the Los Angeles Times building, was unobtainable here today. Attaches of the district attorney's office refused to discuss the report, nor would they admit that District Attorney Fredericks was in Washington today to consult with Secretary of State Knox regarding the issuance of extradition papers for Caplan.

With the exception of Attorney Clarence S. Darrow, none of the lawyers employed for the defense of John J. and James B. McNamara would discuss the London report. "I have no interest in the reported arrest of Caplan," said Darrow. "If Burns thinks he has Caplan under arrest, then I suppose there can be no doubt that the man is Caplan, although Burns' statements regarding arrests may well be taken with a grain of salt in the light of recent events."

Department Confirms It. Washington, June 30.—The state department today partially confirmed the report that David Caplan, accused of being concerned in the alleged dynamiting of the Los Angeles Times, has been captured by the British police in London.

Responding to inquiries here today, an official of the department said the matter of a man arrested in London was pending between England and America but that he could make no further statement now.

It was intimated, however, that two men now in London are involved and it may be that the second is M. A. Schmidt, the other long sought man who is alleged to have been concerned in the dynamiting plot on charges of having been involved in which John J. and James B. McNamara are now held in Los Angeles.

The official of the state department declared that as the department was

not sure that the actual arrests of the supposed Caplan and Schmidt had yet been made, it was impossible at this time to discuss further details.

Detective Says, "Correct." Los Angeles, Cal., June 30.—When E. R. Mills, head of the Los Angeles office of the Burns national detective agency, was approached today for confirmation of the report that David Caplan had been arrested in England by William J. Burns, he intimated that he had thorough and complete knowledge of the whole matter.

"Of course it is true," he said, "but you see I can not give any information regarding it because it would defeat the ends of justice." Detective McLaren, of Burns' Chicago office, who has been associated with the local office since the alleged dynamiters were brought here, said that the local agency had no information of any kind regarding any arrest by Burns in England and that their first intimation was the newspaper report.

THEIR FIRST WALK OFF IS THIS ADVERTISEMENT

[UNITED PRESS LEASED WIRE.] Portland, Ore., June 30.—A 10,000-mile walk around the United States which they say they can make in 250 days, is being planned today by Ivan Donaldson and Levi Austin, two athletes of Pacific University. They expect to pay their traveling expenses by advertising some section of the West by wearing placards.

After Senator Stephenson. Washington, June 30.—A copy of the resolution passed by the Wisconsin legislature asking that the United States senate probe the election of Senator Isaac Stephenson was received today by Vice President Sherman. It is believed the request will be granted.
