## SAN BERNARDINO FIRE RESISTLESS LEAVES DESOLATE RUIN BEHIND IT

### SWEEPS TOWARDS DESERT WHICH ALONE CAN STOP IT REPORTS ARE DISCOURAGING

Communication With the Fredaba Lumber Company Lost For Two Days, But Huge Volume of Smoke Hangs Over That Region, and It Is Thought the Big Plant Has Been Destroyed—Where It Will End Is Problematical, But It May Only Stop for Lack of Material, When It Reaches the Mojave Desert

[UNITED PRESS LEASED WIRE.]  
San Bernardino, Cal., August 2.—A fire which was almost out in Waterman canyon has been again started by a back fire and a blaze at noon was reported rushing toward the desert.  
A huge volume of smoke hovered all day over the range near the yards and mill of the Fredaba Lumber company. Back fires may have been responsible for this but it was believed that the fire had gotten beyond control and burned the mill with its thousands of feet of lumber and much valuable machinery. Communication with Fredaba has been cut off for two days.  
In response to an appeal to the citizens here for aid, President W. W. Brison, of the San Bernardino chamber of commerce left today for the mountains to make a personal investigation of conditions existing at the fire. If he thinks such action is required he will issue a call for a mass meeting to demand federal aid and to extend such other relief as is possible.  
Efforts to reach Ranger Switzer's camp, near Little Bear valley, today were futile and the belief has grown

Alcoholism Is Insanity.  
San Francisco, Aug. 2.—That section inserted in the political code during the last session of the legislature which provides that alcoholism is sufficient cause for incarcerating a man in an insane asylum will be invoked for the first time in the case of James D. Kelly. A warrant for Kelly's arrest was issued here today on complaint of his father, James L. Kelly, and prosecution of the charge will be made along the lines laid down in the recent legislature.

that Mrs. Switzer, who was alone at the camp, may have perished. So far two summer homes on Crest Line have been destroyed. Three others in open spaces were spared, although all around them was burned.

A SUBJECT DEAR TO ALL RACES  
Washington, August 2.—When it comes to beer is a question on which Dr. Wiley's pure food board is yet undecided. Although the hearing on the subject was concluded yesterday, further investigation will be made before a decision is reached, according to an announcement today.  
Testimony adduced at the hearing showed that beer might be made out of almost any material, one brewer testifying he could make it from cabbage leaves.

Eddie Smith All Right.  
Oakland, Cal., Aug. 2.—Eddie Smith, fight referee and sporting writer, is on the road to recovery here today after being on the verge of death for more than a week. The physicians who have been attending Smith at a local sanitarium, state he has passed the crisis and will surely recover.

Put Pepper on It.  
Vienna, Aug. 2.—Proposing that Austria, France and Italy unite to break the power of Great Britain, President Sylvester of the lower house of the Austrian parliament, caused a great sensation here today, and undoubtedly has greatly intensified the already critical situation existing between Great Britain and Germany over the Moroccan affair.  
It is expected that Great Britain will immediately demand Sylvester's dismissal from office.

## CLARY IS RESCUED FROM MINE

Was Imprisoned by Caving of Mine Last Saturday, and Had Stood in the Water Up to the Time of His Rescue Today.

TELLS HIS EXPERIENCE  
Says He Was Never Very Badly Scared, Especially After He Heard the Drill Pounding Over Him, But Got Pretty Hungry—The Water Crawled Steadily Upward and Was Up to His Armpits When Rescued.  
[UNITED PRESS LEASED WIRE.]  
Joplin, Mo., Aug. 2.—The imprisoned miner, Clary, was taken from the mine, where he was caught by a cave-in last Sunday, and where he stood in the water since that time until rescued this morning.  
The crowd followed along when he was taken home, and hundreds lingered to watch the meeting between mother and son.  
Clary was in good shape this afternoon following a short sleep, and was able to tell something of what he had gone through during his long period of imprisonment in the bowels of the earth.  
"I was never very badly scared, even at first," he said. "The roof of the drift was solid limestone, and I knew it would not cave in. The air was bad from the very start, and kept getting worse. It seemed like an age before I heard the thumping which apprised me that they were making an attempt to rescue me. Then the thumping ceased, and I knew that the hole had missed."  
"Time had almost stopped, it seemed, before I again heard sounds. Gradually the pounding grew plainer and plainer, until a hole appeared in the side of the drift, and I got a breath of fresh air. I kept getting hungrier, until finally I thought I could eat a plug of tobacco, if I had one."  
"The water climbed up, until it finally reached my armpits. When the drill came through the roof of the drift toward the shaft, I felt as if I had received the best news I had ever heard. Then I heard some one shout, and milk and whiskey were passed down through the hole. They were the best things I ever tasted."  
"I wasn't afraid then, for I knew I was safe, and they would get me out unless there was another cave-in."

## REVOLUTION WINS ANARCHY RULES PRESIDENT SIMON TO LEAVE HAYTI CAPITAL WILL BE LOOTED WHEN VICTORS ENTER CITY MUCH BLOOD WILL BE SHED

Germans Expel English.  
London, Aug. 2.—Correspondents for two London newspapers were today expelled from Agadir by the Germans, because they wrote articles on the Moroccan affair which were anti-German in tone. It is certain that the expulsion will cause further irritation of the vexed question, assuming as it does that German officials have territorial representations in the region.  
Government representations at Berlin on the matter are reported to have been made.

KELLY ACHIEVED NOTORIETY AS 'AFFINITY'  
[UNITED PRESS LEASED WIRE.]  
San Francisco, August 2.—The case of S. Foster Kelly, a Seattle banker, charged with having assisted in the evasion of a court order in connection with the attempt of Mrs. Iva May Henry to kidnap her children, was continued here today before Police Judge Shortall for one week, at which time the case will be set for trial. Kelly recently achieved notoriety as the alleged "affinity" of Mrs. Henry.

PORTLAND DECLINED THE GENEROUS OFFER  
[UNITED PRESS LEASED WIRE.]  
Portland, Ore., Aug. 2.—Ash Houston, a local semi-professional player, has been signed by the Victoria club, and will take Keller's place at second base in today's game. Keller was spiked yesterday, and had to leave the game.  
Al Arlett, a young Oaklander, had been offered to Manager Wattalett by Manager Wolverton, but he refused him.

## MR. WILDE REACHES PORTLAND AND EXPRESSES THE OPINION THAT "PORTLAND IS FULL OF MORE DAMNED CROOKS THAN ANY TOWN I KNOW OF."

[UNITED PRESS LEASED WIRE.]  
Portland, Ore., August 2.—Accompanied by District Attorney Cameron, Deputy Sheriff Archie Leonard, his private secretary and Mr. Sumner, one of his attorneys, Louis J. Wilde, the San Diego banker, arrived in Portland today to face a charge of embezzlement in connection with the sale of telephone bonds to the defunct Oregon Trust and Savings bank.  
Wilde appeared before Judge McGinn, in the circuit court and was released on \$20,000 bonds.  
The banker was excited and angry when he stepped from the train.  
"If the newspapers don't give me a square deal, I'll start one myself and give the truth and facts of my case," he said heatedly. "Portland is full of more damned crooks than any town I know of."  
"Of course I'll fight and win. As I said previously, I was traded for the benefit of the Panama-Pacific expedition."  
EVERY AMERICAN DESIRES AN OFFICE  
Detroit, Mich., Aug. 2.—The politically wise today forecast the reelection of James Phaherty, of Philadelphia as head of the Knights of Columbus. The convention here is buzzing with activity in support of the candidates for the various offices to be filled and the election promises to be spirited. The order has gained a new membership during the last year of 17,000, according to reports rendered today.  
The reason married men like to have girl stenographers is because they have discovered it is the only way in which they can dictate to a woman.  
Portland again permits the sprinkling of lawns.

CASE ARISES FROM SALE OF AN AUTO  
Arguments are being made this afternoon in Judge Kelly's court in the case of Wm. Meehan, charged with obtaining money by false pretenses. The state is represented by Deputy District Attorney Winslow and the defendants by the law firm of Slater, Kaiser & Pogue. The arguments will probably carry the case well into the afternoon.  
Meehan's offense is alleged to consist in obtaining a payment down on an automobile by misrepresentation. It is alleged he took an order for a machine and a payment when he was not the representative of the company and did not and could not deliver the machine.

WANTS STATE LANDS IN ONE BIG BODY  
Anxious to exchange the 50,000 acres of land owned by the state in forest reserves for a single tract of land located in some one reserve, Governor West has taken the subject up with the Oregon delegation in congress.  
The governor suggested the proposition to the forestry department several months ago, and received its endorsement. Upon presenting the matter to the interior department he was advised that, while it would be willing to make the exchange, that there is no law now authorizing it. The governor is asking the Oregon delegation to prepare an act covering the subject, and to present it to congress for passage.  
BOOZE DOES NOT AGREE WITH HIM  
San Francisco, August 2.—Captain F. A. Cook, of the coast artillery corps, U. S. A., who was shot and dangerously wounded on the street here April 12, by Watchman J. J.

Will Discuss THE HIGHWAY TO PORTLAND  
Governor West has called a mass meeting in the hall of the house of representatives, at the state house, for tomorrow evening at 8 o'clock. The object of the meeting is to discuss the proposed highway from Salem to Portland, and if possible, arrange for its building.  
Governor West will explain his position on the matter. Judge Dimmick, of Oregon City, will tell how Clackamas county feels about it. Judge Bushey will speak for Marion county, and Judge Galloway will speak for both Marion and Polk, which latter, however, will also have other representatives, and Mayor Lachmund will represent Salem.  
A big delegation will be present from Newberg, as the West Side is hot to have the road.  
C. T. Prall, of Portland will also be present and speak, and a warm and interesting discussion of the subject will be made.  
No attempt will be made at this time to locate the road, just to get it agreed upon that the road will be built. The route will be selected later. Everybody is invited.

## BRYAN IS ROASTED BY UNDERWOOD

DEMOCRATS RESPOND WITH THUNDEROUS CHEERS WHEN THE DEMOCRATIC HOUSE LEADER DENOUNCES THE PEERLESS ONE.  
[UNITED PRESS LEASED WIRE.]  
Washington, Aug. 2.—Denouncing William J. Bryan on the floor of the house today as a falsifier, Democratic Leader Underwood was greeted with cheers today that showed that the power of the "Commoner" is not what it was in a former day. Thunderous applause from the Democrats followed the statement of Underwood which was in reply to a recent charge by Bryan that the house leader was a protectionist.  
"I know the statement is false, Mr. Speaker," said Underwood; "you know it is false, and the Democracy of this country know it is false. Bryan insinuates that I attempted to prevent consideration of a revision
