EDITORIAL NOTES.

The Marion Hotel company shows total receipts for the month of June of \$6528.80, and shows surplus earnings to date of \$5091.28.

The sixty thousand-dollar armory, a new Southern Pacific depot, twenty-two miles of paved streets, and reconstruction of the street car line, are assets of prosperous, progressive, greater Salem.

MADE IN OREGON.

The multiplicity and diversity of products made in Oregon are not as well known to the average resident, or business man, for that matter, as they should be.

Here in Oregon we manufacture perhaps ninety per cent of the average requirements of our citizens, but comparatively few realize the fact.

"Made in Oregon" should be the slogan of every citizen.

Every dollar spent for home goods remains at home, and the spender gets back at least a portion of his money in one way or another every time he buys a "Made in Oregon" product.

Oregon is destined to be one of the great manufacturing states in the Union, but the time it will require for her to be in the foremost rank of manufacturing states would be greatly shortened if our people would make it a portion of their daily duties first to inquire if the goods they are buying are "Made in Oregon."

We have factories in this state which today are struggling for existence, and which would be running along smoothly, employing many more men and women if each man, woman and child in the state would insist on having the home product.

It is not asked that our people buy "Made in Oregon" goods in preference to goods made elsewhere, unless the home product is equal in quality, appearance and price to the same goods made elsewhere.

But even the casual investigation of our citizens will show that our manufactures in most lines are turning out goods today that equal any in the country, and the Manufacturers' association only asks that when such goods are offered that they be given the preference.

This leads to another important phase of the question. The support of home industry is the duty of every citizen. We live by the interchange of trade.

There is small need indeed for the people of Oregon to go outside of their state for the everyday requirements of life, and if the Oregon people would insist on "Made in Oregon" goods being sold them, retail dealers everywhere would keep up their stock to meet the demands of their trade.

Cities and states are built up by the pay-rolls within the state.

Property values are kept up by the pay-rolls of the factories. Farm values are kept up by the demands for farm products from the cities, the manufacturing centers.

The whole problem is one which even casually studied will prove to any citizen and to every man, woman and child within the state that his support of "Made in Oregon" goods means that his own prosperity will be greater.

It is a "wheel within a wheel" proposition. Insist on "Made in Oregon" goods.

The factories are the life of our cities.

The more factories we have, the more people are employed, and greater becomes the prosperity not only of the cities, but of the rural districts, for the factory supported cities must depend upon the agricultural districts for their food supplies, and largely for their raw products.

The home manufacturers depend upon the people, and the people depend upon the home manufacturers.

The consistent support of home industries and the persistent demand for "Made in Oregon" goods means increased pay-rolls, which, in turn, will be to the advantage of the farmer, and all other producers of the necessities of life.

Announcement

C. M. Roberts & Company have purchased the well-known grocery store of H. H. Ragan. They will continue to do a high class grocery business, rendering first class service and courteous treatment and respectfully solicit your patronage.

C. M. Roberts & Co. 429 Court Street. Phone 256.

Years of Suffering

Catarrh and Blood Disease—Doctors Failed to Cure. Miss Mabel F. Dawkins, 1214 Lafayette St., Fort Wayne, Ind., writes: "For three years I was troubled with catarrh and blood disease. I tried several doctors and a dozen different remedies, but none of them did me any good. A friend told me of Hood's Sarsaparilla. I took two bottles of this medicine and was as well and strong as ever. I feel like a different person and recommend Hood's to any one suffering from catarrh."

BILLS WERE NOT SIGNED BY TREASURER

SECRETARY OLCOTT FINDS A BATCH OF BILLS FOR WHICH WARRANTS HAVE BEEN DRAWN BUT WHICH ARE UNSIGNED.

Scores of bills for salaries for employees of the state institutions for which warrants have been issued but which are not flable because they lack the signature of ex-State Treasurer Steel have been discovered by Secretary of State Olcott and in bringing up the files of the past administration and starting those of his own he is puzzled as to what to do with them.

Ex-state Treasurer Steel, it seems, while serving as an official for the state of Oregon with offices at Salem, spent most of his time at Portland. Whenever his signature was wanted to a bill it was generally necessary to wait for him, and the bills in question are still waiting for him. Certain it is that no other officer can sign them and it is doubtful now that Steel is out of office, whether he can legally sign them, and as with out the signatures of the ex-treasurer they are not flable, the secretary does not know what disposition to make of them.

Are for Large Amounts. There are 37 bills payable from the general fund and despite the lack of Steel's signature, approving them, warrants were drawn in their payment. The major portion of them run into several hundred dollars, and some go over the thousand mark.

The largest salary bill without the signature of the ex-treasurer is the bill for salaries for the asylum. This bill was for last December, and amounts to \$9,773. Another large bill relates to the hatchery fund of the master fish warden's department. This is for the month of July, of last year and amounts to \$31,456. Another is for the feeble minded institute and is for the month of September, and amounts to \$1,856.

Notary Commissions Signed. Just recently Secretary of State Olcott had an official whose time of office expired leaving several hundred notarial commissions unsigned, come to the capitol building and sign them so that they might be flable. The duty of signing them at the time they were issued, seems to have been shifted from one person in the office to another until when it reached the last one and there being none further to shift the duty to, it went undone.

Just as to whether an official after passing out of office could sign these commissions seems to be a legal question which is, well a question.

AN IMMENSE PETITION SENT TO PRESIDENT

PORTLAND CITIZENS UNANIMOUS IN ASKING THE GOVERNMENT TO MINE AND SELL ALASKA COAL.

Portland, Or., August 2.—The first batch of petitions, demanding that the federal government shall open, mine and sell at cost Alaskan coal, will be forwarded to Washington Monday, according to those who are promoting the movement in Portland today. Four thousand four hundred names will be appended to the first petitions to go east.

More than 600 petitions are being circulated and are being readily signed. The chamber of commerce and the bankers declined to sign the petition. The majority of big business men said they favored the leasing system instead of the proposition to have the government do its own mining. There is no open opposition to the movement here on the part of big business concerns.

STATE NEWS.

Ex-Congressman A. C. Ellis is out as a candidate for U. S. senator, to succeed Senator Bourne. Ellis is from Portland.

Medford has detectives timing autoists, and the arrests are many, and fines abundant.

Dallas is arranging to have a big prune fair.

Grants Pass is after a \$100,000 federal building.

According to latest reports the forest fires in Oregon have done but little damage, being confined largely to logged off lands.

The Wasco Warehouse & Milling company will rebuild its mills at The Dalles, recently destroyed by fire.

The Security Savings & Trust company, has doubled its capital stock, and now has \$1,000,000 behind it.

Falls Victim to Thieves. S. W. Bonds, of Coal City, Ala., has a justifiable grievance. Two thieves stole his health for 12 years.

They were a liver and a kidney trouble. Then Dr. King's New Life Pills throttled them. He's well now.

Unrivaled for constipation, malaria, headache, dyspepsia. 25 c. J. C. Perry.

SINCLAIR WORKS ON ROCK PILE

AUTHOR OF "THE JUNGLE" GETS SENTENCE FOR PLAYING BALL ON SUNDAY—ITS A DOSE OF HIS OWN MEDICINE BUT HE DOESN'T LIKE IT.

(UNITED PRESS LEASED WIRE.)

Wilmington, Del., August 2.—Sentenced to 18 hours of rock breaking at the county work house for violating the blue laws by playing baseball and tennis on Sunday, Upton Sinclair, founder of the single tax colony at Arden and author of "The Jungle," declared today a "hunger strike" and refused to eat.

Following an enforced bath, Sinclair and his associates were put to work on the rock pile and no mercy was shown them. Sinclair, wild with rage, threatened to insist on the enforcement of the blue laws which forbid every manner of business on Sunday. If he carries out his threat, preachers, lawyers and judges may become involved in the conflict.

Sinclair's arrest was instigated by George Brown, an anarchistic philosopher, in revenge for Sinclair's action in having Brown arrested for street speaking.

FIRE DID NOT LEAVE THE MEN WITHOUT WORK

Springfield, Aug. 2.—In spite of the fact that 250 men were thrown out of employment by the burning of the Booth-Kelly mill, not one of these men today is without work or is unable to get it, according to a statement issued by the authorities here today. The Booth-Kelly company is taking care of every man with a family, and places are made for them in the other mills or camps.

In addition to this fact Springfield today is short of labor. A bulletin board in front of an employment bureau asks for 15 men to work for the Oregon Power company; 100 laborers are wanted by the Southern Pacific company at Natron, five miles from here; 50 are wanted by the city of Springfield for grading and street work; 50 men are wanted by sewer contractors, who will start construction next week on \$12,000 worth of sewers in this city, and a dozen men are asked for work on the construction of the new Springfield bank building, which began this morning, by the excavation for the basement.

Springfield has several business blocks under course of construction, and a score of residences that are above the \$1,000 class. Although the loss of the Booth-Kelly payroll is felt to appreciable extent, it affects Springfield but very little.

THE SAFETY VALVE WAS CEMENTED

To find the safety valve of the boiler in the state capitol building so cemented with rust that it was necessary to pry it loose with a crow bar was the experience of Martin Languth, engineer at the state house, and who has been overhauling the boiler.

The condition of the boiler indicates that it has never been overhauled since it was installed. Save for the valves, however, it was not bad. Its condition was not only bad but dangerous as should the steam have been turned off on all of the radiators in the building at the same time, an explosion would have been the result as with the valves closed there would have been no avenue for the steam to escape.

Languth is the new engineer and his years of experience has made him thoroughly conversant with his work in all its phases.

A HARMLESS WAY TO DARKEN THE HAIR

A Little Sage and Sulphur Makes Gray Hair Vanish—A Remedy for All Hair Troubles

Who does not know the value of sage and sulphur for keeping the hair dark, soft, glossy and in good condition? As a matter of fact, sulphur is a natural element of hair, and a deficiency of it in the hair is held by many scalp specialists to be connected with loss of color and vitality of the hair. Unquestionably, there is no better remedy for hair and scalp troubles, especially premature grayness, than sage and sulphur. If properly prepared, The Wyeth Chemical Company of New York put up an ideal remedy of this kind, called Wyeth's Sage and Sulphur Hair Remedy, and authorize druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented. This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special agent J. C. Perry, Druggist, Salem, Oregon.

HUBBARD TO TACKLE SENATORS

WILL PLAY SALEM ON THE LEAGUE GROUNDS HERE NEXT SUNDAY—ONLY THREE MORE GAMES THIS SEASON.

The Senators will meet the Hubbard team next Sunday on the Salem league grounds. There are only three more games to be played in the league schedule this season. The result of the next three games will decide which team of the Willamette Valley league will carry off the \$125 pennant. The following Sunday Albany will cross bats in Salem with Jerman's nine and on Sunday, August 20 the last and deciding game of the season will be played, also on the home grounds, between Salem and the Woodburn Giants. If the Senators prove victorious in the league finals Manager Jerman intimated this morning that he would issue a challenge to Manager Bartholomew of the Gresham Giants, for a game. The Gresham nine has played excellent ball this season and its members are laying claim to the championship of the Willamette Valley. "Mysterious" Mitchell probably will pitch for the Gresham boys. In his last game only two runs were secured off him. Jerman, however, is confident that his star pitcher, Allegart, can give the "Mysterious" one a good hard run for the money and the Senators probably will face the Gresham Giants before the championship title for this season is finally and definitely decided.

The next three games in the league schedule should prove rattling good contests. Albany defeated Salem last Sunday, Hubbard has twice defeated Woodburn, while Woodburn has been at the top of the column for some time. Now these four teams are going to settle matters during the next three games. Blazier, Jerman's new man from Wisconsin, took Jones' place behind the bat in last Sunday's game at Albany. His work pleased Jerman so well that the Senators' manager probably will play Blazier in the same place next Sunday and will give Jones a chance to stretch his legs in the outer field.

For Sale, 80-Acre Farm

32 acres under cultivation. 6 acres peaches, 4 years old. 3 acres loganberries. 2 acres orchard. 21 acres potatoes. Soil, the finest kind of black, sandy river bottom loam. No better land in Oregon. The best for peaches, loganberries, alfalfa, or anything that will grow in the Willamette valley. Price, including crop, \$70 per acre.

DERBY & WILLSON U. S. BANK BLDG.

THE TOGGERY SYSTEM

OF STEAM CLOTHES PRESSING IS THE ONLY SANITARY METHOD KNOWN, YOU ASK WHY SANITARY?

Because we use no filthy press cloth wrung out in dirty water; but dry wholesome Steam at a high pressure is forced into the garment, thereby destroying all disease germs, etc. It also raises the nap making the cloth look like new.

If you will call and inspect this machine you will appreciate what it will do.

We invite every physician in the city to come and see it, we know what they will say. SUITS PRESSED WHILE YOU WAIT IN THE SANITARY WAY.

WILL RAISE POSTAGE ON MAGAZINES

(UNITED PRESS LEASED WIRE.) New York, Aug. 2.—Assistant Postmaster-General Stewart was cross-examined today at the federal investigation into postage rates, which is in progress here. Herbert Knoble, counsel for the magazine publishers, questioned Stewart at length, but elicited little more from him than that he was in sympathy with the position of Postmaster-General Hitchcock, that the magazines should pay higher rates of postage for their advertising than for their news pages.

Call for Bids. Notice is hereby given that the undersigned will receive bids up to 5 o'clock p. m., on Monday, August 7, 1911, for the construction of a plank sidewalk five feet in width with three stringers, along the west side of Fair Grounds road, and abutting upon and adjacent to that part of Block 66 of North Salem, in Salem, Oregon, which lies west of said Fair Grounds road. The city reserves the right to reject any and all bids. Said bids will be considered by the common council on August 7, 1911. CHAS. F. ELGIN, City Recorder.

Call for Bids. Notice is hereby given that the undersigned will receive bids up to 5 o'clock p. m., on Monday, August 7, 1911, for the construction of a plank sidewalk 5 feet in width with 3 stringers; and a railing 3 feet high on both sides wherever said sidewalk is 2 feet or more in height above the ground and extended to curb on 6th street, on the west side of Fair Grounds road, and abutting upon and adjacent to that portion of the South-west quarter of Block 57 in North Salem, in Salem, Oregon, which lies west of said Fair Grounds road. The city reserves the right to reject any and all bids. Said bids will be considered by the common council on August 7, 1911. CHAS. F. ELGIN, City Recorder.

WARDMAN IS ELECTED TO SENATE

(UNITED PRESS LEASED WIRE.) Jackson, Mich., Aug. 2.—Former Governor Vardman, whose anti-negro utterances have stirred the south in the past, probably will have an opportunity in the near future to air his racial views in the United States senate. Returns from the Mississippi primaries, completed today, show that Vardman has beaten Perles, his nearest competitor, by nearly 12,000 votes for the seat of Senator Money in the upper national house.

How about it; has the hired man a chance to read the magazines that come to the house, or do they lie on the exclusive family parlor table.
