THE LATEST IN FASHIONS IN NEW YORK

FALL OUTFITS FOR SCHOOL
GIRLS AND OTHERS—NEW COLORS—THE LITTLE SILK COAT—DRAPERY TOUCHES—NEW SLEEVES AND FRILLS.

New York, Sept. —Enough advance models are here to show the trend of coming fashions, and lend "first aid" to mothers and others interested in new fall get-ups, or the refreshment of last year's gowns.

Skirt Lines.
Skirts remain scant but are of comfortable width for walking, and the hanging panel that masked their plainness during the summer has succeeded by various devices in sash effect on the thinner goods, and by bias folds in buckled styles, that break up the skirt in various smart ways and that transform the extremely attenuated lines of last season into styles much more becoming. Soft, droopy frills trim many fussy frocks for dress wear, and the waists of those are apt to have crossover bralettes or bibu draperies edged with the same floppy ruffles.

or in linings continues, though this idea has been terribly overdone.

Blazer Beadings.
The same vogue remains for beaded effects in Byzantine and Oriental colorings and patterns, while the French knotted embroideries, that closely imitate beads, have lost none of their prestige. A dress of black crepe meteor has the narrow skirt slashed to show unexpected bits of drapery at the hips, and is finished with two very wide folds at the knee. The blouse is a modified kimono with rather long armhole from which come two square sleeves in dark and light tones of raspberry chiffon cloth. Straps over the shoulder are of pinkish red heads set closely like an Indian headband. A strip of the same concealed somewhat by the draperies goes down one side of the front of the skirt. The sash ends at the side are finished with two long tassels of the pink heads.

Common Colds Must Be Taken Seriously
For unless cured they sap the vitality and lower the vital resistance to more serious infection. Protect your children and yourself by the prompt use of Foley's Honey and Tar Compound and note its quick and decisive results. For coughs, cold, croup, whooping cough, bronchitis and affections of the throat, chest and lungs it is an ever ready and valuable remedy. Remember the name, Foley's Honey and Tar Compound and refuse substitutes. The genuine is in a yellow package. Red Cross Pharmacy (H. Jerman).

The above design is by The McCall Company, New York. Designers and Makers of McCall Patterns.

A Pretty Gown.

A pretty gown that is going into the trunk of a college girl is of white voile, the gathered skirt trimmed with three five-inch ruffles of rose printed silk, put on about three inches apart. A little silk coat of the same forms the bodice. This has a wide collar edged with ruffles of the silk and not finish the elbow. The sleeve is apt to be in keeping, but for dress wear these coats may be fancy as desired. They will lend a smart air to a demure dress, or refreshish most satisfactorily. Recolored and changeable and surah silks are all liked as well as satins and printed styles.

Useful Silk Coats.

The little freakish silk coats that have been mentioned several times recently promise to be a very popular feature of fall and winter modes. They will replace bonnets in many tailored suits, and the drop below the waist may be anything from a three-inch knife pleating to long sash ends. With cloth tailormades, the finish is apt to be in keeping, but for dress wear these coats may be fancy as desired. They will lend a smart air to a demure dress, or refreshish most satisfactorily. Recolored and changeable and surah silks are all liked as well as satins and printed styles.

Plaids for Coats and Blouses.

Some very smart utility blouses and top coats are shown in striking plaids. Woolen fringes to match are new with these and a touch of velvet, or satin in the trimmings or buttons brings out the color scheme.

Raven Blue.

Raven blue, that is very dark and rich looking, is a relief after all the insistent blues of the past season. Grays in many shades to dark gun metal tints are to be much worn, and black and bronze brown remain favorites. Striking contrasts in col-

GRANDMOTHERS USED SAGE TEA

To Darken the Hair and Restore Gray and Faded Hair to Its Natural Color.

It is easier to preserve the color of the hair than to restore it, although it is possible to do both. Our grandmothers understood the secret. They made a "sage tea" and their dark, glossy locks long after middle life was due to this fact. Our mothers have gray hairs before they are fifty, but they are beginning to appreciate the wisdom of our grandmothers in using "sage tea" for their heads are fast following suit.

The present generation has the advantage of the past, in that it can get a ready-to-use preparation called Weyth's Sage and Sulphur Hair Restorer. As a scalp tonic and color restorer this preparation is vastly superior to the ordinary "sage tea" made by our grandmothers.

This remedy is sold under guarantee that the money will be refunded if it fails to do exactly as represented.

If your hair is losing color or coming out, start using Weyth's Sage and Sulphur today, and see what a change it will make in a few days' time.

This preparation is offered to the public at 50 cents a bottle, and is recommended and sold by all druggists.

"Can be depended upon" is an expression we all like to hear, and when it is used in connection with Chamberlain's Colic, Cholera and Diarrhoea Remedy it means that it never fails to cure diarrhoea, dysentery or bowel complaints. It is pleasant to take and equally valuable for children and adults. Sold by all dealers.

"Economies" We Can't Afford

In one sense, we could save money by using cheaper soap than the very best, by using cheaper starch and lower priced employees, etc.
But the saving at most would be only a fraction of the resulting loss in reputation.
You can count on the fact that we practice no "economy" that takes it out of your clothes.
We aim to do the finest laundering possible, second to none. Our patrons tell us we succeed. You will like our work. Try it. Lowest prices guaranteed.
