FULL LEASED WIRE TELEGRAPH REPORT

THE PHILIPPINES AND JAPAN.

The Denver Post is pushing the matter of disposing of the Philippines to Japan.

It would favor selling the islands to Japan and using the proceeds for reclamation work.

This looks easy on the surface, but would the Philippines consent to be transferred to Japan?

Japan is a government that is gouging the last dollar out of its own people and its possessions.

Japan would lay as heavy a hand on the Philippines as ever did the degenerate Spanish monarchy.

There would be constant resistance, warfare, oppression and bloody strife under Jap domination.

In the end some stronger nation would feel compelled to intervene, as our country did in Cuba.

Then the whole matter of a protectorate over the Philippines would be right where it is now.

The Denver Post plan of turning the islands over to Japan for a cash price looks hazy and impracticable.

THE LITTLE NORTH FORK AND A SALEM WATER SUPPLY.

The proper place for this city to obtain a supply of pure water is from the Little North Fork of the Santiam.

Under the Citizens' administration some years ago a report was made to this effect, and a site was secured.

The city had an option on that site and let it lapse, as it does so many things it might have.

But to return to the Little North Fork, we repeat that it is an ideal source for a water supply for this city.

Within two miles from the point where it empties into the main Big North Fork of the Santiam it canyons.

Thence to its source it flows through rock-bound canyons, and is fed by natural springs gushing from the rocks.

It is not fed from a glacier, as so many mountain streams are, and at times of great glacial action they flow yellow and white.

The Little North Fork does not flow from a lake or through a swamp, as does the Breitenbush and other streams.

It has almost no farming land along its banks, and will never be subject to pollution from agricultural pursuits.

The city of Salem should acquire a water supply and a piece of land large enough to protect the intake for the supply.

At almost any point above Mehama the Little North Fork could be dammed and a reservoir constructed and the water brought out.

Gravity would carry this water to a reservoir above the asylum cottage farm, and from that reservoir it could be distributed to all the state institutions and to the city of Salem.

It would be a great thing for this city to get such a water supply, and it is not a big undertaking to carry it out.

All the way to the intake there would be a good wagon road, and the pipe line could be carried at a water grade.

The city should acquire such a water right, and should not wait for this public utility service to be monopolized by a corporation.

A water supply from the Little North Fork would supply the towns of Stayton, Aumsville and Turner, as well as Salem, and would be a far easier project, from an engineering standpoint than Bull Run was for Portland.

No city has such easy access to pure mountain water, and from a stream that has a small watershed that will never be polluted.

The report of some committee of the city council that the water of the Little North Fork was impregnated with copper was a pipe-dream from some aldermanic brain.

X-RAYS AND SMILES.

An examination into the sources of America's great fortunes would soon disclose the source of so much poverty.

"Baby Mine"—Best paying mine on earth.

There is more rejoicing at the state prison over one "trustee" who was lost but is found, than over the whole caboodle that go not astray.

The Oregonian this morning quotes hops as selling in Bohemia at 92 cents a pound. At this price, the Oregon hop grower could ship his crop by mail, and still have a fine profit.

Lafferty favors La Follette for president. One would think his first choice would be Helva Lockwood.

The sugar trust, fearing a boycott, suddenly discovered the crop was not so short as it has been claiming it was, and generously reduced the price from \$7.00 per hundred to \$6.25 or nearly 11 per cent.

The high cost of living is accounted for easily if the difference between what the farmer gets and the consumer pays is examined into. The difference in many cases is more

than the price the farmer receives.

Secretary Fisher, who is with Taft, yesterday in a public speech in Kansas attacked the "heretical demagogic progressives." Senator Brewster, of Kansas, followed him, and he put a knife under the Lilliputian secretary's ribs that made that microscopic study in political germs wilt.

A white girl married a Chin at Vancouver yesterday. The Chin has money, and his name is Chin Lee. When the honeymoon is a few days older, he will find his wife giving him the English translation of his name—Chin Him.

"Baby Mine"
The announcement of the Grand, tonight in Margaret Mayo's laughing success "Baby Mine". It is said to be a deft comedy that sets the audience chuckling before the actors have spoken three lines. It ran for one solid year at Daly's theater, New York and is now in its second year at Sir Charles Wyndham's Criterion theater in London. Without any theatrical flourish of trumpets, "Baby Mine" scored one of the biggest comedy hits ever known in New York. Wm. A. Brady, Ltd., makes the production and directs the tour.

VICK BROS., Proprietors.

Full line of Automobile Supplies, Oils and Gasolene. Autos for hire, storage and repairing. All work guaranteed. Agents for LOCOMOBILE, OHIO, HUDSON, OAKLAND, ELMORE AND FORD AUTOMOBILES AND KELLY TRUCKS. 1912 cars now in. Call and see them. Phone Main 783. 173 South Liberty street.

Hood's Sarsaparilla

Cures all humors, catarrh and rheumatism, relieves that tired feeling, restores the appetite, cures paleness, nervousness, builds up the whole system. Get it today in usual liquid form or chocolate tablets called Sarsatabs.

ITS MOTHER WAS AWARE IT WAS OUT

[EXTEND PRESS LEASED WIRE.]
San Francisco, Sept. 27.—"Oh, look who's here. I wonder if its mother knows it's out," said six celebrating clerks when the returns of the election came in here, as they jubilated before the "bucket of blood" saloon, in derision of a quiet young person who stood near, but the quiet person paid no attention until one of the clerks took him by the arm. Then the clerk took the count. And in about two minutes more the other five had theirs.
In police court today two of the celebrants who were captured, got a surprise. They learned the identity of the quiet young person. It was Eddie Hanlon, who used to be a near king of the lightweights and who can still go some.

ANOTHER DEAD ONE IS ALIVE

Los Angeles, Sept. 27.—Supposed to have been drowned in a shipping disaster in Wiltapa harbor, six years ago, friends of Frank Anderson, formerly of South Bend, Wash., today are positive that a man whom they saw on the streets of San Pedro yesterday was Anderson. Believing her husband dead, Mrs. Anderson collected \$2000 life insurance money and married again. The "dead" husband was recognized by Arthur Clyde, special representative of the Southern California Lumber company, who says that he met Anderson and talked to him.
What to do with the remnant of the insurance money and her second husband are questions agitating Mrs. Anderson today.

Foley's Kidney Remedy (Liquid).
Is a great medicine of proven value for both acute and chronic kidney and bladder ailments and for annoying urinary irregularities. It is especially recommended to elderly people for its wonderful tonic and reconstructive qualities, and the permanent relief and comfort it gives them. L. McConnell, 117 Catherine St., Elmira, N. Y., says: "Five bottles did the work for me most effectively and beyond doubt Foley's Kidney Remedy is the most reliable kidney medicine ever made. Red Cross Pharmacy H. Jerman)."

INVESTIGATE ELECTION OF STEPHENSON

Milwaukee, Sept. 27.—Former Congressman Littlefield, of Maine, will act as chief counsel for United States Senator Isaac Stephenson, of Wisconsin, the millionaire lumberman accused of having bought his way to a seat in the national capitol, according to an announcement made here today.

The senate investigating committee, of which Senator Heyburn, of Idaho, is chairman, will begin the hearings in Stephenson's case here on October 22. The other members of the committee are Senators Bradley and Paynter, of Kentucky, Senator Sutherland, of Utah and Senator Pomerene, of Ohio.
Senators Bradley and Paynter are already here, while Senators Sutherland and Pomerene are expected Saturday to participate in the investigation, which begins on the following Monday. Indications are that the case will develop as great sensation in national politics as did the case of Senator Lorimer, of Illinois.

A HARMLESS WAY TO DARKEN THE HAIR

A Little Sage and Sulphur Makes Gray Hair Vanish—A Remedy for All Hair Troubles.

Who does not know the value of sage and sulphur for keeping the hair dark, soft, glossy and in good condition? As a matter of fact, sulphur is a natural element of hair, and a deficiency of it in the hair is held by many scalp specialists to be connected with loss of color and vitality of the hair. Unquestionably, there is no better remedy for hair and scalp troubles, especially premature grayness, than sage and sulphur if properly prepared. The Wyeth Chemical Company, of New York, put up an ideal remedy of this kind, called Wyeth's Sage and Sulphur Hair Remedy, and authorize druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

If you have dandruff, or if your hair is thin or turning gray, get a bottle of this remedy from your druggist today, and see what it will do for you.
This preparation is offered to the public at 50 cents a bottle, and is recommended and sold by all druggists. J. C. Perry, Special Agent.

A Great Advantage to Working Men.
ville, O., says: "For years I suffered from weak kidneys and a severe bladder trouble. I learned of Foley Kidney Pills and their wonderful cures, so I began taking them, and sure enough I had as good results as any I heard about. My backache left me and to one of my business, expressman, that alone is a great advantage. My kidneys acted free and normal, and that saved me a lot of misery. It is now a pleasure to work where it used to be a misery. Foley Kidney Pills have cured me and have my highest praise. Red Cross Pharmacy (H. Jerman)."

The October Strand Magazine.
The October Strand contains in excellent supply of fiction, including stories by W. W. Jacobs, Richard Marsh, Leonard Larkin, Florence Warden, Lloyd Williams, and other well known writers. Among the articles is an unusual item entitled "When the New Zealander comes." It is an attempt at a forecast of London three thousand years hence and it is excellently illustrated with drawings showing St. Paul's Cathedral, the Tower, the Houses of Parliament, the Law Courts, Westminster Abbey, and other well-known London buildings, in ruins. The author intimates that three thousand years hence the chief article of exportation from England will be cabbages. An illustrated article dealing with the life of William Gillette is contributed by Wendell Phillips Dodge. "What Reform is Most Needed" is a symposium of eminent men and women, including Andrew Carnegie, Conan Doyle, Sir Gilbert Parker, Hall Caine and others. "Modern Japanese Humor," "What It Costs to Run a Theater," "Boosters and Boosting" and an interview with Sir Ray Lankester are other articles of interest.

Mass Millions of Friends.
How would you like to number your friends by millions as Bucklen's Arnica Salve does. Its astounding cures in the past forty years made them. It is the best salve in the world for sores, ulcers, eczema, burns, boils, scalds, cuts, corns, sore eyes, sprains, swellings, bruises, cold sores. Has no equal for piles. 25c at Run a Theater," "Boosters and J. C. Perry's.
