TEDDY'S WIFE BADLY HURT WHEN THROWN

[UNITED PRESS LEASED WIRE.]
Oyster Bay, N. Y., Oct. 2.—Information that Mrs. Theodore Roosevelt suffered a severe fall here on Saturday became public today. It is not thought the results will be serious. Mrs. Roosevelt was riding with Col. Roosevelt and their son, Archie, when her horse stumbled, causing her to fall to the pavement. Stunned by the shock it was not until after

being taken home that her consciousness was restored.
A passing delivery automobile was used for an ambulance.

BOTH SIDES ARE LYING.

(Continued from Page 1.)

"While it is true," he continued, "that several hundred strikebreakers have been put to work in the Southern Pacific shops here, they are inexperienced and incompetent, and practically nothing is being done. We confidently expect the railroad officials to give in by the end of the present week."

On the other hand local railroad officials state that not more than 50 per cent of the union men are out. It was said that the work in the shops was progressing nicely and

that inside a week a full force of skilled men would be back at work.

Labor leaders are gratified today with the orderliness of the strike. Not a single disturbance or arrest, since the men walked out Saturday has been reported. The strikers gathered in the Labor Temple today to appoint committees to carry on the strike.

Electric Workers Next.
Oakland, Cal., Oct. 2.—It is rumored here that the electrical workers employed by the Southern Pacific company may go on strike, thus tying up the new electric service between San Francisco and Oakland, as well as the light and other facilities in the shops and on the trains. The union is to meet today to consider the matter.

The switchmen's union has taken no definite action as yet. The train-

men's convention will be held tomorrow, and as this includes the switchmen and all members of train crews excepting engineers, firemen and conductors, the result may be the calling of a general strike unless the eight-hour day, sought by the union, is acceded to. Delegates from the striking shopmen have pickets at all entrances and exits to the west Oakland yards. They officially reported today that there were 500 men on strike.

BEN MINTO FOUND WITH SIWASHES

RAN AWAY FROM HOME LAST MAY AND TOOK UP WITH AN INDIAN FAMILY ON THE UMATILLA RESERVATION.

Grown fond of Ben Minto, the 13-year-old boy who ran away from his home in the city last May, and who has since been living with Indians on the Umatilla reservation, near Pendleton, the Indian in whose tepee he is housed threatened to kidnap the lad when he was discovered by an elder brother today, should the brother or his relatives attempt to take him away.

Ever since the lad left home, the parents and the brother have been searching for him. The brother secured trace of him in Eastern Oregon, and finally found him in an Indian camp snugly housed in one of the tepees. Because of the daring and venturesome disposition of the boy, the Indian and his squaw have both learned to love him, and he immediately told the brother that should an attempt be made to take him from them, that they would kidnap him. The boy stated he had also learned to love the buck and the squaw and that he desired to remain with them. The brother quieted the Indian's fears by telling him that the lad would not be molested but that he would be permitted to remain as long as he desired.

Great Northern Exhibits Oregon Products At Northwest Land Products Show

Besides the official exhibit of this state which is to be made under the direction of the governor at the Twin City Land Show, the efforts of the state officials will be supplemented by good exhibits to be made of our products by the railroad companies.
The Great Northern has just bought five sections at the Twin City show,

special part of it will be shown for the first time at the big show in St. Paul, the Great Northern will also show in New York City, in Omaha and at several other shows during the fall and winter. From all of these displays our state will reap a benefit and the railroad company divides its space up and places the name of the state over that part of the exhibit which is collected from here. Speaking of the advantage of making these exhibits, President L. W. Hill says, "From experience we find that we get better results from our exhibits at land shows than from any other angle form of advertising which we do."
It follows that if the railroads get such good results from the land show exhibits, the states which they represent must get a large share of the benefit.
