The "pure food law" is designed by the government to protect the public from injurious ingredients in both foods and drugs. It is beneficial both to the public and to the conscientious manufacturer. Ely's Cream Balm, a successful remedy for cold in the head, nasal catarrh, hay fever, etc., containing no injurious drugs, meets fully the requirements of the new law; and that fact is prominently stated on every package. It contains none of the injurious drugs which are required by the law to be mentioned on the label. Hence you can use it safely.

GOVERNOR AND JUDGE.

(Continued from page 1.)

for the arrest of a fugitive and the officers, in attempting to perform their duty of returning him to their state to be tried, should be hailed into this or that court and instructed to release the prisoner, the law governing the extradition of criminals would be absolutely nullified.

"Suppose that when District Attorney Cameron was trying to secure the extradition of Wilde, that after Governor Johnson has issued his warrant, Wilde had gone into a friendly court and secured his release. The air in Oregon would, undoubtedly, for a time have been rather blue.

"In my opinion the place to try these matters is in the state where the crime is committed. This course has been followed by this office, except in the single instance of the Kilman case, where circumstances were such as to lead us to believe that justice demanded that he be sent back to Missouri. The matter was taken up and fully explained to the governor of Missouri, who had made the request for extradition.

"There are a number of statements attributed to me in a news story which appeared in one of the morning papers, which were never made by me. I wish to state that the story that Martin was engaged to a niece of mine is a rank fabrication and absolutely without foundation.

As the situation now stands, two Portland detectives are under arrest in Portland for assisting Sheriff Rinker in kidnaping his prisoner, and the sheriff and Martin are under arrest at Newport.

Governor West declined to say whether he would interfere in the matter of the arrest of the detectives. As for the sheriff and his prisoner, both are now in Washington and to bring them back here would mean that the governor must make a requisition on Governor Hay of Washington.

less Case. Hon. Ark. J. E. Freeman says: "I had a severe case of kidney trouble and could not work and my case seemed hopeless. I used several well known kidney remedies, and had the services of a doctor, all of which gave me no relief. One large bottle of Foley's Kidney Remedy cured me and I have never been bothered since.
