

BALLOON IS HOT AIR ELEPHANT

[UNITED PRESS LEASED WIRE.]
San Diego, Cal., Nov. 18.—The San Diego city council changed its official mind again today, and decided to allow C. H. Tolliver, inventor of the great dirigible Tolliver I, to attempt to remove the alshp by means of balloons. Tolliver will be given time to get the balloons here from the north, and if the dirigible is not taken out of the city limits within a certain time, the inventor will be placed under arrest for maintaining a nuisance. It is declared the balloon is a menace to life.

Late yesterday the city officials ordered the health officers to remove the gas from the balloon. This morning the order was countermanded, and an attempt will be made to move the balloon.

Tolliver declares he has spent his last cent, and his wife has pawned her jewels, to raise money to move the affair.

FOREST FIRE SWEEPS ALL BEFORE IT

[UNITED PRESS LEASED WIRE.]
Santa Monica, Cal., Nov. 18.—A terrific forest fire, which is sweeping toward the soldiers' home at Sawtelle, is raging in the Santa Monica mountains. Starting in Temescal canyon late yesterday, the fire this afternoon reached the mouth of Topanga canyon, completely destroying the house and outbuildings of the Montgomery ranch, and badly damaging the Wolfe ranch. Thousands of dollars worth of fruit trees have been destroyed.

At 1:15 o'clock the flames, fanned by a stiff ocean breeze, were eating their way toward the soldiers' home. Unless the wind changes it seems certain that the fire will reach the institution before dusk. The flames are plainly visible from this city, and at this hour it seems certain that the plant of the Santa Monica Water company will be destroyed.

COMPANIES BEGIN WORK NEAR EUGENE

[UNITED PRESS LEASED WIRE.]
Eugene Or., Nov. 18.—Simultaneously with the beginning of construction work on the Southern Pacific company's Eugene-Coos Bay branch, the Pacific Great Western Railroad company, whose survey parallels the Southern Pacific survey to the coast, has begun work at the west end of the big tunnel through the Coast mountains at the summit.

23 miles west of Eugene it was learned here today.

At this point the two surveys conflict, and if both tunnels are built the western end of each will penetrate the mountain at about the same place, or there will be a big legal battle in the courts for possession of the site.

The Pacific Great Western claims to own the land where the Southern Pacific company has surveyed for the western end of the tunnel, and for technical reasons this company has placed a considerable force of men at work to clear the right of way, and to start a bore into the mountain, if necessary.

DARTMOUTH IS DOWNED BY HARVARD

Cambridge, Mass., Nov. 18.—Dartmouth suffered her second consecutive defeat in the "Big Four" games, when Harvard won a kicking battle from her by a 5 to 3 score. Harvard's touchdown came as the result of a blocked kick near the Dartmouth goal, when Huntington fell on the ball behind the posts. A field goal in the third period represents Dartmouth's only score.

The teams seemed evenly matched in the booting department, and there was little attempt at running or line smashing.

The first period of the Harvard-Dartmouth football game here this afternoon was characterized largely by punting, which ended in a touchdown for Harvard, after blocking an attempted kick.

Dartmouth secured the ball near her own goal, after a long punting exchange, and attempted to kick out of danger. Harvard broke through and blocked the punt, the ball rebounding behind the Dartmouth goal, where Huntington, the Crimson fullback, fell upon it for a touchdown. Harvard failed to kick goal, and the score stood Harvard 5, Dartmouth 0.

The second period was devoted almost entirely to punting. In the third period Dartmouth kicked a field goal, making the score Harvard 5, Dartmouth 3. Neither side could score again.

The Results.

The Rayo Lamp
The Lamp That Saves The Eyes

Children naturally never think of possible strain on their eyesight when poring over a fascinating book. It is up to you to see they do not run their young eyes these long evenings by reading under a poor light.

The Rayo Lamp is an insurance against eye troubles, alike for young and old.

The Rayo is a low-priced lamp, but it is constructed on the soundest scientific principles, and there is not a better lamp made at any price. It is easy on the eye because its light is so soft and white and widely diffused. And a Rayo Lamp never flickers.

Easily lighted without removing shade or chimney; easy to clean and rewick. Solid brass throughout, with handsome nickel finish; also in many other styles and finishes.

Ask your dealer to show you his line of Rayo lamps; or write for descriptive circular to any agency at the

Miss Colton speaks 54 languages. Dr. Brainard knows it. But he has sent the steamship ticket, and Miss Colton is packing her trunk.
