

The Daily Capital Journal

VOL. XXI.

SALEM, OREGON, MONDAY NOVEMBER 20, 1911.

NO. 277.

WILL ARREST ALL MEXICAN REBELS FOUND ON THIS SIDE OF THE BORDER

GENERAL REYES ARRESTED, HUNDREDS OF ARMED REBELS WAITING TO CROSS THE LINE

United States Troops Raid a House at Laredo, Texas and Capture Fifty Bombs, 20,000 Pounds of Ammunition and Forty Rifles—Twelve Revolutionists Escaped, as Soldiers Were Afraid to Shoot Lest They Kill Citizens—Rumored That Reyes Has Forfeited His Bond and Crossed Into Mexico.

[UNITED PRESS LEASED WIRE.]
San Antonio, Tex., Nov. 20.—Ordered to arrest all revolutionists and enemies of the Mexican government alring their opinions on American soil, Troop I, Third U. S. Cavalry, under command of Captain G. B. Conley, arrived here today enroute to Laredo.

The remaining troops of the Third cavalry and possible the Fourth are expected to follow Troop I.

Maderistas here declare that the arrest of General Bernardo Reyes nipped the Revist revolution in the bud and they do not expect further trouble from that quarter.

American and Mexican secret service men are swarming here. General Reyes today appeared before Federal Commissioner Edwards and furnished \$5,000 bonds for his appearance before the federal court at the next term. He is charged with fomenting a revolution with territory of the United States against a friendly power.

There they plan an attack on Nuevo Laredo in the interest of General Reyes.

There is an unconfirmed report here that General Reyes has forfeited his bond, disappeared from San Antonio and is enroute to join the rebels across the border.

Evidences of Revolution.
Washington, Nov. 20.—"The army in Texas has found abundant evidence of preparations for a revolution in Mexico, and the strictest vigilance is being maintained," declared General Leonard Wood, chief of staff of the United States army today. "The civil authorities at Laredo have been asked to seize all arms and ammunition found there."

"The situation does not now warrant the mobilization of additional troops on the border."

Captured Many Bombs.
Laredo, Tex., Nov. 20.—Major Hodgorn, with four companies of United States troops today raided a house here and captured Captain Juan Merigo and two privates, Mexican rebels. In the house he seized 50 dynamite bombs, 20,000 rounds of ammunition and 40 rifles.

Twelve revolutionists were allowed to escape, the soldiers having orders not to shoot for fear of wounding citizens.

Rebels on This Side.
Austin, Tex., Nov. 20.—Adjutant General Hutchins wired Governor Colquitt from Laredo today that several hundred armed Mexican rebels are in ambush on the American side of the border near there. They are awaiting a favorable opportunity to cross the Rio Grande into Mexico.

THESE ARE THE CANDIDATES FOR ALDERMEN

There will be a merry time over the election of aldermen from the seven Salem wards on Monday, December 4.

In the first ward George G. Brown is running without opposition.

In the second ward C. C. Constable and W. T. Rigdon are the primary nominees and Pete McCracken has been put up as the prohibition candidate. S. A. Manning has withdrawn and H. George Meyer is the Democratic nominee.

In the third ward John Siegmund is running without opposition.

In the fourth ward Jerome F. Jones is the primary nominee and Walt S. Low is the independent candidate.

In the fifth ward John D. Turner is the Republican-Democratic nominee, and John Pemberton is the prohibition candidate. A. Hucklestein and J. H. Lauterman both withdrew.

In the sixth ward J. N. Skalfie is the primary nominee and Max H. Gehlar is the Democratic nominee.

In the seventh ward O. L. Townsend is the primary nominee, and H. L. Clark is the independent candidate.

The time for filing nominations closed Saturday night, and the city recorder is having the tickets printed.

**THE BEEF PACKERS
MUST STAND TRIAL**

[UNITED PRESS LEASED WIRE.]
Washington, Nov. 20.—The beef packers' lawyers failed to appear before the United States supreme court today in the expected attempt to avoid going to trial in Chicago. As court adjourned this afternoon for two weeks, the packers have now no opportunity to obtain relief at this juncture of the case. So the trial, now before the United States district court in Chicago, will proceed.

RE-ELECTION OF GOMPERS IS ASSURED

[UNITED PRESS LEASED WIRE.]
Atlanta, Ga., Nov. 20.—It is predicted here today that Samuel Gompers, president of the American Federation of Labor, and his fellow officers will be re-elected by large majorities at the convention. This seemed to be the general opinion at continuation of the sessions here today.

A hot fight on the floor will be precipitated tomorrow, when the socialists' resolution demanding Gompers' resignation from the National Civic Federation will be adversely reported on.

It is believed that either Richmond, Va., or Rochester, N. Y., will get the next convention, and that the 1915 gathering will be held in San Francisco.

**STUDENTS GOVERN THEIR
OWN CLASSES ONE DAY**

A Eugene Special says: As an experiment, the students of the Eugene high school were allowed to govern themselves during recitations and study hours at the assembly rooms yesterday. Professor Johnson, in charge of the assembly room, was absent during the day, and the students conducted their own classes, directed their own studies and governed themselves during the day. The faculty reported that the experiment was a decided success, and declares this to be the beginning of a new regime.

**PRESIDENT CACERAS
IS ASSASSINATED**

[UNITED PRESS LEASED WIRE.]
Washington, Nov. 20.—President Caceras, of Santo Domingo, was assassinated yesterday, according to despatches received by the state department here today from the American charge d'affaires there. No details were given.

HAD CLOSE CALL

New Orleans, Nov. 20.—New York delegates to the American Banking Congress here are congratulating themselves on being alive today, following an accident in which their special train was almost wrecked last night.

The train was rushing across a bridge 90 miles from New Orleans, when two cars suddenly left the rails. The cars were suspended for several minutes 75 feet above the water, and the entire train narrowly escaped plunging in after them.

The engineer moved with caution, coaxing the cars back upon the track.

RAILROADS SWEEPED OUT BY FLOODS

Heavy Rains and Swollen River's Put the Railroads in Eastern Washington Out of Business.

STAMPEDE TUNNEL CLOSED

All Roads Are Sending Their Trains Over the North Bank Road Down the Columbia—Many Bridges Are Washed Out and the Big Steel Structure at Eagle Gorge is Out of Plumb—All Trains Are Delayed.

[UNITED PRESS LEASED WIRE.]
Ellensburg, Wash., Nov. 20.—Flood conditions are worse in the Cascades today than they were yesterday and railroad officials hold out little hope for a resumption of train service for several days.

The night was warm and a telephone message from Easton states that the creeks and rivers are rising fast.

Four bridges are gone on the Northern Pacific, while the steel bridge at Lester is four feet out of plumb, the concrete bridge at Maywood is useless, the bridge at Hot Springs is out and at Eagle Gorge there is a log jam which is assuming threatening proportions. Dynamite is being used.

At Martin near the east portal of the Stamped tunnel, the track has slid out for a depth of 60 feet. Pile-drivers, steam shovels and crews of section men from points as far east as Spokane have been rushed to the scene. All west bound trains are being detoured at Pasco to the North Bank road.

The Milwaukee is detouring its trains at Lind to the Northern Pacific and then operating over the North Bank to Portland, thence to Seattle over the Northern Pacific tracks.

All service west of Lind is temporarily abandoned. Bad rock slides are reported at Rock Dale and Laconia. There are many miles of soft track and several washouts.

Five hundred government employees have so far been able to hold the waters in Lake Kachess but a further rise will probably mean the release of the waters into the river to save the partly constructed dam. This would endanger hundreds of thousands of dollars in property up and down the valley.

**TEACHERS FORM A
READING CIRCLE**

Twenty-eight teachers gathered at the court house yesterday afternoon and formed a reading circle, in accordance with the recommendations of the state board of education. Marion county is divided into 14 centers for convenience, and this is the first meeting of the Salem center.

Meetings are to be held monthly. The next one being set for December 15. Out of the six books that are recommended by the state board, this circle has adopted Allen's "Civics and Health" and McMurray's "How to Study and Teaching How to Study."

Those present yesterday were Josephine Adams, Jennie Burt, Fan-

BIG BATTLE IMMINENT AT NANKING

[UNITED PRESS LEASED WIRE.]
San Francisco, Nov. 20.—Forces of rebel troops under foreign trained officers are converging in on Nanking from every point, and a fierce battle is expected at any moment, according to dispatches received here today by the Chinese Free Press. The Imperialist forces, 11,000 strong, are strongly entrenched on the purple hill, where they will make their last stand for the Manchu dynasty. The rebels are said to be 50,000 strong.

Skrimishes are constant outside the walls, but no direct attack will be ordered by the rebel commanders until all the troops are in position.

**HARD ROOTING
KILLED MILLIONAIRE**

[UNITED PRESS LEASED WIRE.]
Rockford, Ill., Nov. 20.—Over zealous rooting at the Michigan-Wisconsin football game at Madison last Saturday caused the death here today of Harry Forbes, millionaire iron manufacturer, according to his physician. Forbes was attacked shortly after the game with a severe illness to which he finally succumbed. It is believed that over exertion caused a blood clot on his brain.

A Dallas man has raised seven potatoes that weigh in the aggregate 35 pounds. This is certainly a great result as to size, but as to quality the less said the better.

DR. FRANK SMITH WAS FIRED AT SATURDAY NIGHT

Dr. Frank Smith, superintendent of the state School for the Feeble Minded, was shot Sunday as he was leaving the institution in his auto to come to the city. The shot grazed his hand, but did no damage. It seems the doctor, within the last three weeks, has received several anonymous letters, and while he did not take the matter very seriously, he has since that time, when going out in his auto, taken a revolver with him. When fired at he fired three shots in return, in the direction of the flash.

Hurrying to town he returned with officers, and an examination of the ground resulted in finding a .32-calibre pistol, with the handle badly shattered. It is supposed this was done by one of the doctor's bullets, and, if so, the man who held it was undoubtedly wounded, though there was no blood on the handle of the gun. Several theories have been advanced as to the cause of the shooting, which seem satisfactory or plausible on the face of the returns—but the matter will, no doubt, be cleared up before long.

SEATTLE'S WATER SUPPLY IS SHUT OFF CONDITIONS WILL BE FRIGHTFUL

Seattle, Nov. 20.—Because of the breaking of two main pipe lines which supplied water for Seattle, this city this afternoon faces one of the most critical conditions of its kind in local history.

A great part of the city is entirely without water. Water is being hauled in water wagons and buckets. Along the shore of Lake Washington, scores of automobiles are lined up, while their owners take water from the lake in buckets.

Hospitals, hotels and apartment houses are without water. The city officials are making every effort to relieve the situation, and reservoirs containing 100,000,000 gallons of water are being used to supply a part of the city.

The Milwaukee railroad is being blamed for the breaking of the water pipes, 16 miles below the Cedar river reservoir.

At this point the railroad changed the course of Cedar river and built a bridge across. The approach to this bridge was not properly constructed, and the high water took it out. This left the city water pipes exposed and they sagged, then broke. That is a nutshell, is the cause of the water famine in Seattle.

The municipal power plant was put out of business in a different way and at a different time.

Two pipes carry water from the reservoir to the power plant. Those pipes run along the river bank. The water cut into the bank, undermined the pipes, and they broke, just as the feed pipe for the water system broke farther below, where the Milwaukee bridge is built.

THE EMPRESS SKIPPED OUT WITH ACTOR

[UNITED PRESS LEASED WIRE.]
San Francisco, Nov. 20.—Chinese newspapers arriving at this point on the last ship from China bring news here today that the wife of the "First noble of the empire," which is believed to mean Princess Lal, mother of the baby emperor and wife of the prince regent, has eloped with Yung Shu Lu, an actor, known as the "Chinese John Drew."

The princess is said to have taken a great fortune in jewels when she fled from the Forbidden City to Mukden with her lover, apparently in the belief that the Manchu cause is lost. Some of the crown jewels worn by the baby emperor are said to be in the lot.

**NATIONAL GRANGE
BACKS OREGON SYSTEM**

[UNITED PRESS LEASED WIRE.]
Columbus, O., Nov. 20.—The national Grange association today adopted resolutions endorsing the initiative, referendum and recall. The progressives were victorious, forcing through a unanimous vote vindictive B. C. Kegy, of the Washington State grange of charges made by Samuel Hill.

ARE ANXIOUS ABOUT YOUNG BEATTIE'S SOUL

[UNITED PRESS LEASED WIRE.]
Richmond, Nov. 20.—Ministerial supplicants for the spiritual welfare of Beattie may earn for the young man the respite which all other means have failed to obtain. Rev. Benjamin Dennis, the Episcopalian clergyman who broke the news of Governor Mann's refusal to interfere with his death sentence to Beattie, reported today that though the doomed man is in a receptive mood, he is "still unable to see the light."

The religious element here are imploring Governor Mann not to "allow Beattie to go to eternity without accepting religion."

"The report that I have offered to trade 30 days' respite for a confession from Beattie is false," declared Governor Mann today. "It was made known that if there is any respite, which is improbable it will be to allow the ministers more time to gain their fight for Beattie's soul."

Miss F. Fink, Mary Hall, Fannie L. Douglas, Minnie Stephens, Ora Bee Morgan, Lois Keefer, Beatrice Nutter, Eleanor Richmond, Margaret Evans, Annie L. Slagel, Ethel M. Miller, Catharine Crawford, Vida Dunlap, Estelle Grestie Grace Lick, Oscar T. Dunlap, Gertrude Luthy, Stella Budlong, Helen Luthy, Gladys Carson, J. G. French, Ina Cothran, Gertrude Rosche, Florence Corey and Alice M. Matton.

WATER SUPPLIED BY WAGONS FOR HOUSEHOLD PURPOSES BUT SEWERAGE IS PROBLEM

Washing Out of a Railroad Bridge Across Cedar River Left the Pipes Exposed to the Angry Stream, Which Undermined and Broke Them—The Inconvenience as to Household Purposes is a Trifle, But the Flushing of Toilets and Sewers is Impossible, and This is Really Serious.

THEY WANT MAGAZINE MANAGER

[UNITED PRESS LEASED WIRE.]
San Francisco, Nov. 20.—J. Brinton Haynes, president of the old Columbian magazine company, now in straitened circumstances, is being searched for in San Francisco. He is wanted in connection with the disappearance of \$140,000. A letter supposed to have been dropped by Haynes was found in the lobby of a fashionable hotel here several days ago.

Haynes disappeared simultaneously with the collapse of the Hampton magazine corporation, and directors declare that he at that time had \$275,000 in the treasury, derived from sale of stock in the company. It was for this sale of stock that postal authorities say the mails were used for fraudulent purposes.

Seventeen Bodies Recovered.
Bluefield, W. Va., Nov. 20.—Seventeen bodies were removed today from the Vivian mine near Welch. Four men were recovered alive but in so critical condition that they may die.

Hoping is a poor substitute for getting there.

OREGONIAN SAYS IT'S BEST PLAY OF THE SEASON

The Oregonian, speaking of "The Third Degree," which shows at the Grand tonight, says:

"The closing performance of 'The Third Degree' will be given at the Baker tonight. This is the strongest of the all-round excellent line of attractions Manager Baker has been giving his patrons the present season, and has played to deservedly large audiences all week. It is a fascinating play, dealing with the much-abused police method of extorting confessions from those suspected of crime. As the wife of the young man in this particular case, Franklin Gale has created an impression as an emotional actress of rare power and ability that will not soon be forgotten by those who have been fortunate enough to see her."

Got the Wireless.
Rome, Nov. 20.—Notified that he cannot leave Italy because he may be called upon to serve with the Tripollitan army, Signor Marconi, inventor of the wireless telegraph, is staying near Pisa, unable to return to London, where he is urgently needed on business.
