Ever notice how easy it is for a man to get married who isn't able to support a wife? CHARLES W. JAMES, SUPT. STATE PENITENTIARY. There is no question in the minds of those best posted on the subject that Charles W. James, has made one of the best superintendents of the state penitentiary that the state of Oregon has ever had and there is a very generally expressed sentiment that he should be retained in his present position regardless of politics simply because his administration has been along progressive and humane lines and the affairs of the institution conducted in a manner highly satisfactory to the people as a whole. Mr. James is a gentleman of ripe judgment and wide experience, of culture and refinement and unquestionably has a strong influence for good in handling men committed to the penitentiary. He also has fine executive ability and thoroughly capable of handling even much more complex affairs than confront him as superintendent of the penitentiary. Before being appointed to his present position eight years ago Mr. James was member of the school board at Baker City, and was member of board of regents of the Eastern Oregon Normal school. He has always taken an active interest in educational matters. He was recorder of Baker county and one of the most popular men in Eastern Oregon. His selection for a place under the state administration was highly pleasing to his many friends and acquaintances, who will be pleased should he be retained, which he certainly will be if public sentiment already expressed is carefully considered. During his residence in Salem, Mr. James has made many warm friends who would willingly go to almost any length in his behalf and there seems a pretty thorough understanding in the minds of those who watch affairs closely that he will succeed himself as superintendent of the state penitentiary.

SALEM LEADS IN CIGAR MANUFACTURING Discriminating smokers in Salem and the Willamette valley generally are thoroughly familiar with the fact that nothing better in the way of cigars may be had than those manufactured by August Huckestein. His "Tashmo" at two-for-a-quarter is a prime favorite and is constantly increasing in popularity. "La Corona" is a straight ten-cent cigar of the highest quality. "Flor de Ella" is smoked by hundreds while in five-cent goods "Bon Ton" is widely known and justly popular. Mr. Huckestein employs about 10 union workmen, selects his own tobacco and conducts his affairs along strictly modern lines. His factory is at 125 North Commercial street and his cigars are on sale at practically every dealer in Western Oregon.

Trees It's a fact I grow the best trees, sell the best trees, talk and write about trees; fact is, I am in the tree business. For 20 years I have been busy with orchard and nursery work right here in the Willamette Valley, and all this state of affairs has come about in this way: My patrons get good stock; they are pleased and tell others, sort of an endless chain affair, you see, operated by a live wire, and the same wire keeps going on at the Quaker Nursery, the home nursery that has a reputation for putting out reliable home-grown stock. It is not a nursery on paper; you have heard of them, no doubt been stung by them. Do not wait for the end of the chain to come round. Just drop a line and you will soon be buying trees from a nursery that pleases all its patrons. It is part of the contract. If you are in need of anything in the nursery line from a gooseberry bush to trees for large commercial planting remember all stock put out is guaranteed to please. So take no risk. When I lose faith in my goods I'll quit the business. If I please my patron he will tell his neighbors, and so the chain is kept moving. It is as easy as falling off the water wagon. I press the button and a upplying you with good reliable trees at the right price and you will drive a mile out of your way to tell a friend to buy. **From the QUAKER NURSERY** The Home Nursery that Puts Quality First **C.
