AN ALBANY MAN MAKES A FORTUNE

PUT \$500 IN A MINE 18 MONTHS AGO, AND RECEIVES \$100,000 AS HIS SHARE OF THE SALE OF THE MINE AS A NEW YEAR'S GIFT.

Albany, Ore., Jan. 2.—Through the sale of a gold mine in California, J. Otto Lee, a member of the firm of Burkhardt & Lee, druggists, of this city, has received \$100,000 on an original investment of \$500 made one and one-half years ago, and expenditures since that time making the total investment about \$500.

About one and one-half years ago Mr. Lee received a letter from his brother, whom he had not heard from for six years, informing him that the latter had located a claim in California, which offered a good prospect. He offered his Albany brother a one-half interest in the claim for \$500.

Lee had lost a few hundred dollars in two different mining ventures, and hesitated about trying his chances, but finally sent his brother \$500. This amount proved insufficient for the necessary development, but the work it accomplished disclosed a better prospect, and Lee sent more money.

Recently a mining syndicate began investigating the mine, and Lee received word yesterday that the mine had been sold for \$200,000.

With the view of eliminating all discord and insubordination from the fire department, Councilman Waring, who will be appointed chairman of the fire, light and water committee for the next year, appeared before the firemen yesterday afternoon, and in a brief talk gave them to understand that no insubordination would be tolerated, and that the chief would be held responsible for all matters pertaining to the department.

In prefacing his talk Councilman Waring stated that it would be his ambition to make the fire department the best on the Pacific coast. He then proceeded to define what would be his attitude with relation to the department. He made it plain that he was not a fireman, and that he would be governed entirely by the recommendations of the chief.

He also impressed upon the firemen the fact that there is no fire in this world so great but that it may be filled. And in order to preserve the fire department, he stated, and protect the homes of citizens, those in places would be filled rather than endure insubordination.

Every family here ought to keep some Diapiesin in the house, as any one of you may have an attack of indigestion or stomach trouble at any time, day or night.

This harmless preparation will digest anything you eat and overcome a distressed, out-of-order stomach five minutes afterwards.

If your meals don't tempt you, or what little you do eat seems to fill you, or lays like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Pape's Diapiesin is a certain cure for out-of-order stomachs, because it prevents fermentation and takes hold of your food and digests it just the same as if your stomach wasn't there.

THE OPEN FORUM

About the School District. Ed. Journal: I have read and cut out for future reference your report of the proceedings of the annual meeting of the school board, at which a tax levy of nearly nine mills was levied.

That a firm which has been considered a landmark in the real estate world of Salem is going to dissolve partnership, came as distinct news. J. W. Willson, of the firm of Derby & Willson is retiring from that firm and will move to his farm north of Salem.

FOR CARE OF CONTAGIOUS DISEASES. A cottage for contagious and infectious diseases has been built recently by the city and county.

Killed by the Cars. Ernest Coleman, a barber, and president of the volunteer fire department at Linnton, was run over and killed by the Astoria express, leaving Portland at 6:30 p. m., about 100 yards west of the Linnton railway station last night.

State Taxes for 1912. The people of Oregon will have approximately \$3,100,000 in state taxes to pay in 1912. The state tax levy will be 3.5 mills.

People who have lots of advice to give, dislike to take any.

WHAT CAN BE DONE TO HELP HOME INDUSTRIES?

Hang out the banner "Made in Oregon." What can be done to encourage the manufacturing establishments we now have in the state?

Do they not need our best encouragement? The Oregon manufacturer and the Oregon jobber and the Oregon insurance companies?

Why send millions out of the state for foreign products? This is a practical question that is far more important than who shall be president of the United States.

One home industry means more than bushels of politics. Think of the energies that will be applied to electing a president and solving woman suffrage and capital punishment.

Full dinner pails and good payrolls mean far more. Half the time and money and brains put into the simple proposition of building up Oregon industrially would make this the most prosperous state in the nation.

Concrete pavements enrich California by millions. If the factories we now have, the jobbers and organizations of capital now in legitimate business are successful, others will be established.

Protection to home industries is a sound doctrine. The way to get more industries is to see to it that the manufacturer we now have is patronized and appreciated.

Oregon needs more payrolls and less politics. The way to make Oregon count and to show what L. Samuels calls real gumption is to stand up for all Oregon products.

Anything made in Oregon is better than the imported. If every family would call for Oregon brands of flour, baking powder, canned goods, coffees and spices this state would be humming with prosperity.

More home industries more home advertising. If every Oregonian would smoke Oregon-made cigars, drink Oregon-made beer, eat meals of Oregon products, we would be financing the rest of the commonwealth within five years.

You don't have to smoke or drink, if you do use home products. There is a great deal of talk about the Oregon system, but is there any system equal to protection of home industries?

Wear clothes made of Oregon wool and woven in Oregon mills. Politics and the Oregon system have cost a great deal of money, and bad politics in state and nation affect our prosperity. You will sleep sounder under an Oregon-made blanket.

Is there any substitute for getting right down and upholding your neighbor in his business, and your neighbor is every man who is engaged in business or employing labor in Oregon. Is there a better foundation than to stand in Oregon shoes?

Will you not assist in putting on a home campaign and enroll yourself under the banner of "Made in Oregon?" We have talked about this matter a great deal, but now the time has come for action, and all the people must be educated to act together, to act effectively and continuously.

The Capital Journal believes this is the most important matter before the people of Oregon to make our state prosperous.

Cost of living is small in Panama—bananas and pajamas. It won't cost you anything to express your choice in our straw vote for president. Better vote now. You may be so disgusted when the nomination is made that you will not wish to vote at all.

Gipsy Smith has left the state and there will be no more interference with the laws of nature for the present. They will keep fooling around in Italy and Turkey until they involve the Balkan country in a bloody war.
