MORE RAILROADS AND BRIDGES.

The Capital City, as the heart of the Willamette valley, is on the map for more railroads and bridges.

Electrifying the West Side lines of the Southern Pacific means their entrance into the Capital City.

That will force extensions to Silverton and Stayton, which are already surveyed and right of way secured.

It is reported that the S. P. has bought ground at the foot of State street for a terminal on this side.

The Salem, Falls City & Western has a franchise for a bridge across the Willamette at the foot of Union street.

The plan is to make that a double-deck bridge for the use of the city and county jointly with Polk county.

The Portland, Eugene & Eastern is acquiring terminal grounds on both sides of the river.

There will be from one to three bridges built across the Willamette river at Salem.

The way to build up a home industry is to use the product of that industry. Salem housewives should be reminded by the husbands who pay the bills that it is their patriotic duty to use a product made in Oregon wherever possible. We have in mind the Eppley Baking Powder, made in this city. So far as the dull intellect of a mere man can judge of such matters, that baking powder is every bit as good as powders put up in New York or San Francisco. General use of it is increasing, but universal use would mean a large factory at Salem, employing hundreds of men, women, boys and girls. Would that not be worth while? Can we build up the city in any more natural and effective manner?

THE SALEM SEWER INEQUITY.

That last word should be spelled in the second syllable with a letter "i."

But let the matter be considered from the standpoint of want of equity.

The main sewers through the old part of the city were built by issuing sewer bonds.

Those sewers through the old rich part of the city are a lien on the whole city.

When it came to building sewers for the suburbs or poorer parts of the city the district plan was adopted.

That results in the newer and poorer parts of the city paying for the old sewers in part, and their own in full.

This was pointed out at the time by The Capital Journal, but those in power had the call and had their own way.

The matter is now up to the courts and the courts should take notice of the inequality of the whole thing.

The courts will probably decide that inequity should be spelled with an "i" in the middle.

Mayor Lachmund will have no heartier supporter than The Capital Journal in any practical steps that he may take to secure a supply of pure mountain water for this city and the state institutions. It must never be forgotten that the sanitary welfare of Salem and of the state are identical. The water supply must be identical for both, and it must finally be a gravity system to meet the growth and necessities of the state and the Capital City. These things are possible. The mayor's idea of securing a power plant is just as good, and should be done. It could have been done some years ago, but for the unjust attacks made by kickers and persons who always smell a selfish interest in whatever is attempted.

LET THE COURTS TAKE A SHARE

Under the parole law the matter of releasing prisoners is not all up to the governor.

The courts and district attorneys have a great deal to say about paroling prisoners.

In all cases where an appeal has been taken there should be no interference until decided.

Where cases are carried to the supreme court they should await the decision of that court.

There is too much confusion growing out of paroles pending action by the courts.

The courts should take their full share of responsibility in this matter.

Remedies are Needed

Were we perfect, which we are not, medicines would not often be needed. But since our systems have become weakened, impaired and broken down through indiscretions which have gone on from the early ages, through countless generations, remedies are needed to aid Nature in correcting our inherited and otherwise acquired weaknesses. To reach the seat of stomach weakness and consequent digestive troubles, there is nothing so good as Dr. Pierce's Golden Medical Discovery, a glyceric compound, extracted from native medicinal roots—sold for over forty years with great satisfaction to all users. For Weak Stomach, Bilelessness, Liver Complaint, Pain in the Stomach after eating, Heartburn, Bad Breath, Belching of food, Chronic Diarrhea and other intestinal Derangements, the "Discovery" is a time-proven and most efficient remedy.

The genuine has on its outside wrapper the Signature

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic, medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

An Innovation in Oil Heaters

The Perfection Smokeless Oil Heater, with its drums enameled in turquoise, is an ornament to any room, whether in the country or city home.

No home is quite complete without a Perfection Oil Heater. It is a necessity in the fall and spring, when it is too warm to start the regular heating apparatus, and too cool to be without heat. In the midst of winter it is often convenient as an auxiliary heater, as there are always some cold corners in a house.

The enameled heater always presents a nice appearance, as the enamel will not tarnish or burn off. It is not an "enamel paint," but it is the same as the enamel of your cooking utensils.

The Perfection is the most reliable and convenient portable heating device you can find. An automatically-locking flame spreader prevents turning the wick high enough to smoke.

OREGON SUPREME COURT DECISIONS

Southern Pacific Co. v. Railroad Commission, Marion County.

Decided, Dec. 26, 1911.

Southern Pacific Company, a corporation, appellant, v. Railroad Commission of Oregon, respondent. Appeal from the circuit court for Marion county. The Hon. Wm. Galloway, judge. Argued and submitted Dec. 12, 1911. Wm. D. Fenton, (Geo. G. Bingham, Ben C. Dey, Dexter Rice, and Jas E. Fenton, on brief) for appellant. A. M. Crawford (and C. L. McNary and Roy F. Shields, on brief, for respondent. McBride, J. Affirmed.

This is a suit to enjoin defendant from putting into effect its order, requiring plaintiff to construct and maintain a spur on its main line at the town of Edenhower, in Douglas county.

In December, 1909, certain citizens of Edenhower filed a complaint with the railroad commission, setting forth that a flag station for local passenger trains, and a siding for freight and express trains were necessary, and asking that the defendant be required to install them. After hearing the testimony of the complainants and the defendant, the railroad commission denied the prayer of

Division Joins Rebels.

[UNITED PRESS LEASED WIRE.]

Pekin, Jan. 3.—Almost simultaneously with the action of the Lang Chow imperial troops, who mutinied yesterday, a division of 4000 Manchou soldiers, at the treaty port of Chin Wang Tao, on the Gulf of Lio Tang, have deserted the emperor's arms and declared in favor of the proclaimed republic. They will join the army marching on Pekin. The foreign legations here have been formally notified of the action.
