O. A. C. GLEE CLUB AT THE GRAND

The Corvallis Gazette Times is loud in its praise of the O. A. C. Glee Club and the Mandolin Club which is part of it. Speaking of the club's appearance at Corvallis recently it says:

"Each number roundly applauded and an encore insisted upon—in some instances two and even three—is the record for the O. A. C. Glee and Mandolin Club concert at the Opera House Saturday night. And this tells only half the story. The program was per excellence, made up of music worthy of artists and an audience of cultured taste, and though much of it was difficult, the Glee and Mandolin Club did more than make an agreeable noise; the club sang with a splendid volume of tone, modulated at times to a whisper, and with an expression and interpretation that made the selection a finished work of art; and the Mandolin Club played with a snap and harmony that was delightful.

The concert was a success from start to finish, much the best work ever done by the O. A. C. boys, and the same presentation will please any audience encountered on the state tour begun today. The usual vaudeville stunts were conspicuous by their absence, but in encore numbers the boys gave some high-class humorous songs that enlivened the program to just the proper extent.

The Gazette also gives special mention to the individual members of the club, and while it perhaps did not mention all of the members, it is excusable in the neglect, for it exhausted language and comparison, and praiseful phrases before it got half way through the list. The O. A. C. Glee club always among the best of the college aggregations, with its

latest additions and the superb mandolin club is no longer one of the best, but is the best. At the Grand tonight and all Salemites should be there, especially if they have boys of their own.

COMPANY GOES BACK ON AGENT'S CONTRACT

Confronted with the proposition of having to pay a judgment calling for a balance on an excursion ticket issued to him over a year ago, Garhard Weesels, living five miles from Lebanon, called on the railroad commission today and submitted the matter to it, trusting that he might obtain relief, but the commission stated that it was powerless to grant it.

Weesels and his wife a year ago bought a ticket at reduced rates from Gottenburg to San Francisco. Recently the railroad company wrote him saying the agent did not have a legal right to sell the ticket, and asking him to pay the balance of \$63. This he refused to do and the company sued him and obtained judgment.

ARIZONA IS UNCLE SAM'S VALENTINE

Phoenix, Ariz., Feb. 13.—Without ostentation or display George W. P. Hunt will be inaugurated first governor of the new state of Arizona here tomorrow. The day was proclaimed a public holiday by Governor Sloan, and already Phoenix is filling with visitors for the ceremony.

A salute of 48 guns will usher in admission day. In the morning a civic parade, without military features will be the first official event. After this Hunt will walk to the capitol, where Chief Justice Edward Kent of the territorial supreme court will administer the oath. The evening program includes an unique inaugural ball. The dancers will make merry in a huge open air pavilion. The ball will be informal—no invitations have issued, and it will be free to all.

PAID IN FULL AT THE GRAND SATURDAY 17.

George C. Tyler, head of the theatrical firm of Liebler & Co., congratulated Eugene Walter on the technique of his play, "Paid in Full," which appears at the Grand, Saturday, Feb. 17.

"But it has no technique, whatever that is," replied young Mr. Walter. "Technique and all those theories of construction that have hedged the drama for time beyond reckoning, I tried zealously to evade. I wanted to see if normal people, who spoke and acted like human beings, under actual conditions, couldn't be made entertaining on the stage." As Mr. Walter now draws a princely sum each week in royalties, from this play, there would seem to be some truth in the old adage anent "The proof of the pudding."

HAPPY THO' MARRIED?

There are unhappy married lives, but a large percentage of these unhappy homes are due to the illness of the wife, mother or daughter. The feelings of nervousness, the befogged mind, the ill-temper, the pale and wrinkled face, hollow and circled eyes, result most often from those disorders peculiar to women. For the woman to be happy and good-looking she must naturally have good health. Dragging-down feelings, hysteria, hot-flashes or constantly returning pains and aches—are too great a drain upon a woman's vitality and strength. Dr. Pierce's Favorite Prescription restores weak and sick women to sound health by regulating and correcting the local disorders which are generally responsible for the above distressing symptoms.

Mrs. Dickover.

"I suffered greatly for a number of years and for the past three years was so bad that life was a misery to me," writes Mrs. H. F. Dickover, of Utes, Ohio, Route 4. "The doctors told me I would have to go to a hospital before I would ever be better. A year ago this winter and spring I was worse than ever before. At each period I suffered like one in torment. I am the mother of six children. I was so bad for five months that I knew something must be done so I wrote to Dr. H. V. Pierce, telling him as nearly as I could how I suffered. He outlined a course of treatment which I followed, to the letter. I took two bottles of 'Favorite Prescription' and one of 'Golden Medical Discovery' and a fifty-cent bottle of 'Santol-Wash,' and have never suffered much since. I wish I could tell every suffering woman the world over what a boon Dr. Pierce's medicines are. There is no one wasting time and money doctoring with anything else or any one else."

The Medical Adviser by R. V. Pierce, M. D., Buffalo, N. Y., answers hosts of delicate questions about which every woman, single or married ought to know. Sent free on receipt of 31 stamps to pay for wrapping and mailing only.

Try this test in a "Wear-Ever" Aluminum Utensil

Pour one pint of milk into a saucepan. Place over a low fire and without stirring let the milk boil down to one-quarter pint. The milk will not be scorched.

THAT'S because aluminum is a better distributor and retainer of heat than other materials of which cooking utensils are made.

You can cook quicker and you therefore save fuel.

"Wear-Ever" utensils are made without joints, seams or soldered parts from thick, hard sheet aluminum. They have no coating to peel, crack or blister. They cannot rust, cannot form poisonous compounds with acid fruits or foods, and they last a generation.

Let us supply you with the one-quant sample saucepan advertised in magazines—and show you other utensils bearing the "Wear-Ever" trademark.

"Wear-Ever" Ware makes heavy house-keeping Light.

Visit our kitchen-ware department and inspect the complete line of "Wear Ever" Aluminum now on display there.

COMPLETE HOUSE FURNISHERS

CONFERRED TO FORGING THE WILL

Oakland, Cal., Feb. 13.—Mrs. Harriet Loraine Frazer De Vine has confessed that she forged a will by which she would inherit the bulk of the estate of the late Mary L. Swain of Berkeley, and also the adoption papers by which Mrs. Swain was alleged to have made her a legal heir, by pleading before Judge Ellsworth this morning. She was arraigned on an indictment returned against her last Wednesday accusing her of forging the will. She asked probation and Judge Ellsworth gave her two weeks' delay for an investigation.

Mrs. De Vine decided to make a clean breast of it after Chief of Police Vollmer, of Berkeley, and Assistant District Attorney Hines had held extended conferences with her

in the county jail. A peculiar feature of the case is that after admitting her guilt to the officials, she persisted in declaring her innocence to her husband, Robert De Vine, who is assistant manager of the Pullman works at Richmond.

SIX HUNDRED THOUSAND COAL MINERS TO STRIKE

[UNITED PRESS LEASED WIRE.] London, Feb. 13.—All hope of averting a general strike of 600,000 coal miners in Great Britain was abandoned when 12,000 miners in Wales and 33,000 men in the Nottingham mines notified their employers, as required by law, that they will quit work February 23.

The employees of other mines like-

ly will serve notice tomorrow on the operators of their intention to cease work on the same date.

Yet Six More Indictments.

New York, Feb. 13.—The state supreme court convened here today and Justice Seabury, who is presiding, will probably decide within the next few days whether Isaac Harris and Max Black, proprietors of the Triangle Shirt Waist factory, will have to stand trial a second time for manslaughter in connection with the fire in which 147 employees, mostly girls, met death.

Seven indictments charging manslaughter were brought against the owners of the factory. Recently the defendants were tried on one of these indictments and the jury returned a verdict of not guilty. The six remaining indictments still stand on the records.
