WHAT AILS THE BUTTER?

Mr. Judd is going to invoke the power of the attorney-gener-

al against short-weight butter. With volumes of legislation, with a dairy commissioner and hordes of inspectors and professional dairy exploiters, butter gets scarcer and higher.

Common people get short weight and adulterated butter. All who can are quietly slipping out of the dairy business. We know a man who was once an honest dairyman, but went to the legislature and got onto the professional end of the game.

Since then no butter is good enough for him. What is needed is to repeal a lot of the butter legislation, and let people make butter without state interference.

THE PUBLIC DOCKS QUESTION.

The Capital Journal believes Free Locks and Canal at Oregon City are the greatest achievement for commerce in

Manufacturing will be made possible on a large scale by free and unhampered access to water transportation. The next step is to get free and easy access from the city and

the railroads to the water lines on the river. By state and national laws the interchange of traffic is guar-

anteed and can be maintained between rail and river.

But this is impossible if we allow the water front to be mo-

nopolized by the owners of the railroads. There is nothing now standing betwen complete control of our access to water transportation but action of the people to secure free public docks.

ROOSEVELT SENTIMENT IN JACKSON COUNTY.

The Democratic bosses and the Republican bosses in Jackson county have no use for Roosevelt.

The county clerk of that county refused to post the petitions, and was a week afterwards hauled up for withholding public

One business man at Central Point wrote to this office for blank petitions, and in two hours had them all filled. Practically every business man in Central Point signed the

petitions, and especially all the business men. A petition came in this morning from Mayaville, Gilliam county, signed by about all the voters in that county.

Jackson county is where Dr. Keene lives, who, as state central committeeman, brought the suit to set aside the presidential

All Roosevelt sentiment has been systematically suppressed at Portland, where the capitalistically controlled press is against him, Republican, Democratic.

The Portland Journal prints about the same Associated Press rot against Roosevelt that the Portland Oregonian does:

What would be the expression of public sentiment in Oregon if the press would give it a chance to become known? It should be understood that these same newspapers control the news and information that is sent out from Oregon.

Are the same kind of methods employed all over the United States to suppress the real sentiment of the peopl? Why do the grafting elements of both political parties fight the

very idea of such a man as Roosevelt becoming president? Is it instinctive, and is it the natural shrinking and timidity of these who in the name of Republicanism and Democracy exploit and plunder the people?

But the people will have a chance to vote for Roosevelt in Oregon, as his name will go on the ballot, unless defeated by some technicality.

His petitions come from fifteen counties and contain about two thousand names, and were mostly sent in voluntarily, and were signed and circulated by personal admirers.

That will not be sent out by Associated Press and will not be allowed to appear in the great Portland newspapers that are trying to suppress the real sentiments of the people of Oregon, which are not for the re-election of Taft.

MARION COUNTY LEGISLATIVE TICKET.

The Capital Journal straw ballots keep coming in, and indicate to some extent public favors on the following names: The people are very shy about expressing themselves, and

many are still wanting to vote to abolish the legislature. The issue that is coming up for a large appropriation for the Panama exposition at San Francisco is agitating the people

The Portland commission has decided to ask the legislature for \$500,000 to start that exposition with, and then some

The men who want to go to the legislature had better take the people into their confidenc a little more than they do. Th limit has been reached on taxation, and it is going to be a

question of who has the most hayseed in his hair or mind. The people have gone to the limit of endurance at the hands of those who do nothing but expand the public jobs:

Here is the result of the last straw vote counted by this paper up to Wednesday evening:

Sam Hughes, Salem, contractor	
R. K. Page, Salem, city attorney	
F. A. Turner, Salem, attorney	
Carl Abrams, Salem Statesman	
D. C. Thoms, Jefferson, miller

La Follette's friends are ronsting Roosevelt for treachery; Roosevelt's friends are cooking Taft for ingratitude and Taft's friends are sizzling both of them for butting in. It is happy family all right.

Few women now-s-days believe that the broom is better than the carpet sweeper, but there are many who think it is more economical. Just figure it out for yourself. A BISSELL, sweeper will last longer than fifty corn brooms that cost not less than \$20.00, whereas the best Bissell can be bought for a quarter of that-and lessdepending upon style and finish. Beyond the great economy in direct cost of the Bissell, just consider how it saves time, labor and health, does the work in one-quarter of the time, with 95% less effort than the corn broom requires, makes no noise, raises no dust, and an invalid can use it. Ask your physician what he thinks of the sweeper from a sanitary point of view. Don't sacrific so much comfort and convenience when it can be obtained so cheaply. The name BISSELL'S marks the genuine sweeper. We show a complete line of Bissels priced from \$3.00 up. **Buren & Hamilton** House Furnishers
