**A Flitby Street**  
Attention of the proper city officers is called to the attention of Chemeketa street between Commercial and Front streets. It seems as if this street is used as a dumping ground by persons doing business in that vicinity, as refuse and almost every kind of refuse is deposited. It appears that one reason for the accumulation of refuse in the city is the fact that the people of whom a piece of ground was purchased or leased for dumping purposes will not allow it to be used on account that the necessary papers have not been drawn up, although this council authorized the committee to enter into a contract about a month ago.

**Made in a Night**  
Workmen were busy most of last night in converting an old building on the north side of Court street, between Commercial and Front, into a poultry market. The work on the inside was done, in the day time, and under the cover of night the side of the building was cut out and screens inserted, so as to make the building suitable for a market.
