## WILL NOT BE WARNED BY LAWRENCE

[UNITED PRESS LEASED WIRE.]  
New York, March 12.—The operators answer, as given to the miners, rejects all the men's demands and suggests that the present wage agreement, with certain modifications, be continued for three years.

The operators reply says in part: "We are unable to accede to your demands. If we did so, it would cast aside in a large part the work of the anthracite strike commission appointed by President Roosevelt in 1902. The work they rendered is recognized as the most just and the soundest solution of labor difficulties that was ever secured in this country. It has stood the test of time. We trust your demands will be withdrawn and that the prosperity that has obtained so long in the anthracite region will not be arbitrarily and unnecessarily disturbed."

At the request of President White, of the miners' organization, adjournment was taken to Friday.

Refusing the wage increase asked for, the coal operators said to grant it would mean the adding of \$28,000,000 annually to the payrolls. They declared that through the exhaustion of the easily reached coal the cost of production had increased, and that the margin of profit was so low that a further reduction would be impossible.

As to the demands of the miners that their union be recognized and dues be collected, the operators cited the findings of the anthracite strike commission ruling against such recognition.

## AN OLD-TIME REMEDY THAT DARKENS THE HAIR

For generations sage and sulphur have been used for hair and scalp troubles. Almost everyone knows the value of such a combination for keeping the hair a good even color, for curing dandruff, itching scalp and falling hair, and for promoting the growth of the hair. Years ago the only way to get a Hair Tonic of this kind was to make it in the home, which was troublesome and not always satisfactory. Nowadays, almost any up-to-date druggist can supply his patrons with a ready-to-use product, skillfully prepared in perfectly equipped laboratories.

An ideal preparation of this sort is Wyeth's Sage and Sulphur Hair Remedy, in which sage and sulphur are combined with other valuable remedies for scalp troubles and thin, weak hair that is losing its color or coming out. After using this remedy for a few days, you will notice the color gradually coming back, your scalp will feel better, the dandruff will soon be gone, and in less than a month's time there will be a wonderful difference in your hair.

Don't neglect your hair if it is full of dandruff, losing its color or coming out. Get a fifty-cent bottle of Wyeth's Sage and Sulphur from your druggist, and see what a few days' treatment will do for you. All druggists sell it, under guarantee that the money will be refunded if the remedy is not exactly as represented.—J. C. Perry, Special Agent.

## Is Terribly Worried

Because the district attorney at Eugene has failed to prosecute a Negro and a white woman to whom she is satisfied he is not married, Mrs. Nettie Lewis, has appealed to Attorney General Crawford but the attorney general has advised her that this is a subject which comes within the province of the district attorney's office, and that she must look to him.

Besides objecting to the couple because she believes they are not married says that her brother has become involved with the negro in disputes about the woman, and that she is afraid the negro may harm him. She further says that the couple are not desirable as neighbors. The negro and the woman came from Indiana, she says, and as it is against the law of that state for colored and white people to marry, and also against the law of this state, she is satisfied that they are living illegally together.

Cooper Morris, the convicted Portland Banker, for his parole from the penitentiary and also with letters from both District Attorney Cameron, and Attorney Clark, who acted as special prosecutor in the case, that Governor West will in the near future grant him a parole.

Before Morris agreed to testify in the Wilde case, it is said, that he was promised by Governor West that he would be paroled. Cameron was then agreeable to it, and last month both he and Clark wrote letters recommending his parole. In addition Morris' health is failing and that is another reason urged why he should be set free. Both Cameron and Clark say that Morris alone is made to suffer, the others being free, and that they do not believe that it is just and right.
