

HER BODY CHOPPED TO PIECES

[UNITED PRESS LEARNED WIRE.]
Milwaukee, March 21.—Chopped into an unrecognizable mass, the body of Miss Anna Miller, aged 32, was found in the kitchen in her home here today. A hatchet was found near by. The police believe Miss Miller was murdered by a maniac.

The woman's body was covered with gashes, and the skull was split open, exposing the brain. She is lying in the emergency hospital.

The kitchen of the Miller home was spattered with blood, showing that a desperate struggle had occurred.

Albert Koehler, cousin of Miss Miller, is being sought by the police. Neighbors declare that Koehler called upon the woman this morning and that after a quarrel Miss Miller ordered him out of the house. It is alleged that Koehler attacked her with a hatchet.

THE POSSE CAPTURED THE THUGS

[UNITED PRESS LEARNED WIRE.]
Penticton, B. C., March 21.—Cornered by a posse of over 100 strong, and having no chance to escape, the two desperadoes, James and Wilson, who escaped while the prisoners of Constable Aston, from the steamer Okanagan, were captured late last night, without a shot being fired. Provincial Constable Routh was in charge of the posse, who were armed with Ross rifles, and quite prepared to do business if the escaped prisoners showed flight.

They were encountered near Gellatly, on the west side of Lake Okanagan, and are now being taken to the Berton jail, where, it is altogether likely, they will have to face a murder charge. Constable Aston is sinking rapidly at Kelowna hospital, and doctors say he will hardly live through the day.

Aston is an old Northwest mounted police trooper, and at one time owned Calgary.

CANNOT GET COAL QUITS RUNNING TRAINS

[UNITED PRESS LEARNED WIRE.]
London, March 21.—Because it is impossible to get coal with which to run its engines, the Great Central railroad today posted notices that it will suspend operations on Saturday next until the strike of the coal miners is ended.

BOURNE AND LAFFERTY AGAINST IT

Letters have been received by the Railroad Commission from both Senator Bourne and Congressman Lafferty in which they state that they will support laws which will make it unlawful for railroad companies to operate steamship lines, and thereby control competition.

The commission several days ago wrote the Oregon delegation saying that there now several bills on the subject before congress. Some of them, it stated, made it unlawful for railroad companies to own steamers plying in the Panama canal, but they urged the law be made of sufficient scope to include all kinds of steamers. Bourne and Lafferty both say they will support such a bill.

A Dainty Toilet Article.
Every lady who desires to keep up her attractive appearance at the theatre, attending receptions, when shopping, while traveling and on all occasions should carry in her purse a booklet of Gouraud's Oriental Beauty Leaves. This is a dainty little booklet of exquisite perfumed powdered leaves which are easily removed and applied to the skin. It is invaluable when the face becomes moist and flushed, and is far superior to a powder puff, as it does not spill and soil the clothes.

It removes dirt, soot and grease from the face, imparting a cool, delicate bloom to the complexion. Put up in white and pink and sent anywhere on receipt of ten cents in stamps or coin.

Backache Almost Unbearable.

I gave Foley Kidney Pills a good trial, and they done wonders for me. Today I can do a real hard day's work and not feel the effects." Foley Kidney Pills will cure any case of kidney and bladder trouble not beyond the reach of medicine. No medicine can do more. Red Cross Pharmacy.

THE LAW AND THE LADY IN EVIDENCE

Justices of the supreme court for the first time in the history of the court listened to a lady lawyer make an argument, when Miss Frances Kemp yesterday appeared before the court in the case of Doss vs. Beatty.

Miss Kemp is from Woodburn, and has appeared as an attorney a number of times in the circuit court. The case is brought against the sheriff of Clackamas county, and is for the purpose of recovering some onion sets which it is alleged he converted to his own use. After making her argument, Miss Kemp received many congratulations from members of the bar.

X-RAYS AND SMILES.

When John Cannon provided in his will that his wife was to receive \$100,000 if she did not marry for 10 years, he may have been moved by a desire to protect her, and then again he might be a philanthropist. He, of course, knew and understood the woman.

Seattle is to drive out its "undesirable" women. Suppose all the cities and towns adopt the same system? Driving them out of Seattle improves the morals of Seattle, a trifle, and it needs it, but how about the other places to which they must, perforce, go?

At the explosion of a locomotive at San Antonio, Texas, Monday, it is said pieces of the boiler were thrown 1,000 feet in the air. This is perhaps true, anyway, unless labor was blamed for the explosion before the pieces came down.

TIGHTENS HER SKIN— LOSES HER WRINKLES

(From Social Mirror)
"I want to tell you how easily I got rid of my wrinkles," writes Luella Marsh. "While in London a friend, much envied because of her youthful looks, gave me a formula for a home made preparation which has the effect of instantly tightening the skin, thus smoothing out wrinkles and furrows."

"The principal ingredient is powdered saxolite, which can be had at drug stores here. An ounce of saxolite is dissolved in a half-pint witch hazel. After bathing my face in this but once the transformation was so marvelous I looked years younger. Even the deep crow's feet were affected, and the annoying creases about my neck. It seems difficult to believe anything could produce such results. Several to whom I recommended the recipe have been similarly helped, one an elderly lady whose cheeks had become quite baggy."
