Loganberries in Demand. Because of the fact that canneries have contracted for the whole crop of loganberries in the valley—that is most of it—an order forwarded by a Chicago firm for 100,000 pounds cannot be filled. There seems to be a greater demand for this product this year than ever before, and because of the good prices offered, growers have entered into contracts in advance for the sale of the crop.

Bought Shoe Shop. A bill of sale was filed in the county recorder's office yesterday by which Hans Tuffli becomes the owner of the shoe factory and repair shop on the corner of Commercial and Court streets. Hope and Wedding Deferred. Mr. J. B. Errand, formerly of Montana, but now of Marion county, appeared at the county clerk's office today for a marriage license to wed Miss Dowers, of Hopewell. Being unfamiliar with the Oregon law regarding marriage licenses, which requires that the license be procured in the county where the bride-to-be resides, he was therefore much disappointed when he was informed that it could not be obtained in this county. This time Miss Mabel Grenmels, the marriage license clerk could not be the good Samaritan, and grant the license, but very reluctantly told the prospective benedict of the requirements of the law. The would-be groom had, prior to this time been to see Judge Webster, of the justice court, and paid the necessary fee to have the ceremony performed. This time the marriage will have to be postponed.

New Delivery Auto. The continued and phenomenal growth of the Meyers department store business requires constant changes, improvements and new methods to meet the changing conditions. On this account it was found necessary by the firm to add a new auto delivery, and this was done today. The auto is a beauty, and, as the old miners used to say, is "the finest color in the world, because it is red." It is a beauty all right, and is so bright and shining you can almost see it coming in the dark.

COLORADO IS SOLID FOR TAFT

[UNITED PRESS LEARNED WIRE.] Colorado Springs, Colo., March 27.—With a harmony program agreed upon between the Taft and Roosevelt factions, the state Republican convention is in session here today. To make sure of their strength, the supporters of President Taft tried themselves out this morning by electing Thomas Devine temporary chairman of the convention by a vote of 565 to 242. The convention then recessed until the afternoon, when the program is to be fulfilled. The convention's resolutions this afternoon will endorse President Taft and instruct eight delegates to the national convention in Chicago for him. The Roosevelt supporters will be permitted to present resolutions endorsing the Colonel in a minority report. These will be defeated, the Roosevelters having agreed not to bolt the convention when their resolutions are turned down. A slight uproar in the hallway of the convention building was quieted just before the sessions began.

Mint Will Continue to Operate [UNITED PRESS LEARNED WIRE.] Washington, March 27.—The California congressional delegation here this afternoon declared that they believed all danger of the discontinuance of the San Francisco mint as a mint, has passed.

Following a hearing before the house, sub-committee on appropriations, Congressmen Stephens, Kent, Hays, Raker, Needham and Knowland united in declaring that neither assaying nor coinage would be abolished at San Francisco. All six were present at the hearing. "We convinced the committee," said Hayes, "I am sure, that to stop coinage and assaying at San Francisco would be anything but economical. I think no change in the present status will be made."

All the California congressmen told the sub-committee that to transfer bullion and coins from Denver to San Francisco would entail great expense, and that the government would also lose the profits on coinage for other countries which is now done at San Francisco. They argued also that the Pacific coast uses coins to the exclusion of other money, and apparently were satisfied that they had made out a case which would prevent the proposed curtailment of the mint activities.
