The last recital for the season of the Sara Brown Savage School of Expression was given on Wednesday evening to a most appreciative audience, who warmly applauded the excellent work presented by the program. Friends of the school have watched with great interest the marked progress of the pupils and on this evening a very large audience enjoyed the unusually fine selections.

Miss Klein and Miss Erlson opened the program with piano duet, "Entry of the Gladiators." Miss Olive McGee's sweet notes in "Echo and the Ferry" made the reading very beautiful. Miss Blanche Linton's monologue was like all of her work—And Little Miss Odell Savage was good in "The Boy that was Scared of Dying."

As Gladys, Madge and Jack Stuyvesant in a funny sketch, Miss Alta Jones, Miss Bertha Eckerlin and Mr. Perry Reigelman, wearing full dress, made a very pretty scene which was admirably acted. Miss Hazel Erlson in Ouida's description of Cigarette's ride, gave splendid work in the heavy dramatic role. "A Cheerful Caller," Miss Emma Klein's funny monologue, delighted the audience.

In the farce which closed the program, Miss Alice Judd, Miss Helen Blackwell, Mr. George Hopkins and Mr. Robin Day gave a representation of the uncomfortable predicament that can befall one who attempts to "put on airs and graces." The acting was perfect.

A play is being worked up which will be staged in the Grand opera house on May the twenty-ninth.

An automobile ride made delightful ending for the afternoon.

There was no end of fun at the party given last week Friday night by the Willamette freshmen in Eaton hall complimenting the High School seniors. One end of the hall was decorated in Willamette colors, green and white and the opposite end in gold and black, the high school senior colors. The first diversion on the program was an auction sale of articles astonishing, wonderful and equally incomprehensible. These were purchased with beans.

A room upstairs was converted into a forest by the use of young fir trees, shrubs and vines. Animals constructed by a taxidermist and taken from the Willamette museum, were placed among the trees, making the scene weird and uncanny. Tropical animals made from pasteboard, looked down from the trees and were hidden in the bushes, each bearing a number that corresponded with the seven

groups of hunters, who under the care of a guide went for a shoot.

For a contest game that was given on the lower floor decorated with the class colors of an animal to be successfully straightened out. Willamette students carried off first prize. The guests watched pictures for refreshment partners, and ascended to the third story, where boxes were given them containing a luncheon. These they carried away to some spot that "looked good to them" where they enjoyed the feast.

The address of welcome to the seniors was given by Eric Bolt, president of the freshmen. President Homan of Willamette talked most interestingly of the future of the university, and predicted for the near future a fine new auditorium with pipe organ.

The Willamette freshmen orchestra furnished good music for the evening's delightful affair.

A very interesting event took place last Saturday in West Salem, when one hundred and forty-five friends and relatives called between the hours of one at noon and nine in the evening to celebrate at the residence of Mr. and Mrs. G. E. Nichols, the sixtieth anniversary of their wedding. The marriage occurred at Canton, Illinois, in the year eighteen hundred and fifty-two. In a few years Mr. and Mrs. Nichols moved to Nebraska, and from that state to Oregon in eighteen hundred and ninety-eight, settling in West Salem, where they have resided continuously. They have three children, two grandchildren and one great-grandchild, the little daughter, Margery, of Guy Nichols of Salem.

High Pressure Days.

Men and women alike have to work incessantly with brain and hand to hold their own nowadays. Never were the demands of business, the wants of the family, the requirements of society, more numerous. The first effect of the unwearied effort to keep up with all these things in commonness is a weakened or debilitated condition of the nervous system, which results in dyspepsia, defective nutrition of both body and brain, and in extreme cases in complete nervous prostration. It is clearly seen that what is needed is what will sustain the system, give vigor and tone to the nerves, and keep the digestive and assimilative functions healthy and active. From personal knowledge, we can recommend Hood's Sarsaparilla for this purpose. It acts on all the vital organs, builds up the whole system, and fits men and women for these high pressure days.
