

# ROYAL BAKING-POWDER

Absolutely Pure

To have pure and wholesome food, be sure that your baking powder is made from cream of tartar and not from alum.

The Label will guide you

Royal is the only baking powder made from Royal Grape Cream of Tartar

No Alum No Lime Phosphates

## BACK FROM AN EXTENDED HONEYMOON

Mr. and Mrs. William McGilchrist, Jr., arrived in Salem this morning at 7 o'clock, after an absence of eight weeks in California and the Hawaiian islands, where they went on their wedding trip. Mr. and Mrs. McGilchrist were married in Salem February 21, 1912, and left immediately for the south and the islands. They spent two weeks in California before leaving for the islands. While in Southern Oregon they visited the orange groves and the districts around Los Angeles, Pasadena, Riverside and other points of interest there. Upon their arrival in Honolulu they began at once to enjoy

the pleasures of the tropical climate, as everything looked like spring and summer combined with all the beauties and comforts of both. They saw the immense sugar cane plantations and groves of coconut and banana trees, with their loads of fruit. About four weeks were spent in Hawaii on the three principal islands, they having visited during that time almost every place of interest there. Returning two weeks were spent in Southern Oregon and Northern California, viewing the many sights and places of interest there. Both Mr. and Mrs. McGilchrist are very glad to be back to Salem, and are busy today shaking hands with their many friends and acquaintances, as well as receiving the congratulations of all.

The tobacco trust tells us that the stuff cigars is made of is advancing in price. We infer from this that sauer kraut will be higher.

## GOVERNOR APPOINTS COMMITTEE

Acting on the suggestion of Insurance Commissioner Ferguson, Governor West today appointed a committee of 15 to revise the insurance laws of the state, and, after examination of them the committee will make its recommendations to the next legislature.

In his message to the last legislature the governor recommended that the insurance laws of the state be changed materially. These recommendations were based upon recommendations contained in the report of ex-Insurance Commissioner Koser. As it possessed no data, the legislature was unable, during its limited session, to investigate the subject, and took no action. Finding that Insurance Commissioner Ferguson is in accord with former Commissioner Koser on the subject, the governor decided to appoint a commission to bring about a revision of the laws. There are on the committee seven insurance men, the others being lay members, and it is urged that they take up their labors at once. The committee is composed of the following:

- Thos. G. Greene, Portland.
- W. H. Hollis, Portland.
- Geo. M. Rice, Pendleton.
- M. A. Moody, The Dalles.
- R. S. Shaw, Mill City.
- H. S. Gile, Salem.
- Wm. McKay, Champoeg.
- Paul H. Sroat, Portland.
- L. Samuels, Portland.
- Harvey Wells, Portland.
- John H. Burkhardt, Portland.
- W. C. Hagarty, McMinnville.
- C. A. McCargar, Portland.
- W. J. Clemens, Portland.
- J. W. Ferguson, Salem, Insurance Commissioner.

### WIRELESS FROM CARPATHIA.

(Continued from Page 1.)

Schulke, of the steamer Cincinnati, reported today that the Titanic sent out messages Sunday night saying it had collided with an iceberg, and that his vessel started to the rescue. Later, he said, the Titanic sent out another wireless, saying the Cincinnati need not come, "as the Olympic is coming."

### Names Have Been Given.

Washington, April 17.—Commander Decker of the Scout Cruiser Chester this afternoon wirelessed the navy department as follows:

"The Carpathia states that the list of first and second class passengers and crew saved from the Titanic has been sent ashore. The Chester will relay the names of the third class survivors when it is convenient to the Carpathia."

### All Hope Abandoned.

New York, April 17.—The White Star line officials believe that the message of Captain Decker of the Chester to the navy department means that only those first and second class passengers whose names have already been published were saved from the Titanic that the others aboard the Carpathia are steerage passengers.

If this interpretation is true, there is no further hope for the safety of the noted men and women who still are missing.

Many persons who had been waiting at the White Star offices here for hours collapsed when Decker's message was read believing at last that all hope was gone. One official said: "It would appear we now know all who were saved so far as well-known names are concerned and that early fears have been completely realized."

### To Search for Bodies.

(By Marlin E. Pew, staff correspondent of the United Press.) Halifax, N. S., April 17.—With 200 caskets aboard, the Mackay-Bennett, the vessel chartered by the White Star company to search for bodies of Titanic victims sailed from here this afternoon. As it started away the British flag on the citadel was lowered to half mast. The vessel is equipped with wireless apparatus and if any corpses are found the White Star line will be notified at once. Six small boats provided with grappling irons were taken along.

Vincent Astor, son of Colonel John Jacob Astor, who was lost in the disaster, is depending on the Mackay-

Bennett to find his father's body. Captain Larnber, who is in command of the expedition said:

"We are chartered by the White Star company. We will spend two or three days in exploring. If we find any bodies they will be sent here."

Hundreds of messages sent here are awaiting transmission to the Titanic survivors aboard the Carpathia.

### Captain Was Warned.

Havre, April 17.—The Presse Nouvelle quotes the captain of the French liner La Touraine as saying that he sent a wireless dispatch reporting the presence of icebergs to the captain of the Titanic, who acknowledged the message with thanks.

La Touraine, which arrived here last night, encountered the huge field of ice, with the tops of the bergs slightly above the water. La Touraine slowed down and emerged from the ice field after an hour's steaming. Next morning she passed other icebergs.

### Amateurs Delay News.

New York, April 17.—Wireless stations on shore manned by amateur operators experimenting with their apparatus, today continue to break in to communications, spoiling the efforts of the scout cruisers Chester and Salem, steaming toward the scene of the Titanic wreck under orders from President Taft, to send reports.

### Ice Was Far South.

Halifax, April 17.—Speaking of the wreck of the Titanic, Captain J. H. Farquhar, of the whaler "Seal," declared today:

"I have sailed these seas for forty years and cannot explain the disaster. The Titanic must have been running twenty knots an hour, if it is true that her plates were torn from the bow to amidships."

"The Arctic icebergs rarely get as far south as the point where the Titanic struck. It is incredible that such an iceberg would be entirely submerged. It is probable that this one was fifty feet above water, though possibly the night was found, and the watch failed to see the berg."

The fact that the berg was far south of the ice line on the maps may have taken the officers of the Titanic off their guard."

### Will Encounter Storm.

New York, April 17.—A gale off this coast is predicted by the weather bureau here today, which makes it

probable that the Carpathia, with the rescued passengers of the Titanic aboard, will encounter rough weather.

### CIRCUIT COURT

#### HARD AT WORK

In circuit court yesterday the jury in the case of the State vs. Julius De Fore, after deliberating several hours, failed to agree, and was discharged by the court.

The case of George H. Mudge, as administrator of the estate of George L. Pugh, against Silas Pugh was on trial yesterday afternoon, and was concluded this forenoon. This is a case in which Mr. Mudge, as administrator, seeks to obtain possession of certain personal property belonging to the George L. Pugh estate, and which is being held by Silas Pugh on some claim of right of ownership. The jury brought in a verdict by which a division of the property is made

### BABY SCALDED TO

#### DEATH AT SHERWOOD

Sherwood, Ore., April 17.—The only child of Mr. and Mrs. Clifford Salsus, a girl, aged 3 years, Monday climbed upon a chair and fell backwards into a tub of scalding water, and died three hours later from the effects.

Doctors were called, but could do nothing to relieve the little sufferer. She was the only granddaughter of Mr. and Mrs. Solomon Weckard and great granddaughter of Mrs. Ford, a pioneer, now living in Portland. The little girl had taken several prizes at county and grange fairs for her beauty.

The department of agriculture has discovered that infertility of the soil is caused by too much dihydroxytartaric acid and advocates removal of same. We shouldn't think there would be anything left after all that is taken out.
