ALBANY HAS GREAT EXHIBIT EQUALS STATE'S AT ASTORIA A SURPRISE TO EVERYBODY

Ten Thousand People Already Have Seen the Exhibits and in Educational Values the Effect of the Exposition is Incalculable--It is the Greatest Boost for Home Manufacturers and the "Made in Oregon" Movement That Could Have Been Made--Everybody Surprised and Delighted With the Magnificent Display.

The Made in Oregon Exposition put up by the Albany Commercial club at the armory for the last three days of the week was a surprise to everybody who entered that building. The whole floor space was railed off and all the space taken clear round and down through the middle. The show was as good as was seen at the Astoria Centennial that cost the state and Clatsop county a hundred thousand dollars, and this did not cost the taxpayers a cent.

Great credit is due to Manager Stewart of the Albany Commercial club, and the local manufacturers who have put up the exhibits. There was never a better boasting enterprise put on for Linn county, and for the Made in Oregon campaign than this exposition, and it has been done without a cent of expense to the Manufacturers' Association or the taxpayers of the state.

The School Campaign. On Friday City Supt. C. W. Boettcher of the Albany schools invited a delegation composed of A. M. Holton, one of the board of directors of the Manufacturers' Association; Col. E. Hofer and O. W. Haas of the Hickory Bark Remedy company, to visit the schools. Addresses were delivered at the high school and at the third ward school, in all reaching about 1200 young people and children, who carried the Oregon First Consumers League pledges into the home of the Albany people. This is a message of hope for the Oregon industries, and is bound to bear fruit in increased business for the Made in Oregon campaign.

Mr. Vincent of the Anderson Steel Furnace company at Salem was interviewed at Albany Made in Oregon Exposition. The first man he was introduced to was Manager Stewart of the Albany Commercial club, and Stewart said: "I know all about the Anderson steel furnace. I had the first one sold in Oregon put in my new house. It is giving perfect satisfaction. They are sold by the Francis hardware stores. All the furnaces put in at Corvallis last year were the Anderson furnaces. They are a very creditable Made in Oregon product, and there is not much excuse for shipping in furnaces from the east."

Albany Herald Account. Amid April showers that seemed to have no depressing influence on the people of Albany and Linn county the Manufacturers' Exposition opened at the armory with almost every exhibit in place and every aisle taken. Near the center of the pavilion is a telephone for the service of the public and several chairs for a moment's rest between acts if the spectator gets too weary.

Taken as a whole, the exposition is a grand eye-opener and an ever-ready

one hears expressions like, "I didn't know that anyone manufactured that here," and "Why, I didn't know that before." New people are arriving in Albany daily and many of them do not know of the existence of factories that are producing the very things they need. This exposition will overcome much of that ignorance and be of material assistance both to the consumer and the manufacturer.

Brownsville is here in force with a display composed of exhibits from the Brownsville Glove factory, the Brownsville Wooden mill, the Brownsville Creamery, the Brownsville Grist mill, the Brownsville Harness factory and the Brownsville Shoe factory. The spirit that makes such an exhibit possible is certainly an excellent asset for a town and there is no doubt but Brownsville will profit by it. In the same booth with the Brownsville exhibit is a showing of ladies' tailoring by Mrs. W. F. Heckman of this city.

An elegant Oregon walnut table and a fine desk are prominent features of the display of the Albany Box and Cabinet factory with a big pyramid of boxes of various descriptions to hold up the other side of the business. The table is particularly well made and has hand-carved legs.

Watson Bros. show a feed mill and several nongame bronze propellers besides a lot of gears--all testimonials of their ability in their line.

Ladders, stairs and wheelbarrows are the principal items in the exhibit of Dawson & Butaloff, but there is a small model of a farm gate that is attracting considerable attention from the farmers.

Commencing at the left of the entrance, the first exhibit is that of F. W. Horaky, the harness man. Next to this is the combined exhibit of the Albany Brick and Tile company and Mrs. Percy Smith. The Brick and Tile company has a fine pressed brick and the fireplace in the corner besides a section of wall and a brick chimney. The bricklaying in this exhibit was done by J. Etherington and W. Preble. Above and behind the fireplace are the oil paintings of Mrs. Percy Smith. They speak for themselves.

The Bean-Fletcher company has a fine display of Made-in-Albany bakery products. Interior and exterior columns, newel posts, doors, windows and pedestals, all of excellent workmanship, constitute the exhibit of the Cameron Planing mill.

Soda water of all kinds is tastefully arranged in the display of the City Bottling works.

The Red Crown mill has a fine array of the choice products of their mill here, the celebrated Snow Flake flour being the leader and unsurpassed by cereals and the other good things that are manufactured at the Red Crown mill.

Chairs and then more chairs; fine chairs, extra strong chairs and just common chairs. That is what you will see in the display of R. E. Voel

& Son. The chairs in this display are all stock varieties and are taken from the warehouse just as are any of the shipments that are made by the company. Prominently displayed among the chairs will be found certificates of awards made to R. E. Veal & Son at the Pan-American Exposition, the Jamestown Exposition in 1907; the Lewis & Clark Fair at Portland in 1905, and the Alaska-Yukon-Pacific Exposition at Seattle in 1909.

The Union Furniture company has only a few of their lines displayed on account of the lack of space, but the things that are shown are of such a character and quality that one can easily see what the company is capable of in the line of furniture making in Albany. Tables, sideboards, chiffoniers, dressers, tabourets, magazine racks and kitchen cabinets are to be found in a variety of styles.

An elegant colonnade commands the display of the Albany Planing mill, and behind it are to be seen doors, windows, desks and fancy sawing and turning of various descriptions. This company is making a specialty of fine office finishing, and they have several samples about the city that they are proud to point out to enquirers.

The display of the Albany Creamery association consists of the delicious butter that we are all so willing to spread thick.

Johnson's "Best" flour is the occasion of a lot of interest because of the prizes to be given for the best bread made of this Made-in-Albany flour.

The displays of the Ralston Electrical Supply company, and the Oregon Power company adjoin the booth of Johnson's "Best" flour being used in the demonstrations. Besides the cooking utensils, the electrical people will have other utilities such as extra fine lights, machinery to save labor in washing and sewing and plenty of fine fixtures.

The Orange Label of the Woodworth Drug company is prominently presented in a dainty pergola, flower bedecked and decorated with orange colors throughout.

A hower of beauty is the booth of the Albany Floral company, and but to see it is to want some of the beauties that are produced in Albany.

A comparison between the shingles Made-in-Oregon and those made elsewhere is made in the display of the Albany Shingle company and the comparison shows that good shingles are made here.

A fine display of specimens of the blacksmith's art are to be found in the booth of F. L. Snyder. A wrought iron lily catches the eye of the casual passer and the display of horse shoes of all descriptions and sizes holds the eye of the horseman.

W. L. Cobb has some samples of the stone-cutters' skill in his booth. Hides of all kinds, tanned to suit different requirements, constitutes the display of the Albany Tanner.

For artistic and fantastic beauty, the booth of I. W. Rivers is pre-eminently the place to go for there one will see things the like of which are seldom seen. Wood turnings of a wide range of shapes and mostly all highly polished are there on sale as curiosities and Mr. Rivers says that if he can sell enough of them to make it worth while he will go into the business exclusively.

Three of the lapidaries of the city have combined some of their work, and have it in one booth. It is well worth seeing and examining because there are certainly some beautiful stones there.

J. G. Crawford has a fine lot of pictures.

The Albany Iron works has a big furnace and also some finely machined sawmill parts as well as some large patterns.

A fine display of the product of the Sco Condensed Milk company is used to spread to the world the "Country Club" brand that is manufactured by the company.

The Hammond Lumber Company greets the eye with a neat little bungalow showing four separate fronts, each finished in a different color, while in the foreground stands the duck that is almost a trademark with the company.

***** CHURCH SERVICES. *****

First Methodist Episcopal Church. Corner Church and State streets. Richard N. Avison, D. D., minister. 10:15 a. m. morning prayer, leader, Mr. Dexter Field. 10:30 a. m. sermon by Rev. J. W. Hancher, D. D. 12:00 n. Sabbath school in the lecture room. Strangers and visitors cordially invited. 12:00 m. class meeting in the audience room, leaders, Mr. George Hatch and Mr. W. L. Cummings. 3:00 p. m. Miss Laura Austin will have charge of the service at the Old Peoples' Home. 6:15 p. m. Jason Lee Memorial M. E. Corner of North Winter and Jefferson streets. W. C. Stewart, pastor. Sunday school at 10 a. m., C. W. Roberts, superintendent, Epworth League at 7 p. m. All are cordially invited to attend these services.

SKIN PEELING NATURE'S AID TO NEW COMPLEXION

(From Woman's Tribune.) Mercorized wax is a natural beautifier. By flaking off the devitalized surface skin, it merely hastens Nature's work. The second skin layer, brought gradually to view, exhibits the healthy youthful color produced by capillary circulation. This because the capillaries are thus brought nearer the surface; also because the new skin is unsoiled by dust and dirt. This wax, to be had at any drug store (an ounce will do) is put on nightly like cold cream, washed off mornings with warm water. Its work usually is completed in from seven to ten days, long enough not to show too marked results from day to day, or

cause pain or detention indoors. A face bath to remove wrinkles, made by dissolving an ounce of saxeolite in a half pint witch hazel, is another natural beautifier, since its astringent and tonic efforts smooth out the wrinkles in accordance with Nature's own process.

M. D. Boardman, 573 W. Main St. Helena, Mont., gives an interesting account of his improved health through the use of Foley Kidney Pills. After giving a detail account of his case, he says: "I am almost 75 years old and I have spent hundreds of dollars for medicines, but find that I have received more benefit from Foley Kidney Pills, than from all other medicines. Further particulars sent on request." Red Cross Pharmacy.

There seems to be no kind of insect powder that is fatal to humbergs. No man was ever so busy he forgot when payday came.

One of the most startling changes ever seen in any man, according to W. B. Holclaw, Clarendon, Tex., was effected years ago in his brother. "He had such a dreadful cough," he writes, "that all our family thought he was going into consumption, but he began to use Dr. King's New Discovery, and was completely cured by ten bottles. Now he is sound and well and weighs 218 pounds. For many years our family has used this wonderful remedy for coughs and colds with excellent results." It is quick, safe, reliable and guaranteed. Price 50c and \$1.00. Trial bottle free at J. C. Perry's.

NO ONE STRONGER THAN HIS STOMACH.

The celebrated Dr. Abernethy of London was firmly of the opinion that disorders of the stomach were the most prolific source of human ailments in general. A recent medical writer says: "every feeling, emotion and affection reports at the stomach (through the system of nerves) and the stomach is affected accordingly. It is the vital center of the body." He continues, "so we may be said to live (through) the stomach." He goes on to show that the stomach is the vital center of the body. For weak stomachs and the consequent indigestion or dyspepsia, and the multitude of various diseases which result therefrom, no medicine can be better suited as a curative agent than

Dr. Pierce's Golden Medical Discovery.

"Several months ago I suffered from a severe pain right under the breast-bone," writes Mrs. G. M. MURKIN, of Corona, Calif. "I had suffered from it, off and on, for several years. I also suffered from heart-burn, did not know what was the matter with me. I tried several medicines but they did me no good. Finally, I was told it was my liver. I did not dare to eat as it made me worse. Whenever I swallowed anything it seemed that I would faint--it hurt so. I grew very thin and weak from not eating. Was told to take Dr. Pierce's Golden Medical Discovery. I took five bottles of it, and could feel myself getting better from the first dose. I could eat a little without pain and grew strong fast. To-day I am strong and well and can do a big day's work with ease. Can eat everything and have put on flesh wonderfully. I will say to all sufferers write to Dr. Pierce. He has my undying gratitude."
