FULL LEASED WIRE TELEGRAPH REPORT

\$25,000 FOR IMMIGRATION.

The public is interested in the status of the campaign to secure foreign immigration.

The legislature passed a bill appropriating \$25,000 to print

pamphlets to secure immigration. It was given out that the governor had vetoed the bill, so far as the \$25,000 was concerned, but let the law stand. Some time ago it was given out that he had only held it up

conditionally, and the fund was released. The Portland Commercial club took up the matter, and it is said to be preparing for expending the money.

This state could use thousands of Germans, Scandanavians,

Swiss and the better class of European immigrants. If the money is to be expended for that purpose direct, some

good will be accomplished for development. But there is a tremendous quantity of Slavic and South European immigration Oregon does not want.

WANT THE SECOND CHOICE BILL.

The Oregonian shows how the principal nominations under the direct primary law are r on minorities. It sensibly contends for the second choice law that was enact-

ed by the last legislature. It was vetoed by the governor on some political theory, and at

the time the Oregonian rather applauded the veto.

But it is the only remedy for the evil that exists of making important nominations by minorities.

The Oregonian also deserves credit for demanding that the presidential preference law be respected.

The delegation from Oregon belongs to Roosevelt, just as he says the Massachusetts delegation belongs to Taft. But the people should have a second choice even on President,

and the time will be when that second choice will be respected. In Oregon the result might have been materially different if the people had been privileged to express a second choice for all offices from constable to president.

THE EMPLOYMENT BUREAU ABUSES.

There is some justice in the claim of the I. W. W. orators that laboring men are robbed under the present system of employment.

An employment bureau at Portland or Seattle gets a fee from two to five dollars for directing laborers to Salem for employ-

On their arrival, and after paying railroad fare to come here, they get a few days' work, and are turned out for new arrivals. They are taxed \$5.50 a week for inferior board and the privilege of sleeping in bunks filled with straw like cattle.

If they secured steady work they might put up with the fees and the treatment, but the wrong comes in the short employment Laborers have come to The Capital Journal office in bunches of two to five who paid their fees at Portland and got no work. That is an open and flagrant deception, and the government that tolerates such abuses is naturally antagonized to laboring

How can these men stop this systematic swindle unless they go

upon the streets and voice their protests publicly?
While on this subject, we would like to inquire what has become of the city charter amendment to protect resident labor-

That is as much a part of the city charter as the provisions creating the police or fire department.

An ordinance should be drawn up to put that provision of the city charter into effect.

Characteristics of Live Oregon Men and Women as Chronicled at Portland

I cheerfully bottle of Hood's. After taking it recommend Hood's to build up I was in good health again." Mrs. the system." D. W. Seay, R. F. Gertrude Johnson, Box 36, Cul-

Gldeon Stoiz of Salem is one of the pioneer manufacturers of Oregon. He has established three industries and two of them are running at Salem—the pickle and vinegar factory and the fruit spray factory. A factory is running at Portland founded by him and was only taken away from Salem because Salem people would not take stock in the same. All three industries founded by him are making money and he has been a public benefactor to that extent that he has created an opportunity for others to find employment and has added to the wealth of the state every day in the year. For be it known that a manufacturer albe it known that a manufacturer al-ways adds to the value of the material e handles and turns over.

for the Northwestern Stove Works affair as fine as anyone could wish plant, which will be removed from the Oregon state prison about June 1st.

Messrs. Loewenberg and Steiner are two young men who have the practical lishing its own newspaper. grown up in the business, and are en-ergetic, hard-working young business men, with a knowledge of the tech-nical and the commercial sides of the stove business. Oregon-made stoves will take the market on the Pacific coast because the fuel conditions here are so different from the east. The Anderson Steel Furnace company is making a great success of its business for the same reason. They build a furnacec suited to the fuel and to the climate of this country. Hence wher-

At the Albany Made in Oregon Exposition one of the surprises was the display of leather made by the Albany Tanning company. They make a spe-cialty of saddlery leather and their product is shipped from Calgary to Mexico. The funny thing about saddle made about 2500 saddles that are in use among the cattle men in Montana, Idaho and Wyoming. The Albany sad-dle leather is sold at 36 to 48 cents a pound. Thirty men are employed at Loss, \$1500-not counting the delay.
the tannery and from 25 to 50 are sent the tannery and from 25 to 50 are sent to the woods every summer to cut hemlock tanning bark.

The sulphur match is slowly going at. The fact is, it is too slow for the people of this day and age. They want a match that lights and burns quicker. Hence the old-fashioned sulphur match is sold only in the slower places, and where a very cheap match is used. like mining and railroad camps, fishing towns and at small places. The parlor match, as it is called, in many different styles is taking the market of the world. ...

It is interesting how industries grow become successful. Hefore finally succeed, men must get hold of tical details of the industry and also understand the trade or business end of the industry. That is the history of the Portland Electrotype and Stereotype company, 92 Front street. P. A. Gay, the president, was with the Amer ican Type Founders company for 20 years. He learned his trade in San Francisco and has been an electro-typer all his life. He united with Ed-ward Kraenick in 1907 in the present corporation. Mr. Kraenick is a German-American who learned his trade as stereotyper on the Oregonian force where he worked for seven years. That makes a team that is building up a fine business, and employing a good payroll.

Ex-Mayor Pohlman of Baker bangs out at the Imperial hotel when in the city. While he got his start in the meat and cattle business, he has now gone into electric properties and has his eye on anything in that line in the state that can be picked up and devel-oped. In enterprise he is ready to try anything once. Pohlman is one of the best-known men in Eastern Oregon and not many ride a bucker, rone a bunch-grasser or brand a maverick in politics with more neatness and dispatch than Bill Pohlman of Baker.

It is the little things that count. For instance, the Western Mantle company at Portland has been manufacturing the sodium gas mantle that is burned

Mark is the solid American on ordinary gas and gasoline lamps mark Hanna type of man. He is big-hearted and generous to a fault and about two million mantles a year. The made only one bad break of political judgment in my opinion—he supported what the Oregonian called "that unspeakable Hofer" for governor at the oldest in America. At the head of the firm is L. A. Klein, who also handles firm is L. A. Klein, who also handles a line of imported and domestic glass-Gldeon Stolz of Salem is one of the ware and fittings for lamps. To show

The Chapin-Herlow Mortgage Trust Co. gives a monthly dinner to its employes in the real estate line. About Salem will have an opportunity to scene one of the best manufacturing plants in the state if a site is secured evening and it was a squab-artichoke room office, this company has grown to occupy nearly the whole third floor
