VOSBURG PROBABLY TOTAL LOSS. (Continued from page one.) Craft May Be Saved. Captain Erickson is now directing preparations for a final effort, which will be made at flood tide at 2 a. m. to drag the Vosburg into deep water. A line from the steamer to the jetty has been attached to a donkey engine, which, with the assistance of the tug will supply the power for the attempt. It is thought the barge Nehalem is safe in her position, but the rough seas today made the position of the men who were on board dangerous, so they were taken ashore with the others. A large number of fishermen are assisting Captain Erickson and his crew in their effort to save the vessel. The Vosburg moved 20 feet at high tide yesterday, but did not come off the spit. The Valley Oil company, of Albany, has secured leases on 600 acres of land, and has arranged to purchase machinery for developing its supposed oil field.

STRIKE AT CHICAGO IS SPREADING

Chicago, May 6.—The strike here is being conducted by President Perry, of the International Pressmen's Union, who is attempting to bring out the printers in sympathy. Perry issued a statement today in which he charged that members of the Publishers' Association have started a movement to create "open shop" mercantile departments in all newspapers in the country which are allied with the association. Fifty automobile truck drivers, employed by paper concerns, went on strike today, refusing to deliver paper to the newspapers. The Chicago Federation of Labor yesterday urged the unionists to support the strikers and advocated a strike of printers. Max Annenberg, of the circulation department of the Chicago Tribune, was stung into unconsciousness in a riot down-town. He was aiding in the distribution of papers.

Washington, May 6.—Recommending pensions for the United States civil service employees except in the District of Columbia, and forced retirement of all employees at the age of 70 with pensions made up through compulsory contributions from salaries, with some government aid. President issued a special message to congress today.

The president's message urged the immediate retirement of all clerks over 70 years of age with pensions amounting to half their salaries, not to exceed \$600 per annum. The message also approves and submits the report of the economic and efficiency commission, which evolved the civil pension program.

President Taft declares the pension plan would cost the government \$227,000 for 20 years in excess of the cost now sustained by paying superannuated clerks, but that in the succeeding 16 years, it will save the government more than the entire cost of the plan.
