nourian would carry every county in the state.

Chaos at Los Angeles.

Los Angeles, Cal., May 14.—The worst confusion that has marked an election in Los Angeles in many years reigned at the polls and campaign headquarters here today.

Lack of funds at the disposal of the county clerk curtailed the size of the clerical force there, and hundreds of

new voters today found difficulty in locating their precinct polling places. Scores of old precincts have been subdivided, and many persons spent two or three hours trying to cast their ballots. The headquarters of every presidential candidate were bombarded throughout the day by voters demanding help.

The early voting was surprisingly light, campaign managers attribute this to the chaotic conditions. Women voters, however, were active, and a fair proportion of the female vote was cast during the early hours.

How The Body Kills Germs.

Germs that get into the body are killed in two ways—by the white corpuscles of the blood, and by a germ-killing substance that is in the blood. Just what this substance is, we do not know. The blood of a healthy person always has some germ-killing substance in it to ward off the attack of disease. The fountain head of life is the stomach. A man who has a weak and impaired stomach and who does not properly digest his food will soon find that his blood has become weak and impoverished, and that his whole body is improperly and insufficiently nourished. To put the body in healthy condition, to feed the system on rich, red blood and throw out the poisons from the body, nothing in the past forty years has exceeded Dr. Pierce's Golden Medical Discovery, a pure glyceric extract (without alcohol), of bloodroot, golden seal and Oregon grape root, stone root, manna and queen's root with black cherry bark.

J. H. MARTIN, M.D.

"My husband was a sufferer from stomach trouble and impure blood," writes Mrs. JAMES H. MARTIN, of Frankfort, Ky. "He had a sore on his face that would form a scab which would dry and drop off in about a month, then another would immediately form. It continued this way for a long time. He tried every remedy that any one would suggest but found no relief. He then tried Dr. Pierce's Golden Medical Discovery which completely cured him. He has stayed cured now for two years, and I recommend this valuable medicine for impurities of the blood."

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules.

TO CURTAIL ISSUANCE OF INJUNCTIONS

[UNITED PRESS LEASED WIRE.]

Washington, May 14.—Aiming to curb the issuance of injunctions in strikes, the anti-injunction bill of Congressman Henry D. Clayton, of Alabama, chairman of the house judiciary committee, was the subject of a three-hours' debate in the house today, that body having met early for the express purpose of considering the measure.

The Clayton bill prescribes rules and regulations to curb the issuance of federal judge injunctions, especially in the case of strikes or boycotts. In a general way it prohibits injunctions in labor disputes, unless irreparable and immediate damage to property is probable, and bars injunctions which are issued without notice in advance. The bill also provides for security for costs and damages in cases where injunctions are issued.

Congressmen Mann, Cannon, Dalzell, Norris and Lenroot attacked the "gag" rule under which the bill was considered. Chairman Henry, of the rules committee, defended the measure.

ORGANIZED TO FIGHT THE FOREST FIRES

With the adoption of a system whereby the county forest fire fighting associations may appoint their own wardens, State Forester Elliott hopes to materially better the state's forest fire fighting organizations.

He is just back from a visit to many of the counties of the state, and reports that the prospects for efficient organizations in all of the counties are splendid. In a number of them good organizations were effected last year, and these have been strengthened.

Because the supervising wardens were appointed last year by the state, harmony in the work was not as prevalent as it should be. With the appointment of these left to the local organizations, it is believed discord will be eliminated.

Ten thousand dollars is available this year under the Week's law for the hiring of forest rangers, that can be employed by this fund and the funds of the state will bring the total available up to 25.

THEY CLAIM EVELYN HAS 2-YEAR OLD

Pittsburg May 14.—Neighbors of Mr. and Mrs. Charles Holman, stepfather and mother of Mrs. Evelyn Nesbit-Thaw, declared today that Evelyn and her alleged 2-year-old son, "Anthony," have been at the Holman home in Brooklyn, a suburb of Pitts-

burg, for a week. They declared that they have seen Evelyn and the baby together several times in Brooklyn.

Detective Roger O'Mara, of Pittsburg, who assisted Thaw in his attempts to secure his release from the Matteawan insane hospital, where he was committed, following his shooting of Stanford White, still denies Thaw's paternity of the child, and declared today that the reports of its being seen in the neighborhood were untrue.

THE NOSE A FILTER TO STRAIN THE AIR

Catarrh Clogged Nostrils a Breeding Place for Deadly Germs.

The nostrils are perfect "air filters" and, when kept in clean, healthy state, strain every bit of air we breathe, catching all dust particles, foreign matter and germs. The air is full of germs. You cannot dodge them, but you can safeguard yourself against catarrh and other diseases contracted in the process of breathing by keeping the nostrils clean and healthy. Catarrh germs will sometimes get in their work, and you may mistake the symptoms for an ordinary cold.

Don't take any chances. If you have a stuffed up feeling in the head, or if your throat is sore or filled with phlegm, just grease the nostrils with a little Ely's Cream Balm, draw the pure, aromatic fumes back in the head, and you will be astonished at the effect. In a few minutes you will feel a loosening up in the head, the nasty discharge will soon be stopped, the soreness gone, and you will feel a sense of genuine relief.

Ely's Cream Balm not only wards off catarrh, but will quickly cure even a chronic, longstanding case of catarrh. It takes the trouble right where it starts, in the nose and throat, cleanses, heals and strengthens the raw, sore inside skin, or membrane, and in this way drives out catarrh and makes you proof against this filthy, disgusting disease.

Summer colds, which often hang on for weeks, can be quickly cured with this cleansing, healing, antiseptic balm. All druggists sell it for fifty cents a bottle, and the one bottle is generally all that is needed to effect a complete cure. Try it today. Special Agent J. C. Perry.

UNEARTH TOUGH DEN AT MEDFORD

[UNITED PRESS LEASED WIRE.]

Medford, Ore., May 14.—A den of iniquity, in which slavery, gambling, stabbing affrays and possible murder figures has been unearthed as the result of the stabbing and robbery of Wo Lee, a local Chinese laundryman Sunday night. Jim Ling, an Ashland Chinaman is in jail, as is Laurs White, his white slave, aged 22, who was apprehended trying to purchase opium. She states that the stabbing affray was the result of a fight over her illicit earnings, prompted by jealousy.

The woman tells a sordid tale. Two months ago she was sold for \$200 by a Chinaman who posed as her husband in San Francisco to Jim Ling, who brought her to Ashland, and then to Medford, and was living off her earnings. She declares she was begging Wo for drugs when the stabbing and robbery occurred. No trace of \$800 in gold secured has been found.

BRITISH COLUMBIA SAWMILL BURNS

[UNITED PRESS LEASED WIRE.]

New Westminster, B. C., May 14.—The Royal City Lumber mills here, one of the oldest established and biggest plants in British Columbia was completely destroyed by fire this afternoon.

The cause is as yet unknown. But it progressed with such rapidity after its first discovery that in spite of the general alarm turned in and the quick arrival of the whole fire department both automobile and horse division, it was impossible to do anything more than confine the flames to the ill-fated plant. Fortunately there was no wind or other mills, though situated at some little distance, might have easily been concluded in the conflagration as the intense heat of the last few days has made everything as dry as tinder. The fire is still in progress and the loss cannot yet be learned.

ANDERSON IS SENT TO THE ASYLUM

[UNITED PRESS LEASED WIRE.]

John Anderson, who was arrested in the northern part of the city yesterday afternoon, on account of his peculiar actions, proved to be insane. He made two attempts to take his life within the last few days. He was prevented from accomplishing the deed by his fellow workmen, with whom he was laying steel on the Oregon Electric railroad southeast of the city. He left the railroad camp Sunday, came to the city and wandered around town aimlessly, but his actions did not attract much attention until about noon yesterday, when he made

another attempt to take his life, by throwing himself into the river near North Mill creek. The water was shallow at the point where he went in and he was discovered right away, and his life was saved by those who saw him. When questioned by the officers he was unable to account for his strange conduct, and to most of the questions put to him he answered with "I don't know." In the afternoon he was taken before Judge Bushy, where an examination was made as to his sanity under the direction of Dr. O. B. Miles, who pronounced him insane. He was taken to the asylum.

A Rebel Victory.

Corroborating the report of the United Press correspondent, Colonel Caesar Canales telegraphed Colonel Castula Herra, at Juarez, today that the rebels had taken Mapimi Sunday, capturing Raoul Madero, brother of the president.
