Dr. Mendelsohn's Glasses Give the Best Results. Guaranteed Satisfactory in Every Respect. WHEN YOU ARE SICK. It doesn't take a good doctor to tell you that--most anybody could do that much, but to tell exactly the nature of the disease sometimes calls for the utmost skill of the physician. Most anybody by a few simple tests could tell that your eyesight was defective and that you needed glasses of some kind, but to diagnose the exact trouble and fit the right glasses, calls for more than ordinary skill. We have made that one thing a lifetime study and we are in business to bring wrong eyes and right glasses together. High-class work at the lowest possible prices. DR. M. P. MENDELSSOHN, Doctor of Optics, Located in the United States National Bank Building.
