Iowa and Oregon—

A recent arrival from Afton, Iowa, received a photograph of a mail carrier stuck in the deep snowdrifts in March near that place. The Iowa man and his family had their picture taken under a mangalia tree in full bloom at the Oregon State Capital, and the Board of Trade has the two pictures on an advertising card. A lady suggests following inscription: "Now is the winter of our discontent, made glorious mummery by removing to Oregon."

Sunday Afternoon Fire—

Sunday afternoon the fire department was called to the United States National bank building to extinguish a fire which had caught in one of the awnings on the south side of the building. The department made a quick run to the scene of the fire, but it had been put out before the boys arrived by the use of a garden hose. The fire was caused probably by some one carelessly throwing a cigar or cigarette stub from one of the windows, or possibly a match. Part of the awning was burned away, but no other damage was done.

Swedish Leader Coming—

The Rev. Dr. J. R. Andrews, superintendent of the Swedish Methodist church work on the Pacific coast, will arrive in Salem, together with the pastor, Rev. John Oval, next Wednesday, May 22. In the evening he will be entertained by the Board of Trade and in the afternoon by the Swedish people, at Mr. Donaldson's residence, 548 South Fourteenth street, and will preach in the evening at the Swedish Methodist church, corner of South Fifteenth and Mill streets, at 8 p. m. Rev. Mr. Andrews is one of the leading Scandinavian ministers in the West, and his visit to Salem will be of great import to the city.

Fine Rainfall Monday—

At 9:30 o'clock the heaviest rain of the season fell on Salem and the immediate vicinity. The shower lasted for about 15 minutes, during which time .35 of an inch of rain fell. The storm, which was not accompanied by any wind, seemed to be heavier across the river, but no damage has been reported. The streets of the city were thoroughly flushed, which is the first thorough flushing the streets have had for several weeks. The filthy condition of the streets on Sunday was demonstrated again yesterday. On account of the lack of proper flushing and cleaning there was a great deal of dust and rubbish on the streets and in the gutters, which is a great detriment to the otherwise attractive features of the city. The gutters, in places, were filled to overflowing by the heavy fall of rain, but it soon flowed away when the rain ceased.

New Railroad Bridge—

During the past week a good deal of progress has been made on the new railroad bridge to be constructed across the river at the foot of Union street. Construction work began on the opposite side of the river about one week ago and has gone forward at a good pace. All the cabins, bunk-houses and mess-houses are completed, as well as about one-eighth mile of temporary track. There is a pile-driver on the ground and at work. They have a large steam shovel and derrick on the grounds as well as three or four donkey engines and a large number of steam pumps, besides bridge material of all kinds. There are about 30 men at work there now which will be gradually increased as the work goes forward.

Front Street Payment—

L. O. Herrold will commence laying concrete on Front street Wednesday morning. He represents the Bi-Concrete Paving & Cement Co.

Important Meeting—

There will be an important meeting of committees at the Board of Trade rooms at 8 o'clock this, Monday, evening, to make arrangements for the Cherry Fair and Manufacturers' Exposition.

The Parker Studio—

Has over 12,000 registered negatives. It may interest you to know that they will make a dozen post cards from any of them for 75c, if ordered before June 1. You can't buy post cards at the Parker studio after June 1, however, as on that date they will discontinue this branch of the work. If you want post cards get in your orders at once.

Briggs Still Laid Up—

E. L. Briggs, a Grand Army man, who was seriously injured by the collapsing of a scaffold at Nineteenth and State streets about two months ago, is still in the hospital. He is improving slowly, but it will be some time before he will be able to be around. When the scaffold fell he struck his foot in such a manner as to break the bones just above the foot. Both the tibia and fibula were broken, one of which protruded through the flesh. The tibia was splintered for a distance of about 10 inches above the break, which is the cause of his slow recovery.

Remains of Frank Wicke—

The body of Frank Wicke, who died in Portland May 19, 1912, of tuberculosis, will arrive at the Rigdon & Richardson undertaking establishment on the 6 o'clock train over the Oregon Electric for burial here. The funeral will be held from St. Joseph's Catholic church at 9:30 a. m. tomorrow. Mr. Wicke was about 33 years of age. His father died several years ago. His mother is still alive, and there are several brothers and sisters surviving. The family formerly lived in this city, and resided just north of the Grant school. They have many friends here, who will regret to learn of the untimely death of the young man.
