GOVERNOR JOHNSON. (Continued from Page 1.)

Los Angeles, Cal., May 22.—Assistant United States District Attorney Dudley Robinson, who is directing the federal grand jury investigation here of the activities of the Industrial Workers of the World, stated today that he has received a letter advising him to conduct the probe impartially and to end it as soon as possible offering the alternative of being "numbered among the missing." The letter was signed "a rebel."

Although Robinson regards the communication as the possible work of a practical joker, it has been turned over to the police, and it was intimated that the aid of secret service operatives may be asked to find its author. The federal grand jury will renew its probe tomorrow, when several citizens of San Diego will appear as witnesses. Sacramento, Cal., May 23.—Governor Johnson was highly pleased today with the news that the San Diego vigilantes had concluded to disband

before Attorney General Webb should begin his work of enforcing the laws in the southern city. "I believe," he said, "that the situation will naturally clear up. I understand that the attorney general in person will be able to deal with conditions there." He was much interested in the endorsement given his action by the great majority of the press of the state, particularly in view of the hostility of these papers to himself on every public issue since the beginning of his campaign two years ago. When Tenbrook was called to the stand he said that prior to coming here he was a carpenter in Oakland, but is running a hand laundry here. He said he was at the police station at the time of the trouble and was standing outside the station when Detective Shepherd arrived with Attorney Moore who was arrested on a detention charge, but was soon released when he turned over a revolver. Judge Lewis allowed Moore to ask the witness: "What was Mr. Porter's reply to a question asked by somebody as we passed?" Tenbrook said: "Some one asked: 'Which is the slimy son of a b—?' and Mr. Porter said: 'That is them; right there.'"

CENTER ST. FRANCHISE VETOED

In reference to the railroad franchise and the action taken Monday night by the city council in passing an ordinance allowing the Portland, Eugene & Eastern railway to take up their track on Center street, providing the railroad company will pave the eight-foot strip occupied at present by their track, it now develops that, from what this paper is able to learn from a conversation with the mayor, that he will veto the present ordinance. The mayor states that if the track is removed that the cost of paving should fall on the abutting property, and should not be borne by the railroad company, and that he will not be a party to forcing any such injustice upon the railroad company. Paving on that street has reached such a stage that, unless the matter is speedily adjusted, the E. W. Geiger Construction company will begin tomorrow to pave alongside the track, putting in headers at the sides of the track. The sentiment along the street seems to be to oppose the taking up of the track, but this objection would be largely eliminated if the railroad company would pave that part of the street. To the mayor this is an injustice that he is not in favor of imposing upon the company. BARRROW TRIAL EXCITING. (Continued from page 1.)

caused by Judge Hutton upon the challenge of the defense after the prosecution had developed that Conn would not accept the court's instructions in the case of an accomplice's testimony being viewed with distrust. John W. Lawson was the next spokesman called. Rogers made an attempt to disqualify spokesman H. S. Calahan when the case was resumed this afternoon. Calahan, however, maintained that he would be a fair juror, and Rogers was obliged to use his last peremptory challenge. In answer to a report that Detective William J. Burns was on the way to Los Angeles to testify for the prosecution in the Darrow case, District Attorney Fredericks stated will grant the witness immunity," said Moore with a smile. "Counsel knows whether he would incriminate himself or not." A ripple of laughter went around the room. Judge Lewis then held that it was the best rule of evidence to go into the testimony of what concerned Porter first, and that later the question might be permissible. He ruled it out for the present. Court then adjourned until tomorrow

to the United Press this afternoon: "That is only a guess. I don't know whether Mr. Burns is coming, so, of course, I cannot say that he will testify in this case." HOW BLOOD IS MADE.

The liquids and the digested foods in the alimentary canal pass through the wall of the canal into the blood. This process is called absorption and takes place chiefly from the small intestine. After absorption the blood carries the food through the body, and each cell takes from the blood the food it needs. A pure glyceric extract made from Bloodroot, mandrake, stomach, queen's root and golden seal and sold by druggists for the past forty years under the name of Dr. Pierce's Golden Medical Discovery, gives uniformly excellent results as a tonic to help in the assimilation of the food and in the absorption by the blood of the food it requires. Eradicate the poisons from the blood with this alternative extract which does not shrink the white blood corpuscles, because containing no alcohol or other injurious ingredients. Thus the body can be built up—strong to resist disease. This is a tonic taken from Nature's garden that builds up those weakened by disease. Dr. Pierce, founder of the Invalids' Hotel at Buffalo, N. Y., has received many letters similar to the following: Mr. F. R. Munro, of Paradise, N. D., writes: "I take great pleasure in writing you as regards my case and its cure. In September I was taken with Typhoid Fever, which put me in a dreadful condition. I was weak, ran down, nervous and soon reduced to a mere skeleton. I had tried most everything I could get but nothing did me any good until last, I was advised to try Dr. Pierce's Golden Medical Discovery, and 'Pleasant Pellets,' which I did. Before I had used one bottle I saw a great improvement and when I had used this treatment two months, many only a few weeks of 'Pleasant Pellets,' I returned to perfect health. I cannot find words to express my thankfulness for this wonderful medicine. I advise all sufferers to write to Dr. R. V. Pierce, as he cures when others fail."

REBELLION GAINS IN MEXICO

At the Rebel Front, Rollano, Mex., May 23.—With General Pascual Orozco, the rebel commander in chief, leading his forces in battle, the revolutionary army this afternoon was a little more than holding its own against General Huerta and his federal troops. Time and again the government troops hurtled themselves against the rebels in an attempt to rout them from their position but the rebel line held firm. Finally General Huerta attempted a flank movement from the hills east of here, but this failed of its purpose and the main column of Huerta's army fell back. Shortly before noon General J. J. Campos, of the rebel force, captured two federal cannon and one machine gun from Huerta's column on the left. General Orozco's men are putting up a stubborn resistance, and it is now considered doubtful if General Huerta will be able to drive them from their present position.

For Women Who Care

Of course you use an antiseptic in your family and in the care of your own person, and you want the best. Instead of what you have been using such as liquid or tablet antiseptics or peroxide, won't you please try Paxtine, a concentrated antiseptic powder to be dissolved in water as needed. Paxtine is more economical, more cleansing, more germicidal and more healing than anything you ever used. Paxtine ANTISEPTIC In the toilet—to cleanse and whiten the teeth, remove tartar and prevent decay. To disinfect the mouth, destroy disease germs, and purify the breath. To keep artificial teeth and bridgework clean and odorless. To remove nicotine from the teeth and purify the breath after smoking. To eradicate perspiration odors by sponge bathing. As a medicinal agent for local treatment of feminine ills where pelvic catarrh, inflammation and ulceration exist, nothing equals hot douches of Paxtine. For ten years the Lydia E. Pinkham Med. Co. has been regularly advising their patients to use it because of its extraordinary cleansing, healing and germicidal power. For this purpose alone Paxtine is worth its weight in gold. Also for nasal catarrh, sore throat, inflamed eyes, cuts and wounds. All druggists, 25 and 50 cents a box. Trial box and testimony of 31 women free on request. THE PAXTON TOILET CO., BOSTON, MASS.
