STANFORD STUDENTS VISIT CITY

Four Stanford boys passed through the city today in a Locomobile. T. Sanborn at the wheel. They left Stanford University nine days ago, but have been delayed considerably by the bad weather of the past few days. Their names are: H. L. Hubbard, V. W. Winters, T. Sanborn and G. H. Beuhrans. The boys are enthusiastic over their school and carried a Stanford pennant as evidence of their faith in the school. They left at noon for Portland, and from there will proceed by auto to Spokane.

DURBIN WAS ON TOP HALF THE TIME

Friends of Frank Durbin are familiar with his habits when his motor car sticks in a mudhole, of setting the wheels to spinning, and then getting out and giving it a lift with one of his broad shoulders. He did this yesterday out on Howell Prairie, but in trying to jump in and get control of the steering gear he missed his footing, and the car started off without him. It went through a board fence, started across a plowed field, where he finally overtook it after a red hot chase. He got back into the highway with no damage done except that he was pretty badly winded.

Auto Hits Bicycle.

E. L. Harris, while driving an automobile this morning, collided with Harold White, who was riding a bicycle. White was going west on Court street at the corner of High, when Harris, who was going north on High, collided with his bicycle and damaged it considerably. White was on the north side of the street close to a sand pile and in some way, which the driver cannot account for, the auto ran to the north side of the street as he tried to turn east on Court street. The bicycle was badly smashed but no one was hurt. It is understood that Mr. Harris will make the loss good to the boy, who is about 15 years of age.

BACKACHE NOT A DISEASE

But a Symptom, a Danger Signal Which Every Woman Should Heed.

Backache is a symptom of organic weakness or derangement. If you have backache don't neglect it. To get permanent relief you must reach the root of the trouble. Read about Mrs. Woodall's experience.

Morton's Gap, Kentucky.—"I suffered two years with female disorders, my health was very bad and I had a continual backache which was simply awful. I could not stand on my feet long enough to cook a meal's victuals without my back nearly killing me, and I would have such dragging sensations I could hardly bear it. I had soreness in each side, could not stand tight clothing, and was irregular. I was completely run down. On advice I took Lydia E. Pinkham's Vegetable Compound and an enjoying good health. It is now more than two years and I have not had an ache or pain since. I do all my own work, washing and everything, and never have backache any more. I think your medicine is grand and I praise it to all my neighbors. If you think my testimony will help others you may publish it."—Mrs. OLLIE WOODALL, Morton's Gap, Kentucky.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

There is nothing "just as good" as Newbro's Herpicide. Some dealers will even go so far as to tell you they have something better.

That dealer has an ax to grind. You can't stop his grinding, but you can prevent him grinding it at your expense.

There is one sure, swift way to do it.

Go where you can get what you ask for. You won't be obliged to do this very often, as fortunately the majority of druggists are honest and conscientious.

Newbro's Herpicide has been so long and favorably known as the original dandruff germ destroyer that no one should be deceived.

Newbro's Herpicide in 50c and \$1 sizes is sold by all dealers who guarantee it to do all that is claimed. If you are not satisfied, your money will be refunded.

Applications of this wonderful prophylactic may be obtained at the best barber shops and hair dressing parlors.

Of the Finest Gas Range in the World
The New Idea

At Buren & Hamilton's Store during the week beginning Monday, June 3

The way to judge a gas range is to see one in actual use. This opportunity will be given you during the week beginning Monday June 3, when we will have with us an expert in gas range cooking, who will be pleased to show you how to get the best results in any kind of cooking on a gas stove.

Some exclusive features of the New Idea are

High Oven, which does away with stooping.

Mica Oven Door, which enables you to see your baking all the time, and does away with the necessity of opening the door until the baking is done.

White Enameled Broiling Pans, sanitary and easily cleaned.

White Enameled Dirt Trays. Things will spill and boil over, but the mess is easily and quickly removed if you use a New Idea.

The New Idea never needs blacking, and never rusts. Besides the perfect fire enamel finish on the body, the inside of the ovens and the burners are coated with a special preparation of aluminum and mica.

The burners are constructed to burn the largest possible amount of air, consequently gas bills are materially reduced.

If you need anything in the gas appliance line, range, hot plate or water heaters, it will pay you to visit our gas department.
