## NO COMPROMISE ON DARK HORSE.

All the standpatter organs are talking about a dark horse and compromise for president. Alone and single-handed Roosevelt has licked the stand-patters, the federal office holders, the bosses and the machines to a standstill, and has control of the national convention.

The machine rested its hopes on the national committee naming the chairman of the convention, and deciding the contested delegations, and thus giving the majority to Taft. Roosevelt has expressed a willingness to let them name the chairman of the convention, and then beat them in the convention.

Now they are alarmed lest Roosevelt goes into the convention himself and takes an open hand in the making of the ticket. Deceived and disappointed in Taft and his administration, progressive Republicans, looking for higher standards of public service, and a keener appreciation of civic righteousness, demand a new deal and Republicanism that does not face backwards.

Roosevelt will be a factor in the convention, whether he is there in person or not. Roosevelt will be the only person named in the national Republican convention.

Roosevelt will nominate his own running mate for vice-president, and who will be president of the senate. He will not allow a reactionary to be made president of the American house of lords.

Roosevelt will write the Republican national platform, and it will not be a mass of platitudes. It will mean something to the American people and the college student and the cowboy will have equal enjoyment of its contents.

The millionaire and the laborer will stand exactly upon the same platform, and that platform will be Roosevelt Republicanism. So all talk of compromise and dark horses is the chatter of retiring legions of machine politicians—not of the people.

## THE LAW IS NOT BEING ENFORCED.

A Salem paper publishes the statement of Attorney-General Crawford in defence of the charges that the gross earnings corporation tax law is not being enforced.

The simple fact remains, that the gross earnings tax is not being collected. The simple fact remains that a gross earnings tax that would have brought into the state treasury a round million dollars the past four years has not been enforced.

That million dollars had to be taken out of the pockets of the taxpayers, and was left in the pockets of the corporations that have evaded paying the money.

The legal department of the state has brought some suits that are in the interest of the state, but does not claim that this gross earnings tax is being collected.

The plain fact in this gross earnings tax law is that it was enacted by the people and is being nullified by officials.

If the official or officials could be located and the blame fixed, he or they should be recalled.

It is unusual for a newspaper to call in question or criticize anything that any official does or does not do and this is not a personal criticism of Mr. Crawford.

The attorney-general admits that no effort has been made to collect gross earnings taxes, except for 1906 and 1907, and no official has made a fight to enforce this law.

He does not deny that by general connivance of officialism the gross earnings tax initiated by the granges, has been virtually nullified, and is not being enforced.

He claims that his department has collected \$325,000 and enriched the state to that amount.

As part of this he claims \$250,000 for new fishing grounds recovered in the suit over the boundary lines with Washington.

The sum that has really been paid on the gross earnings tax is \$64,464.49.

It looks as if that had been paid on a compromise for two years, and on condition that the law be not enforced.

## THE WEAKNESS OF STANDPATISM.

The standpatter in politics is to be pitied. Standpatism is only synonymous for political stupidity. He does not keep in touch with the masses of the people. He accepts the dictum of bosses, whose brains, as a rule, are atrophied by desire for plunder.

The standpatter is a case of arrested development. Ideas are not the basis of his activities. He is moved in politics only by his appetite for spoils.

The standpatter has not much more conception of anyone being animated by a principle than a totem-pole. He can see nothing in a political campaign, but an opportunity to get official profits.

That the masses of the people might have a concept of righteousness in connection with public affairs is beyond his comprehension.

So the standpatter goes blindly on seeking power by sharp practices, and gaining advantage by overreaching the people.

## \* X-RAYS AND SMILES.

Emma Goldman hurled a couple of anarchistic verbal bombs at audiences of about 300 in Portland yesterday. Unfortunately no one was killed.

It is rather paradoxical, Emma Goldman and Dr. Reftman, appealing to the law to protect them, when they neither believe in any laws.

A gang of perfectly chaste men of Ocean City, Maryland, observed "Decorations Day" by dipping Mrs. Mary Hojman in a barrel of tar, because she did not come up to their standard, morally. The decorations, however, were a success, and so probably will be the suit the woman will bring for damages.

At the "Spinsters' Convention" held in Kansas City, Friday, the national anthem, or dirge, or whatever it was, was "No One Loves Me." When an agent selling the "Elixir of Life" appeared, the convention broke up enthusiastically.

It makes one smile to read that the Mexican government is inventing I. W. W. troubles. Under present conditions the I. W. W. might be some improvement on the alleged Mexican government.

# FERRY BOAT AT STAYTON JUMPS JOB

### CABLE PARTS WHILE IT IS IN MIDSTREAM BUT IT SWINGS ASHORE UNTIL PASSENGERS GET OFF, THEN TAKES A HIKE

The old Stayton ferry made its last journey across the river at 2:30 yesterday morning, and its passing was an incident that might well have ended in tragedy. When nearing the Linn county side, with the ferryman, five passengers and a team of horses on board, the line connecting the ferry with the overhead cable snapped, and the boat drifted helplessly down stream.

Had it not fortunately hugged the shore, a more serious accident than the loss of the boat might have occurred. W. E. Hawkins, the ferryman, states that the cable, which broke, had been weak for some time. The passengers on the boat were a party of Mt. Pleasant young folks returning from the dance in Sublimity, and included Ed. Russe, Carrie Gleier, Anton and Agatha Minton, and Joe Lulay.

In speaking of the accident, Cap. Hawkins ascribes it partly to the weakness of the cable, which had to the rise of the river, which had gone up about 10 inches during the day. He states that the boat was fully three-fourths of the way across when the line broke. Hawkins was at the wheel at the time, and the force of the snap threw him several feet across the deck, besides severely wrenching his hand and wrist.

Fortunately for those on board, the current tended to take the boat nearer shore, and in spite of much whirling, the party managed to get ashore with the team at a shallow point 200 yards down stream. The boat sped swiftly away, and disappeared in the darkness. The passengers continued on their way home, entirely safe, though badly scared.

It was found that the old boat had drifted too far downstream to make her return practicable, and a portion of the bridge crew were at once set to work on a new ferry. This craft will be 46x16 feet, and will require several days to be up in shape for use. In the meanwhile a small row-boat is doing service between the two counties.

This is the steepest this spring that Stayton has been cut off from Linn, and it is not a pleasant situation. It is to be hoped that the speedy erection of a temporary bridge will be possible.—Stayton Mail.

The story was told to Salem residents.

Time has strengthened the evidence.

Has proven the cure permanent.

The testimony is home testimony—The proof convincing.

It can be investigated by Salem residents.

F. A. Sutton, Hoyt and West streets Salem, Ore., says: "For 10 or 12 years kidney trouble was the plague of my life. I suffered intensely from pain in the small of the back and was often unable to move. I doctored and tried a number of remedies but to no avail, and I was in a bad way when I procured Doan's Kidney Pills at Dr. Stone's Drug Store. They benefited me at once and after I had taken the contents of three boxes, I was free from every symptom of kidney complaint. My health is now of the best and for that reason I cannot recommend Doan's Kidney Pills too highly." (Statement given January 31, 1906.)

## Re-Indorsement.

On November 23, 1909, Mr. Sutton confirmed his former statement saying: "I willingly reiterate all I have previously said in favor of Doan's Kidney Pills. This remedy cured me three years ago and I have had no return attack of kidney trouble."
