

SENATORS DEFEATED THE GRAYS

SCORE 14 TO 5—BIG CROWD BUT A RATHER MONOTONOUS GAME—HAUSER BROTHERS' TEAM DEFEATED THE WOODBURN BOYS 12 TO 6.

By a score of 14 to 5 the Salem Senators defeated the Columbus Grays yesterday on the local field. The first half of the game was pretty fast, but the last half became monotonous. Townsend, for the visitors, pitched good ball in the fore part of the game, but appeared to weaken about the fifth inning, when he was superceded by other pitchers, there being three in the entire game. Baker pitched good ball, but his support was not up to the average. Jones was easily the star of the locals, with Keene doing good work at shortstop. Keene is one of the newest players, and gives promise of making good. In the sixth inning the score was tied at 5 to 5, but Salem made four scores in the seventh and five in the eighth. Cohen shortstop and Newman, catcher, did good work for the visiting team. Baker struck out 11 of the visiting team, while the Portland pitches succeeded in fanning but five of the local men.

Yesterday saw the largest crowd that has been in attendance so far this season, and Manager Baker is much encouraged over the gate receipts. The street car service was good, and it now seems assured that the balance of the season will see even larger crowds.

A matched game has been fixed for next Sunday on the local field between the Senators and the Archer-Wiggles team of Portland.

Hauser Bros. team went to West Woodburn yesterday, where they defeated a team from that place by a score of 12 to 6. The locals played a good, stiff game, but our boys were too much for them.

Each age of our lives has its joys. Old people should be happy, and they will be if Chamberlain's Tablets are taken to strengthen the digestion and keep the bowels regular. These tablets are mild and gentle in their action and especially suitable for people of middle age and older. For sale by all dealers.

Children Cry FOR FLETCHER'S CASTORIA

THE OPEN FORUM

The Capital Journal invites public discussion in this department—Let both sides of all matters be fully brought out—it is not the purpose of this newspaper to do the thinking for its readers.

Cause of Delay.

Ed. Journal: You have not explained the real cause of the delay in electing a high school principal, which I understand to be as follows: A petition was handed into the board of education protesting against the election of Mr. Kirk as principal of the high school. No notice was taken of it by the board, and no reference has ever been made to it by the newspapers, although I understand there are on this protest the names of many of the most prominent business men of the city. This has been suppressed, but is the real reason for breaking into the program of Lafky, Millard and Holt, who are understood to be pledged to re-elect Mr. Kirk and fire powers, Schreiber and Fargo, the latter three for no good reason whatever, except that they are distasteful to Mr. Kirk.

Reviewing Mr. Lafky.

Ed. Journal: Are not the people getting tired of the Lafky regime of the school board? That gentleman, backed by Messrs. Millard and Holt, is doing more to demoralize the Salem public schools than all the good that has been done for years. At the meeting week before last, Mr. Lafky coolly told the rest of the board that he would be several weeks making up his mind who should be principal of the high school. Out of hundreds of applicants, he said, there was not one that was worthy consideration. He also said he had so many important "mattahs" before him in connection with the city government that he could not get around to consider such a petty thing as high school principal. The selection of a principal is put over for another week or ten days, until Lafky can correspond further "with Eastern persons." When Chairman Moores suggested a special meeting, Mr. Lafky said it would take eight or ten days for him to get informed, and so he would not consent. Lafky and Millard are this "special teachers' committee. By their invention another supervisor has been created—a supervisor of janitors. Of course, he will have to have an additional salary. The Lafky program included the removal, after humiliation, of City Superintendent Powers, a man who, in six years' connection with our city schools, earned the respect and good will of every parent, teacher and child in this community, a man

against whom no one on the school board or off could ever say a word reflecting on his standing as an educator, or his character as a man and a gentleman. To force him out, the Lafky campaign was to ignore him and put all power in the hands of Principal Kirk, and shove Kirk in over Powers' head. This campaign included humiliation and punishment of Prof. Fargo and Prof. Schreiber, because they were manly enough to stand by City Superintendent Powers, who was their superior and head of the Salem schools. Last year all salaries were raised but Prof. Schreiber's. He is well known to be the most competent drawing teacher and art instructor on the Pacific coast, but not truculent and willing to see wrong done anywhere. He was twice chosen member of the student body executive committee, and would stand for no crooked work or violation of the constitution, so the Lafky regime must fire that kind of a man. His ability and his conduct as a man all count for nothing—the fact that his co-workers respect him and the high school students swear by George L. Schreiber—all count for nothing with the Lafky faction. He and Fargo must be fired, because they are friends of Mr. Powers, who has done nothing for which he is even criticized. As a result of Lafky's activities in our city we have some bad pavements, higher taxes in city and school affairs than ever before, and turmoil and demoralization all the time. I am in favor of electing some man like A. A. Lee to the school board and put an end to this whole farce.

Proprietary Medicines.
are usually the result of the wholesale preparation of some mothers' recipe or doctor's prescription which has been found especially successful in relieving the ailments for which it is prepared, and which has stood the test of time.
Such is Lydia E. Pinkham's Vegetable Compound, originally prepared from roots and herbs for female ills by Lydia E. Pinkham of Lynn, Mass. For nearly 40 years it has proven a great benefactor to the women of America in relieving female diseases of every nature. Its wonderful success proves its merit.

Stock should not be allowed to drink surface or pond water.
