PLAYGROUNDS FOR THE CHILDREN.

There are every summer hundreds of children left in the city who do not get a vacation or outing of any kind. The idea of a public playground, or a number of them, under proper control and direction is a good one. There are a half dozen fine sites for such playgrounds in this city, and they should be utilized. Far more important than a curfew law or any other device to improve morals are playgrounds. Intelligently directed playing of children, that teaches them moral qualities, makes better citizens. We expend too much energy correcting bad conditions, and not enough making for better condition. The time has come for more intelligent direction of the natural energies of childhood.

CLERKS TO DO NOTHING.

A man who is a candidate for the legislature was solicited the other day for a clerkship in the legislature. He told the party in so many words that he did not expect to have any occasion to employ a clerk. He said he was not being asked by his constituents to introduce any bills, and he would have no work for a clerk. He did not expect to vote to pass any bills but the absolutely necessary appropriation bills. The average legislator has no more occasion for clerks than he has for a set of angel wings. To many young persons legislative clerkships come as the free gift from on high—a morocco pocketbook with \$200 in it. To young people without a legislative pull the opportunity of a lifetime has to be worked for—it does not come in half-morocco binding with a golden clasp. It would be a God-send to the people if legislators did not introduce bills until two-thirds of the people petitioned them to do so. They would never introduce any, and they would have no need of clerks, and they would not demoralize young people with unearned graft.

JUDGE LINDSAY'S LATEST VINDICATION.

The Denver election of last week furnishes further proof of the Democratic idea belief that the evils of popular government have their roots, not in any inefficiency, immorality or indifference of the people, but in the undemocratic contrivances with which it has been customary to harness Democracy to the plutocratic chariots. Ever since Judge Lindsay discovered the plutocratic beast in the Denver jungle, and didn't keep quiet about it, the beast has been after him with claws unsheathed. He has defeated them more than once, and now, under especially difficult conditions he has defeated them again. With the Evans-Guggenheim-Speer-Demo-Republican bi-partisan machine set to crush him, he was re-elected by 25,000 majority. Nor is that all of it. The big business crowd was swept away by a plurality of over 20,000 for the other citizen candidates, a clean majority of 10,000 over all. Naturally the Denver news dispatches have been quiet about the results of this election. If it had gone the other way the din of it would echo yet. But the important thing is not the news of victory, but the victory itself; and the most important phase of that is its further assurance that the people are capable of self-government when they have even so much as a poor chance to work it.

X-RAYS AND SMILES.

Advertising agents in Portland yesterday gave away hundreds of small sample boxes of pills, handing them to the children at the houses, and the young folks, finding that they were sugar coated, ate them. There are some irate mothers in Portland today, and some children who will remain at home until later.

He Fired the Reds.

Santa Monica, Cal., June 6.—The police are searching for a man who has an inborn grudge against beds. Six feathery couches in J. Clark's lodging house were set on fire within an hour last night. Clark can't explain.

Made No Mistake.

Modesto, Cal., June 6.—There's going to be no mistake about this job," said Robert Phonstall. He swallowed poison, set fire to his hay loft, shot himself through the head, and lay down on the hay to die. He did.

Prohibits Free Lunch.

Los Angeles, Cal., June 6.—There is sadness along the Rialto today, for Councilman Toppam is demanding that the city government prohibit free lunch. The saloon men are with him, too. Final action was deferred.

Wonderful Cures Reported in Germany.

The use of simple herbs as remedies instead of the more concentrated and usually more dangerous inorganic substances, has been revived very widely of late. In Germany a new school of physicians has arisen which throws out almost a whole of the pharmacopoeia and relies on an adaptation of the method of wild animals in curing themselves. . . . N. Y. World.

It was Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute of Buffalo, N. Y., who first advocated the extended use of some of our native roots, such as: Golden seal and Oregon grape root, madsrake and queen's root, black cherry bark. These are the chief ingredients in Doctore Pierce's Golden Medical Discovery, which has been so well and favorably known for nearly half a century. A harmless cleanser and stomach tonic that nature has provided.

J. DONALD MATTHESON of Oshing, N. Y. says: "I suffered for over five years with what the doctors told me was dilated condition of stomach, associated with a enteric condition of some, and nervous heart. I had tried enough mix. hiemuth, gentian, rhubarb, etc., to float a ship and naturally thought there was no cure for me, but after reading who eminent doctors said of the curative qualities of the ingredients of 'Golden Medical Discovery' I gave it a fair trial. Took the 'Discovery' and also the 'Pleasant Tablets' and can truthfully say I am feeling better now than I have in years. I cheerfully give permission to print this testimonial, and if any 'doubtful Thomas' writes me I will 'put him wise' so the best all-around medicine in the country today."

A BILLION IN BANKS OF CHICAGO

NINETEEN OF THEM HAVE DEPOSITS ABOVE TEN MILLIONS EACH AND THEY RANGE FROM THAT UP TO AS HIGH AS \$170,000,000.

Although the deposits of Chicago banks now exceed a billion dollars, no central power is seen to control as one is alleged to do in New York. Of the 70 state and national banks, 19 have deposits of \$10,000,000 and more each, ranging from that figure up to and above \$170,000,000. The growth of the west is shown in the fact that bank deposits increased 112 per cent during 1910 and capital expanded 164 per cent. The surplus and undivided profits show an increase of 160 per cent. Several of the biggest banks have affiliated with the large banks of New York but there are still others, among which The National Bank of the Republic is cited as a notable example which are entirely independent of eastern interests and hold to a policy of encouraging western development with western money. Progress is being made in the movement to curtail the number of private banks which report to neither state nor federal authorities and in many cases, have been found to be empty shams and not properly banks at all.

SEATING CAPACITY OF COLISEUM

Chicago, June 6.—The seating capacity of the great Coliseum in Chicago has been increased for the national Republican convention that will open on June 18 and which promises to be the most notable since Civil War times in the crowds assembled and in the keenness of the contest. There will be seats for 11,189 and, for those who can elude the policemen there also are the trusses and girders where during conventions of less interested men have taken their chances with bluecoats and the jaw of gravitation to hear and see from lofty perches. The day that the building was turned over to Sergeant-at-Arms William F. Stone, hundreds of men were set to work under direction of an architect who had designed the seating arrangement and the work begun on the necessary changes and construction. Everything will be in readiness it is said, by June 14, with the windows of seats filling the main floor and the balcony. The new arrangement makes provision for seating delegates and others as follows:
Delegates' seats 1078
Alternate seats 1078
Press seats 400
Guests, main floor 3500
Guests, balcony 3200
Platform 1932
It is of peculiar interest that there will be witnessed the Roosevelt-Taft convention under the same roof as sheltered the convention four years ago where Taft was the avowed candidate of Roosevelt. Since that time many notable events have taken place in the Coliseum, national conventions and expositions that have attracted people, and wonderful exhibits from many lands including land shows which did much to stimulate the "back to the farm" movement expositions of office supplies, automobiles, electrical devices and of many other things. Annually it has been the scene of another important event the opening of the circus season where the new "turns" were put on to hold the small boy in parental subjection.

ST. JOHN TO CONTEST ITS WATER RATES

St. John, claiming its water rates are too high, is making an estimate of the actual value of the plant, and intends to make the price of water such as to bring only fair returns on the amount invested. The move will be watched with considerable interest, as many other cities and towns in the state feel that water rates are unnecessarily high. The matter will be taken to the supreme court, say the St. Johns officials, if it is necessary, in order to settle the city's rights to establish the rates.

Pendleton wants the machinery from the Panama canal, when it is completed, put in the Columbia, and that creek opened to the north line of the United States.
Sutherland farmers are planting lots of vegetable which will be handled by a company, by the recently discovered "Keepfresh" method.

A Skin of Beauty is a Joy Forever

DR. T. FELIX GOURAUP'S ORIENTAL CREAM OR MAGICAL BEAUTIFIER

Remove Tan, Pimples, Freckles, Moth, Patch, Black, and White Heads, and every blemish on beauty, and do so in a few days. It has stood the test of 50 years, and is so harmless we take it to be a secret to beauty is secretly made. Accept no imitations of similar name. Dr. L. A. Sigre said to a lady of the London (G. patent): "As you ladies will use them, 'Gouraud's Cream' is the best cosmetic of the skin preparation." For sale by all druggists and Fine Goods Dealers in the United States, Canada and Europe. FERG. T. HOPKINS, Prop., 37 Great Jones Street, New York.

HOW ENGLISH BEAUTIES KEEP FACES YOUTHFUL

Christian Miller F. C. I., noted English health expert, attributes the early aging of American women mainly to the "national nervousness." The women of England she says, can teach us the inestimable lesson of repose.
Another valuable lesson to be learned from the English woman is that she does not go in much for cosmetics, the continual use of which must ruin any complexion. The beauty devotees of King George's realm have the mercerized wax habit, a more wholesome method of keeping the face girlish-looking and healthy. Ordinarily mercerized wax, used like cold cream rejuvenates the worn complexion. American women may easily acquire the habit, this wax being obtainable at drugstore generally in the United States. It is applied at night and washed off in the morning. One ounce is sufficient to completely renovate a bad complexion. It has a peculiar action in keeping the face free from the particles of dead and devitalized scarf skin which are constantly appearing. —Woman's Herald.

NEWPORT PLANS HOLIDAY.

Albany and Corvallis Delegations With Governor Will Be Guests.
Newport, Ore., June 6.—June 20 will be observed as a holiday by Newport citizens, in the event of a business men's excursion from the Albany and Corvallis Commercial Clubs and the presence of Governor West, as now planned.
At a meeting of the Newport Commercial Club it was decided to have the few remaining Siletz Indian chiefs present their unique feather dance. The Siletz Indian baseball team will play Newport, and there will be races, including a squaw horse race, a drill by the lifesaving crew, and a clam-bake.
In the evening there will be a banquet tendered to the visitors.

PRUNES

We have one of the finest large prune orchard propositions to be found at only
\$90 PER ACRE
of which there are 24 acres of orchard with 16 acres
BEARING
The whole place is 155 acres, of which over 50 acres are under plow. Balance in pasture and a lot of **GOOD TIMBER**
