FULL LEASED WIRE TELEGRAPH REPORT

MAKE GROUNDLESS COMPLAINTS.

The ladies of the Salem Humane Society have been caused a great deal of annoyance and useless work by thoughtless or irresponsible persons who, for unknown reasons, phone complaints to them which, when investigated, prove groundless.

The ladies who are caring for this work in Salem deserve great credit, for they are laboring under many difficulties, and do not receive the hearty support they should.

In the larger cities, such as Portland, the Humane Society is a powerful organization and prevents untold suffering among the dumb animals that are unable to help themselves.

Strange as it may seem, cruelty to animals is much more prevalent in the smaller towns and in the country than in the large cities.

There are probably two good reasons for this. The city man knows that it pays to have his stock in good shape.

He also knows that a case of cruelty will be reported to the Humane Society, and that the action resulting therefrom will give him publicity which is not of the best character, to say the least.

Let us hope that unscrupulous persons will not further annoy our local ladies, who are doing so much to organize a strong Humane Society in Salem.

SCHOOL REFORMS.

Commenting on increasing nervousness and mental disorders in the public schools, a writer in the Boston Medical and Surgical Journal states that the prevention of these disorders calls loudly for reform.

He makes a number of suggestions along the line of reform which are worthy of consideration by teachers and school authorities.

Among these are: (1) The abolition of all competitive work; (2) of all rewards for excellence in school work or attendance; (3) elimination of special examinations for promotion; (4) the making of promotion solely dependent upon the capacity shown by the individual child; (5) elimination of a fixed standard of grades for arbitrarily fixed ages; (6) elimination of all report cards sent to parents; (7) abolition of commendatory or laudatory certificates and the substitution thereof of personal contact with the parents and the home; (8) in certain cases the institution of special instruction in very small classes; (9) the abolition of afternoon sessions for all grades below the fifth, or the entire devotion of the afternoon session to educative play without restraint; (10) the assignment of the easiest studies for the afternoon sessions for all grades from the fifth upward; (11) the reduction of the time during which the concentration of the attention of the pupils is required for any one subject; (12) the abolition of home lessons requiring mere abstract reasoning or routine memory.

BUTTER PRODUCTION.

There were 1,620,766,000 pounds of butter, valued at \$405,000,000 produced on farms and factories in the United States during the census year 1909.

Of the grand total reported, the quantity produced on farms was 996,001,000 pounds, valued at \$225,544,000.

Factories produced 624,765,000 pounds, valued at \$179,510,000.

Butter manufactured by farmers' co-operative creameries is included in the figures for factories.

Among the states, Wisconsin ranked first in total production, with 131,049,000 pounds, valued at \$36,628,000.

It was first also with 103,885,000 pounds valued at \$29,547,000 produced in factories.

The difference between the figures given, which is 27,165,000 pounds valued at \$7,081,000 represents Wisconsin's farm production.

In total production Iowa ranked second, Minnesota third, Pennsylvania fourth, Michigan fifth, Ohio sixth, Illinois seventh, New York eighth and Texas ninth.

Texas, Ohio, Pennsylvania, Michigan, Illinois and Indiana show a much greater farm production than factory output, and rank in the order written.

Minnesota, Iowa and New York, in the order named, rank after Wisconsin in showing a factory production much larger than credited to their farms.

One by one the doubts as to women's competence to take an active part in politics are being dissipated. For instance at the meeting of the county central committee of the woman's party of Illinois at Chicago, the police had to be called to restore order.

It's just awful the way the profit is being knocked out of politics. Now they say that the hard-working members of election boards must pay their taxes before they can have their pay vouchers cashed.

THE ROUND-UP

Lebanon is having a three-day straw berry fair. "Yesterday, today and tomorrow."

The Pacific Coast Nurserymen's Association, ending its session in Salt Lake, announcing yesterday, elected Albert Brownell, of Portland, president and selected Portland for next year's meeting.

At the meeting of the representatives of the livestock exchanges in Portland next week, firms that in the aggregate represent \$1,500,000,000 will be represented.

You Can Get Rid of Stomach Trouble in Short Order If You Will Use a Little Cooper's New Discovery

Your stomach is your best friend or your worst enemy, as you prefer. To have good health, it is absolutely necessary to have a good stomach. If your stomach is out of order, bad health must necessarily follow. The American people of today neglect their stomachs. They eat too fast, work too fast, live too fast and are generally a bunch of nerves. Something gives way, generally the stomach. Then follows nervousness, indigestion, kidney or stomach trouble

THE RIGHT MAN KILLED THIS TIME

[UNITED PRESS LEASED WIRE.] Budapest, June 7.—After a vain attempt to assassinate Count Tisza, the Hungarian premier, in the chamber of deputies, M. Kovacs, an opposition deputy fired two bullets through his own brain, dying instantly.

Kovacs and his assistants were excluded from the chamber May 31, following an election riot. It is believed that he brooded over the humiliation until his mind became affected.

Kovacs suddenly entered the correspondents box today and fired three times at Count Tisza, but his bullets went wide of the mark. Tisza remained perfectly calm under the fire, and did not even leave his seat.

LOUIS HILL ROASTED GRABBERS

PAID A HIGH TRIBUTE TO THE HOME SEEKER, BUT GAVE THE LAND GRABBERS, WHO HE BLAMES FOR KEEPING SETTLERS AWAY, ROAST.

Seattle, June 7.—Today promises to be the most important, as well as the most interesting of the four-day session of the Northwest Development Congress. Besides an address by Governor Edwin L. Norris, of Montana, W. J. Kerr, president of the Oregon Agricultural College, and President S. R. L. Penrose, of Whitman College, the election of officers and the adoption of resolutions are on the program.

Louis W. Hill, of the Great Northern railway, took land speculators to task in his speech last night. He paid a high tribute to the home seeker and declared that the growth of Washington and Oregon has been retarded because land grabbers have kept the real builders away.

Members of the Women's Commercial Club of Seattle have arranged a big flower show in honor of the visiting delegates.

Thirty-Third Annual Session of Portland, Oregon, Classis.

The Portland, Oregon, classis of the Reformed church in the United States met Thursday evening in the German Reformed church, Capitol and Marion streets. After the opening services, conducted by the retiring officers, Rev. Wm. Lienkamper, of Salem, was elected president; Rev. E. Wyss, Portland, vice-president; Rev. G. Ulrich, Wilsonville, stated clerk; Rev. P. Schild, Quincy, Wash, corresponding secretary.

The reading of the annual reports, submitted by the pastors, shows a healthy growth of the various churches. Four new churches and five parsonages were built during the past year. The members of the classis (conference) were pleased to note that the church at Salem, which for a number of years had suffered losses, is looking forward to a bright and useful future.

The title to the property, corner of Capitol and Marion streets, had been disputed. Since the courts have settled all doubts as to the property, home seekers from the East, who are members of the Reformed church have settled at or near Salem.

Several substantial families have followed Rev. Lienkamper to Salem, and the old, as well as the new, members are rejoicing that his efficient services have been secured for this community.

There will be services of divine worship Thursday and Friday evenings at 8 o'clock, Sunday at 10:45 a. m. and 2:30 p. m. Business sessions will continue during Friday and Saturday.

Man Coughs and Breaks Ribs.

After a frightful coughing spell a man in Nesham, Wis., felt bad pains in his side and his doctor found two ribs had been broken. What agony Dr. King's New Discovery would have saved him. A few teaspoonfuls ends a late cough, while persistent use routs obstinate coughs, expels stubborn colds or heats weak, sore lungs. "I feel sure it's a God-send to humanity," writes Mrs. Effie Morton, Columbia, Mo., "for I believe I would have consumption today, if I had not used this great remedy." It's guaranteed to satisfy, and you can get a free trial bottle or 50 cent or \$1.00 size at J. C. Perry's.

It was 93 in the shade at Portland Thursday at 5 p. m.

X-RAYS AND SMILES.

E. W. Muller, a music dealer, of Klamath Falls, is accused of forgery. A warrant has been issued for his arrest, but he is in the unknown elsewhere.

Victor Rosewater has been chosen chairman of the Republican national committee. His picture in the Oregonian indicates he is properly named for it is a weak, perfumed, darling sort of face, though he may deceive his looks—and name. John Darling did.

The reliability of statistics is demonstrated by a census of apple trees in the United States by states recently issued. This shows that Oregon has not as many apple trees in bearing in 1910 as there were in 1900, when, in fact, its number has been doubled. A smart statistician, with a handy lead pencil, can reach conclusions, and prove them correct, that the common, everyday fool of a citizen would never realize without their enlightening aid.

Dallas city dads have ordered the business streets of the city given a coating of crude oil. You can tell a Dallas man by the smell hereafter.

Federal Judge Waddill, of a Virginia district, has decided that a newspaper can print and send through the mails anything, no matter how objectionable, if it is part of the testimony in a law suit, but the judge tersely suggests that editors with good taste will use a decent discrimination.

Milwaukee will have a big meeting next Wednesday to discuss schools, school building, purchase of school grounds, and also the purchase of the local water plant. That meeting should be a real live one, and produce some good stories for the wide-awake reporter.

Each age of our lives has its joys. Old people should be happy, and they will be if Chamberlain's Tablets are taken to strengthen the digestion and keep the bowels regular. These tablets are mild and gentle in their action and especially suitable for people of middle age and older. For sale by all dealers.
