FULL LEASED WIRE TELEGRAPH REPORT

GET READY FOR THE ANNUAL EVENT.

The annual Cherry Fair is the local and social event of the Capital City and surrounding country.
This year there will be the additional attraction of a big Marion county manufacturers' exposition at the armory.
The Cherry Fair will be the largest ever held in the city, and will bring large excursions from the Elks' national grand lodge. The railroads have all made special rates and are advertising the annual Cherry Fair all over the state at reduced rates.
It is the duty of every business man to contribute to the success of this fair with money and co-operation on committees.
It is the duty of every family to make arrangements to be in the city on that date, and help entertain visitors.
It should be made the annual home-coming day, when we invite our relatives and friends to come to Salem and see us at our best.
There will be additional attractions this year, and Salem and the cherry region of the world will be looking their best.

THE FIGHT FOR HOME LABOR.

On Saturday night, in this city, there will be another street meeting to continue the fight for home labor.
These meetings are not held by Socialists or I. W. W.'s, or any political faction or party.
They are the protest of resident laborers, teamsters and mechanics at bringing into this city too much alien and non-resident labor.
The home laborer, with a family, a home, or board bill and store bills to pay finds himself discriminated against by the city and by contractors.
There is more patriotism in a home payroll than in all the political grand standing on earth.
There is a great deal of real Christianity in giving a man a chance to live like a Christian, by having employment at good wages.
The home contractor who employs resident laborers is a public benefactor, and is likely to give the city a good piece of work.
This is a fight for a just cause and the city government will do well to pay some attention to the demands of workingmen.

HELP GET THAT INDUSTRY.

The Salem Board of Trade has given full endorsement to the proposed location of the Northwest Stove Works in this city.
The plant will have a larger field for the product than ever before, as it will be operated with free labor.
There was twelve hundred dollars subscribed voluntarily at the first Board of Trade meeting towards the subsidy.
This subsidy of five thousand dollars will be spent immediately in erecting the buildings needed for the plant.
Messrs. Lowenberg undertake to raise the money to buy the plant and the capital required to operate it.
It will take about fifty thousand dollars to buy the plant, move and install it, and operate it for a year.
They have shown their faith in putting ten dollars into this enterprise for one dollar asked of the city of Salem.
Every dollar given will be turned over and over in this city, will be expended immediately for labor and material.
Every business man and property owner who wants to see this city prosper and have payrolls should help this fund.

MR. LEE FOR SCHOOL DIRECTOR.

Substantial citizens are interesting themselves in bringing out A. A. Lee for school director.
Mr. Lee has served on the school board, and the people all know what he stands for in school matters.
When he was on the school board there were no competent teachers discharged for personal or political reasons.
School houses were built without big bond issues, debts were paid off, and taxes were one-half what they are at present.
Mr. Lee had no enemies to punish or friends to reward in the administration of the public schools.
Some such man as Mr. Lee should be elected, and restore the decent way of conducting schools.

WHY THE WILLAMETTE IS FORGING AHEAD.

The spirit of friendliness that exists between cities of the Willamette valley and well illustrated by the visit of the Albany men to Eugene Tuesday.
Albany is planning to celebrate at the same time the coming of the Oregon Electric and the Fourth of July.
A delegation of her people visited Eugene to deliver in person an invitation to come and take part.
This friendly spirit will help the Willamette valley to realize its ambitions.
It will help to make the Willamette valley more attractive to those who visit it to see whether they want to make their homes here or not.

Petty jealousy will never attract either population or capital. The cities of the Willamette valley have a common interest—the development of the whole territory.
Settling up the Willamette valley and developing its resources will benefit every city.
Friendly co-operation will hasten the development.
The above is from the Eugene Register.
Then follows this sensible comment from the Medford Sun: Very true, neighbor.
And if Jackson county and the Rogue river valley want to grow and prosper they must forget their jealousies and narrow animosities and consider that whatever benefits one section benefits all.
Just as long as incidents like the present threatened injunction brought by Benton Bowers and E. D. Briggs, of Ashland, is possible, so long will the Rogue river valley be forced to forego its proper destiny.
Spokane was built up in the Inland Empire of Washington by the spirit of co-operation and loyalty throughout that part of the state.
No communities with a common interest ever profited by internal dissensions.
The Rogue river valley must learn this truth, and act upon it.

BRINGS SUIT TO ACQUIRE TITLE

U. S. Rider has begun suit against C. L. Parmenter, in which he seeks to acquire title to lot 1, block 2, North being notified by Parmenter that the contract had been canceled, and so he alleges, purchased this property that he must pay rent for the premises from one C. S. Riegsacker, when it becomes necessary to acquire a loan of amounting to \$26.35, and now brings \$1000, which he did from Mr. Parmenter, the defendant in the suit. He has tendered full payment of the amount due. Mr. Rider lives on the plot, instead of drawing up a mortgage in question.

CANADA IS DEMANDING MANY CARS

Chicago, June 12.—Car equipment orders, now looked upon as an index of business conditions have poured into Chicago at a great rate during recent months, but reports show that most of these are orders for railroads in Canada the era of extension and new construction there having swamped the car and locomotive shops of the Dominion. To keep pace with the great addition of new mileage the equipment orders have furnished tremendous business to the factories. The new lines of the Grand Trunk Pacific in western Canada increased by ten miles per day during May and during the summer months the construction will be approximately 120 miles of new track each week. The orders for cars and locomotives have been in wholesale quantities, a car and foundry company of Chicago having been called upon for 250 refrigerator cars and 250 automobile steel under-frame cars in one order for 1000 freight cars which are to be completed at the rate of 25 per day. A train load of dump cars, work cars and other equipment was sent out by a Chicago railway contractor on the National Transcontinental and the second train load is to include a large crane, two powerful locomotives and 37 dump cars, all required by the pressure for the completion of the line to handle the bumper crop which is expected this year in the western province. The new construction has meant business also for manufacturers of other equipment than rolling stock. One order was for six 200-ton mechanical coaling plants with sand houses and track approaches. Enormous new car shops at Transcona, Manitoba, have been completed by the Grand Trunk Pacific, and other Canadian roads are making extraordinary provisions for repairs and building of the equipment that is in urgent demand.

*** X-RAYS AND SMILES.**

What's in a name? The Oregon Agricultural College graduated 118 students this week and 27, or about 23 per cent, will take up agriculture.

There is always someone to take anything or position that even savors of public office. There are even men willing to take the nomination for the vice presidency on the prohibition ticket.

The weather man, Beals, at Portland, turned over the job of hounding the skies to a deputy, while he went east, and the deputy let the mother get away for a minute or two, while he spit on his hands to get hold of the job. It is hoped he has a good grip on it for the balance of the week, for everybody wants to see the big Portland show.

In the humble opinion of the horse editor, Francis J. Heney's efforts for Roosevelt will cost the latter many friends. Heney has a host of enemies who hate him bad enough to also hate any one he endorses.

Albany has a family, four generations in it, and living peaceably together in one house. Evidently not Republicans.

W. S. U'Ren, the constitutional doctor, is worried because his last dose, intended as a cathartic, is operating on the Oregon voter as an emetic. He and other doctors are consulting, diagnosing and concocting a new remedy, which will probably also get the common voter.

HEALTH OFFICER'S REPORT FOR MAY

The report of State Health officer J. O. Van Winkle for the month of May is just completed, showing that during the month all of the smallpox throughout the county has been eradicated. There have been a few cases in a mild form in Salem, which are about well now. All of the contagious diseases have been handled remarkably well, there being no spread of them.
The report shows the number of births in the county to be 22, of which 12 are males and 10 females. The number of deaths in the county for the month is 41, 20 males, 11 females, and 10 at the state institutions.
The smallpox, of which there was six cases, was nothing more than varicella. There were three cases of scarletina and three of measles in the county during the month.

TEAM RAN AWAY AND SMASHED WAGON

Mr. Jesse Wilson, who is working for Mr. A. T. Wain, three miles south of Liberty, had a narrow escape from being injured Monday evening, when the team he was driving became frightened and ran away. They crashed through a board fence, smashing the wagon to pieces. Neither one of the horses was injured, and as Mr. Wilson jumped from the wagon before it overturned, there was no damage done, except to the wagon.

Terrible Suffering

Eczema All Over Baby's Body.
"When my baby was four months old his face broke out with eczema, and at sixteen months of age, his face, hands and arms were in a dreadful state. The eczema spread all over his body. We had to put a mask or cloth over his face and tie up his hands. Finally we gave him Hood's Sarsaparilla and in a few months he was entirely cured. Today he is a healthy boy." Mrs. Inez Lewis, Bering, Maine.
Hood's Sarsaparilla cures blood diseases and builds up the system. Get it today in usual liquid form or chocolate tablets called Sarsatabs.

Real Estate Transactions.

Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.
F. J. CHENEY & CO., Props., Toledo Ohio.
Sold by druggists, price 75c.
Take Hall's Family Pills for constipation.
Gilliam Sherman and Morrow county this year expect to produce 5,000,000 bushels of wheat.

Man Coughs and Breaks Ribs.

After a frightful coughing spell a man in Neenah, Wis., felt bad pains in his side and his doctor found two ribs had been broken. What agony Dr. King's New Discovery would have saved him. A few teaspoonfuls ends a late cough, while persistent use routs obstinate coughs, expels stubborn colds or heals weak, sore lungs. "I feel sure it's a God-send to humanity," writes Mrs. Effie Morton, Columbia, Mo., "for I believe I would have consumed today, if I had not used this great remedy." It's guaranteed to satisfy, and you can get a free trial bottle or 50 cent or \$1.00 size at J. C. Perry's.

Waldo Hills

We have one of the finest 45-acre Waldo Hill farms just one-half mile from small town with railroad, stores, good school, etc. This place has new five room house, large new barn, est kind of well erected wire fencing. There are about 10 acres of young fruit trees in and balance hay and grain except a few acres of good timber and pasture. Fine large spring rises on place. Good team, wagon, farm implements, etc., go with place. Only eight miles from Salem. This is a splendid opportunity at \$6,500.

E. Hofer & Sons INVESTMENTS

213 S. Commercial Street.
