FULL LEASED WIRE TELEGRAPH REPORT

INDEPENDENT TAXPAYERS' MOVEMENT.

There is to be held at Woodburn today an independent taxpayers' convention to put up a county ticket.

Undoubtedly the people have a right to do this, and should do it to protect themselves from graft.

Marion county has stood for high ideals in public affairs, and still taxes have gone up abominably.

But it should be remembered the last legislature was run by a Portland man in the senate and a Wallowa man in the house.

The Portland crowd of reformers named the Wallowa man speaker, and they dictated and controlled his administration of affairs.

The Marion county delegation had nothing to say in either department of the state legislature, and the governor was a Democrat.

There are undoubtedly a few men on the Republican legislative and county ticket who could be improved on and possibly be defeated.

With one weak man on each ticket, legislative and county, there is room for a scrap, and it is worth while to try to get better men.

The state of Oregon is loaded with a choice lot of commissions that could be weeded out to advantage to the taxpayer.

The Capital Journal will point out some of these matters in course of the campaign, and hopes something can be done.

SUMMARY OF SENATOR BOURNE'S PARCEL POST BILL

Postal rates on parcels vary with distance, thus protecting local merchants and competing with express companies:

Third and fourth classes of matter are combined.

A special rate of one cent an ounce up to four ounces is provided for circulars and small packages of goods.

Rates are as follows:

Local, city and rural delivery only, 5 cents for the first pound and one cent for each additional pound.

Within 50-mile zone, 6 cents for first pound and 2 cents for each additional pound.

Within 200-mile zone, 7 cents for first pound and 3 cents for each additional pound.

Within 500-mile zone, 8 cents for the first pound and 4 cents for each additional pound.

Within 1000-mile zone, 11 cents for the first pound and 7 cents for each additional pound.

Within 2000-mile zone, 12 cents for the first pound and 10 cents for each additional pound.

Outside 2000-mile zone 12 cents for the first pound and 12 cents for each additional pound.

These rates are based upon a careful computation of the actual cost of collecting, distributing and delivering packages, plus actual cost of transportation.

Weight limit 11 pounds, and maximum charge 12 cents—the international limit and rate.

UNBECOMING JUDICIAL CONDUCT.

There are several displays of unbecoming conduct on the part of judges cropping out in Oregon from time to time.

In Portland judges have a habit of making crowns of themselves by presiding at some mock trial held by lodges.

While this is apparently harmless, it has a tendency to lower the courts in public respect, and make a farce of justice.

In another part of the state a judge has been known, after a trial, to go with one of the plaintiffs and hear more testimony.

On top of this the custom of taking entertainment at the homes of parties to a suit or counsel is a growing evil.

It was a rule of Ben Butler's life not to be left alone anywhere with a woman, not even in the hallway of a hotel.

That was his rule as a public official, and it is just as true in principle in the conduct of judges.

A judge should be free to meet all kinds of people in his open, public court room or at public gatherings.

But accepting hospitality or traveling about privately with litigants is a dangerous custom.

DESCHUTES RIVER ONE OF MOST WONDERFUL IN WORLD

That there is some truth in the statement that the Deschutes river is the most wonderful stream in the world, is the opinion of State Engineer Lewis upon his return from a 10 days' trip covering its entire drainage basin.

"Building is active in most of the Crook county towns, and many acres are being cleared and put in crop for the first time," said Engineer Town.

"Perhaps the greatest area being cleared is along Squaw Creek, near Sisters, as a result of the recent adjudication of water rights by the board of control. Those having incomplete rights must put the water to use this fall or it will revert to the new appropriators who are eagerly awaiting the chance of using such water. The recent rain has

given to the dry farming sections a prosperous look, and the building of the North Canal diversion of concrete and steel insures the irrigated section near Bend a reliable water supply.

"This present development is nothing when compared with the possibilities for future development.

"The Deschutes river at Benham Falls, has a mean annual discharge of 1,320,000 acre-feet of water, as shown by eight years records. The minimum year furnished 1,070,000 acre feet, so that it is safe to say that there is available at this point for irrigation purpose, one million acre feet of water. This will irrigate 333,000 acres of land or a strip one mile wide, and 329 miles long.

"The regular flow will ultimately

irrigate about 120,000 acres between Bend and the Crooked River. Every drop of the remaining water can and should be stored for irrigation purposes through the construction of a 60-foot dam at Benham Falls. This could be released in the summer and diverted near Cline Falls for the irrigation of 110,000 acres on Agency Plain, for the irrigation of 60,000 acres in the Crooked River bottom near Prineville, and by diverting above Bend, irrigating 50,000 acres in the Benham Falls segregation just south of Prineville. Except for an inverted siphon across Crooked River Canyon, there are no great engineering difficulties to be overcome, and it appears that this is one of the cheapest projects in the state to construct.

"The entire flow at the head of the river can be used for the irrigation of about 60,000 acres of land above the Benham Falls reservoir without affecting these figures as the seepage will all be collected in the reservoir below.

"Between Benham Falls, and Cline Falls, there is 1390 feet fall. About 60 per cent of the one million acre feet of water will be discharged through the dam for irrigation purposes during July and August, and will be available for the development of power which can be transmitted economically two to four hundred miles for the pumping of water to irrigate other lands say along the Columbia river. This water at a 100 foot drop immediately below the dam will furnish 56,500 horsepower, which at 50 per cent plant efficiency, will lift 2500 second feet, 100 feet above the Columbia river, for the irrigation of 200,000 acres of land. There is another fall of 100 feet a short distance below and above the first diversion for irrigation, and the amount of summer power which can be developed in the 1300 feet fall to the last diversion at Cline Falls is almost inconceivable.

"The farmers between Squaw Creek and the Metolius river have a surveying party in the field locating a seven mile canal from the head of Metolius river, and it is expected that a one-half mile tunnel will pierce the ridge and permit the irrigation of 30,000 to 50,000 acres in this section. This canal, constructed for irrigation purposes, would make available about 25,000 horse power which can be developed during the winter months only, but which if used in conjunction with the summer power on the Deschutes, would make a valuable and cheap perennial power.

"For the greatest good to the greatest number, the Deschutes river between Cline Falls and the junction with Crooked river, should be dried up, except for seepage water. Below this point, the river is of most value for power, and the total possible diversions for irrigation without considering return seepage, would not materially affect its value for this purpose, but with return seepage may improve the power value of the lower river.

"Sixteen dam sites have been located in the narrow rock-walled canyon from the Columbia river to just below the junction of the Metolius with the Deschutes river. With 4000 second-feet at the 1300 feet of fall which can be developed at these sites, 600,000 theoretical horse power can be generated. With the low and high year flow equalized at the Benham Falls reservoir and with a 120-foot dam in the Crooked river about 40 miles from Prineville, this low water flow can be increased to about 6000 second-feet, and the power to nearly 900,000 horse power. This is about six times the present installed steam and hydro-electric machine capacity in the vicinity of Portland, and about 40 times the low water power development at Oregon City. Besides this, an enormous quantity of power can be developed on the Metolius river, and at other points.

"These possibilities could be greatly complicated by development at the wrong time and place, and if carried out under our present wasteful system of competition, the expense to the public will be greatly increased through lack of harmony between plants. After a number of dams have been constructed for power development, the most economical development of additional power would be by increased flow through storage.

"The above information, though preliminary, has been gathered by the state, and the U. S. Geological Survey, acting in co-operation. A complete report will be available early next year. This stream affords a striking example, where to secure the highest, most logical and orderly development, the entire stream should be turned over to one corporation subject to regulation, or else developed by the public as the need arises. To promote the immediate and best use of this stream is one of the problems which should receive careful consideration at the hands of the state legislature."

Pinked the Ice man.
(UNITED PRESS LEASED WIRE.)
Los Angeles, Cal., June 12.—Because friends who watched him weigh a piece of ice he purchased told him he was an easy mark, John Vashlik punctured ice man Pete Lyon's anatomy with an ice pick. Assault with a deadly weapon is the charge.

What is known as nervous prostration in the human family, is known as fits in cats.

So ired of Tired Feet! Use TIZ

Gets the "Tired" Out in a Few Minutes—Makes Your Feet Sore-proof.

"O fudge! It's awful how tired feet make you feel tired all over—so dead tired. Then, when you've got a corn besides, and a bunion, and a few blisters, you don't care if you've got a million dollars—you're tired.

"Pull, Johnny, Pull!"

that's all. A million dollars can't help you, any more than 25 cents will."

A quarter buys a box of Tiz—a wonder for tired, sore, tender, chafed, blistered, swollen, sweaty, smelly feet, corns, callouses and bunions, chilblains and frostbite. The moment you use it, you give a sigh of relief, and then you smile. There's nothing as good as Tiz, so don't accept any attempted imitations. Tiz draws out all the poisonous exudations that make foot troubles.

Tiz, 25 cents a box, sold everywhere, or sent direct, on receipt of price, by Walter Luther Dodge & Co., Chicago, Ill. Recommended by all drug stores, department and general stores.

* X-RAYS AND SMILES. *

Detective Burns ought to be back in Chicago, or some place else, with Heney. It is really a waste of decency to disgrace two localities with them when they might both be confined in one. Neither would add anything to the toughness of any place occupied by the other.

It would be really too bad if Governor West should wipe out the Oregon naval militia. It is the only really active warlike body in Oregon. It fights all the time.

Taft seems to be getting his full share of the contested delegates—and Roosevelt's share, too.

George Wingfield, the Goldfield millionaire, has been appointed United States senator from Nevada by Governor Oddie. Wingfield is a clever, energetic man, and the only objection to him is that he is a millionaire, added to the millionaires' club.

Portland advertises a water display as a feature of the Rose Show tonight. With present weather conditions, this should be a great success.

The steam roller is making a smooth road for Taft's nomination, but there will be plenty of chuck holes left to bother him in the race afterwards.

Lillian Russell is married again. And this time it is Moore. As she is in New York and the happy and brave husband in Chicago, the divorce proceedings will be somewhat delayed.

Lillian Russell's husband, being an editor, has considerable discretion. As a peaceful honeymoon he chose the Chicago national Republican convention, in preference to spending it with Lillian.

DON'T GET RUN DOWN
Weak and miserable. If you have kidney or bladder trouble, dull head pains, dizziness, nervousness, pain in the back, and feel tired all over, get a package of Mother Gray's AROMATIC-LEAF, the pleasant herb cure. It never fails. We have many testimonials from grateful people who have used this wonderful remedy. As a regulator it has no equal. Ask for Mother Gray's AROMATIC-LEAF at drugstore or sent by mail for 50c. Sample FREE. Address: The Mother Gray Co., Le Roy, N. Y.

The minute I hear a woman's voice, I can tell whether she wants to vote or not.

Children Cry FOR FLETCHER'S CASTORIA

Waldo Hills

We have one of the finest 45-acre Waldo Hill farms just one-half mile from small town with railroad, stores, good school, etc. This place has new five room house, large new barn, cut kind of well erected wire fencing. There are about 10 acres of young fruit trees in and balance hay and grain except a few acres of good timber and pasture. Fine large wagon, farm implements, etc., go with place. Only eight miles from Salem. This is a splendid opportunity at \$6,500.

Want Old Gun Returned.
(UNITED PRESS LEASED WIRE.)
Ottawa, Ont., June 12.—Colonel Sem Hughes, minister of militia and defense, has received a request from the Bunker Hill monument association, that the old gun carried at Bunker Hill in 1776 by the English

and now resting on the citadel at Quebec, be returned.

There is no real need of anyone being troubled with constipation. Chamberlain's Tablets will cause an agreeable movement of the bowels without any unpleasant effect. Give them a trial. For sale by all dealers.

SAVE YOURSELF

There is no reason why you should always be a slave.

If you are desirous of saving yourself or a friend from a drunkard's grave, you cannot afford to overlook the opportunity offered at the Hot Lake Sanatorium for the cure of the liquor and drug habit. Hot Lake mineral baths prepare the body for the treatment and then soothe the nerves and actually remove the desire for the liquor or drug. Hundreds of happy homes in Oregon and Washington today bear witness to the efficiency of the Hot Lake treatment. One week will in most cases effect a cure. Sometimes longer is required, but not often. The best of care is given the patients. For full information, address

Hot Lake Sanatorium, Hot Lake, Oregon

HAPPY THO' MARRIED?
There are unhappy married lives, but a large percentage of these unhappy homes are due to the illness of the wife, mother or daughter. The feelings of nervousness, the befogged mind, the ill-temper, the pale and wrinkled face, hollow and circled eyes, result most often from those disorders peculiar to women. For the woman to be happy and good-looking she must naturally have good health. Dragging-down feelings, hysteria, hot-flashes or constantly returning pains and aches—are too great a drain upon a woman's vitality and strength. Dr. Pierce's Favorite Prescription restores weak and sick women to sound health by regulating and correcting the local disorders which are generally responsible for the above distressing symptoms.
"I suffered greatly for a number of years and for the past three years was so bad that life was a misery to me," writes Mrs. R. F. Dickinson, of Utica, Ohio, Route 4. "The doctors told me I would have to go to a hospital before I would ever be better. A year ago this winter and spring I was worse than ever before. At each period I suffered like one in torment. I am the mother of six children. I was so bad for five months that I knew something must be done, so I wrote to Dr. R. V. Pierce, telling him as nearly as I could how I suffered. He outlined a course of treatment which I followed to the letter. I took two bottles of 'Favorite Prescription' and one of 'Golden Medical Discovery' and a fifty-cent bottle of 'Smart-Weed,' and have never suffered much since. I wish I could tell every suffering woman the world over what a boon Dr. Pierce's medicines are. There is no use wasting time and money doctoring with anything else or any one else."
The Medical Adviser by R. V. Pierce, M. D., Buffalo, N. Y., answers hosts of delicate questions about every woman, single or married ought to know. Sent free on receipt of 31 stamps to pay for wrapping and mailing only.
