

Modern Living Causes Sickness

The stomach is the most important organ of the body. The entire system depends upon its action. The stomach of a man or woman living a shut-in life from day to day, riding to and from business and taking little or no exercise in the fresh air, cannot digest the amount of food that is forced upon it. The stomach gradually grows weaker under these conditions and nervousness, kidney and liver troubles, rheumatism and other ailments are the result.

COOPER'S NEW DISCOVERY tones up the stomach, cleanses the system, regulates the digestive organs and gives nature a chance—this is the secret of health.

Spring Medicine

Every one needs a Spring medicine—a medicine that will drive all impurities out of the system. Thick, clogged, impure blood makes one tired, dopey and dull.

The blood needs to be purified in the Spring more than at any other season of the year. A real Spring medicine will cleanse the blood, making it rich, red and healthy.

COOPER'S NEW DISCOVERY will prevent Spring fever, drive away that tired, lazy, half-sick feeling and make you more cheerful, lively and buoyant. It is a pure herbal preparation—Nature's own remedy.

Many thousands of persons testify to the merit of

Cooper's New Discovery

In the treatment of stomach trouble, indigestion, loss of appetite, lack of strength, rheumatism, catarrh and kidney and liver troubles.

TERRIBLE CONDITIONS IN ALASKA

[UNITED PRESS LEASED WIRE.] Cordova, Alaska, June 13.—Wireless messages received yesterday from the revenue cutter Manning, in Kodiak harbor, and from the Alaska Packers' association fishing stations at Karluk, Chignik and Naknek, said that there has been no report of loss of life on the island.

No word has been received from the settlements on the main land at the foot of Katmai volcano, where the greatest suffering exists, if any of the people of that section survived the eruption.

Captain Kireland W. Perry, of the Manning, reported no more eruptions have occurred, and the air is slowly clearing of the smoke and ash, the returning light revealing in great degree the real horrors and devastation wrought by the outburst of the fiery mountain.

Ash 20 to 30 Feet Deep.

The refugees who were aboard the Manning have regained a certain amount of confidence with the return of normal conditions in the air, and are leaving the ship to endeavor to reach their former homes, which lie in ruins. The people on the island have found it difficult to make their way about, the ash in some places being 20 to 30 feet deep.

Nearly all the houses are in ruins, and those that withstood the attack of the hail of ash and stone are uninhabitable, because of the fine silt which drifted through every crevice, making useless the stores of food and clothing.

The wharf at Kodiak, at which the Manning has been lying, was kept reasonably free of ash by constantly playing the cutter's fire hose. Only a small place was cleared, and the roads are virtually impassable.

Food Problem Serious.

The problem of feeding the destitute people is a serious one. Efforts are being made to reach the government experimental farm near Kodiak, which was stocked with a large herd of imported cattle and sheep, which, if found in fit condition, will be used for food.

The only water the people at Kodiak are using is that distilled from sea water by the Manning, all other supplies being useless because of pollution.

At the fishing stations of Karluk, Chignik and Naknek, no loss of life

occurred, but great damage was done by the fall of ashes. Preparations were made at the fishing stations to take all aboard the cannery tenders and seek safety at sea, but the people have decided to stay near their properties as long as conditions are endurable.

MRS. MOORE FOUND BOY AFTER A YEAR

[UNITED PRESS LEASED WIRE.] Portland, Ore., June 13.—After more than a year's search, Mrs. Anna Moore today found her 9-year-old boy, Jack, whom she alleges her husband John Moore, kidnaped from their San Francisco home in May, 1911.

Mrs. Moore learned Jack was in Portland a few days ago when she read in the Portland Journal that the juvenile authorities here had taken charge of him, it being alleged that his father had beaten him.

Mrs. Moore, who makes her living selling sandwiches in the San Francisco streets, came to Portland as soon as she could. Jack says his father brought him to Portland, and told him to say his mother died in San Francisco. The story made some doubt that Mrs. Moore was right in her belief that Jack was her boy. All doubts were dispelled, however, when the two met in the Journal office today.

Mrs. Moore and Jack will leave for San Francisco tomorrow night.

THE STRIKE AT LOS ANGELES STARTS TODAY

Los Angeles, Cal., June 13.—Contractors employing union labor exclusively will not be affected by the impending strike of all craftsmen allied with the Building Trades Council, according to a statement today by Secretary Mooney.

"Our strike has the single object of enforcing the union card in Los Angeles," Mooney declared. "Many contractors are aiding us in this work by employing union men only. Therefore, it would be obviously unfair to them to call out their men."

Mooney or other union officials refused to state the hour on which the men would be called out. He refused to discuss a report that the strike is ordered for noon today, admitting, however, that the men will go out before night.

DEMANDS THAT JUDGE HANFORD BE IMPEACHED

Seattle, Wash., June 13.—Without a dissenting voice the Seattle Labor council last night adopted resolutions urging that "congress immediately take up the investigation demanded by the impeachment charges," against Judge C. H. Hanford, to the end that western Washington be rid of a judge who has proven himself morally and temperamentally unfit for the position.

The preamble recites that "the charges presented bear out the common knowledge of the decisions and personal habits of said C. H. Hanford, district judge," and that "his decision revoking the citizenship papers of Leonard Olsson because of his membership in the Socialist party abridges the right guaranteed every citizen of foreign nativity."

HOBBLE SKIRT DETRIMENT.

New Jersey Women Fear They Will Have to Forego Fiction-Reading. Belleville, N. J., June 13.—Women here assert that they will either have to renounce the hobble skirt or give up fiction reading unless the library board makes radical changes in the book arrangement.

The trouble is that the fiction shelves in the new Carnegie Memorial are too low for the hobbled women. They go to the library and roam around among the alcoves, only to find the most desired books in the most inaccessible places.

A suggestion has been made that the fiction and the books on sociology changed places, but the catalogs have all been made up, calling for the fiction volumes on the low shelves. It is also against library tradition to put fiction in a more prominent place than heavier works. The fad is growing for heavy reading, the authorities say, and the librarians must cater to it.

Bids Invited on Fuel.

Notice is hereby given that the common council of the city of Salem, Oregon, will entertain sealed bids for supplying the city with fuel for its public buildings. Said bids will be received on coal, slab wood and cord wood and will be opened in open council meeting on June 24, 1912. Detailed information as to quantities and requirements will be furnished by the city recorder. The city reserves the right to reject any and all bids, and to waive irregularities in the same in favor of the city.

DELAY JOURNEY FOR BETTER WEATHER

Mr. and Mrs. F. A. Young and family, of Collins Hot Springs, Washington, are in the city. They are on their way from Corvallis to Portland, by auto, but on account of the rain and slippery condition of the roads, they are waiting here until better conditions prevail. Their two sons graduated at the State Agricultural college recently. Mr. Young was proprietor of the Collins Hot Springs about two years, but sold them to Col. Belcher, who still owns the springs.

NEW YORK YACHT CLUB OPENS RACING SEASON

[UNITED PRESS LEASED WIRE.] New York, June 13.—The New York Yacht club opened its racing season—today with the annual regatta at Glen Cove. Other events on the program include the race for the Glen Cove cup July 6; the annual cruise August 7, and the races for the Astor and Kings cups off Newport, R. I., the following week. The season will close with the races for the Sound cups off Huntington, September 5, and the race for the autumn cup at Glen Cove the following day.
