Stockton

IF YOU EASE UP YOUR STOMACH YOU WILL FEEL FINE IMMEDIATELY

You don't have to deny your stomach anything it craves, that is if your stomach is as it should be. You will not feel the slightest effect of indigestion or will you have to fear that your food will ferment or sour on your stomach.

If you will take Cooper's New Discovery—before each meal—it will ease up your stomach and make you feel fine. Eat what you please and feel satisfied that your stomach will stand what you eat.

It matters not what you believe may all you, if you are continually

having sick headaches, sluggish mind, bad taste in the mouth, belching, dizziness, poor digestion, souring of food, a lax and sluggish feeling, if when you get up in the morning you feel just as tired as when you went to bed, then it is a case of a bad stomach. Don't delay but go to your druggist, and get a bottle of Cooper's New Discovery, take three doses—one before each meal—and if you don't think its the best medicine you have ever used, your money will be refunded. After taking a full bottle you will feel like a new person. Get it at J. C. Perry's.

STRIKE SITUATION IN LONDON DESPERATE

London, July 15.—Following a report that striking dock workers, many thousands of whom are on the verge of starvation, with their families, in the east end, were approaching the point of desperation. Several companies of the Irish guards were today sent into the disturbed districts to preserve peace. This is the first time during the nine weeks of the strike that troops were called out. The authorities were advised of threats of bloodshed against the non-unionists, who have taken the strikers' places.

TO PAY TRIBUTE TO MEMORY OF TOM JOHNSON

Cleveland, O., July 15.—Fifty thousand persons will unite to pay tribute to the memory of Tom L. Johnson in a park next Tuesday, if expectations of the Johnson memorial fund com-

mittee are fulfilled. Speeches by Mayor Neyton D. Baker and many others will form the principal part of the memorial program. A Johnson monument is to be raised in one of the public parks.

HELD TRAIN FIVE HOURS TRYING TO OPEN SAFE

Coffeyville, Kan., July 15.—Captain Klivitt, of South Coffeyville; Al Livingston, automobile liverman; Harry Bonar, son of a wealthy family of that city, and two other men were arrested early today, charged with the attempted robbery of the Missouri, Kansas & Texas passenger train last Tuesday night. The train was held up for more than two hours near here, while five highwaymen attempted to open the express safe.

Being a philosopher sometimes keeps a man so busy that he doesn't think of gossiping about his neighbors.

HE SWIPED NEAR HALF A MILLION

BOY OF 17 WALKS OFF WITH \$500,000 WORTH OF CHECKS BELONGING TO CIGAR TRUST—HE WANTED TO BE A COWBOY.

[UNITED PRESS LEASED WIRE.] Buffalo, N. Y., July 15.—Seventeen-year-old Joseph McCarthy, of Jersey City, understood who really looks about 14, is locked up in the local station, awaiting the arrival of New York officers. The child—he is that only in years and intelligence—is alleged to have stolen half a million dollars worth of checks and \$200 in money from the United Cigar Stores company the retail cigar trust.

The police say that Joe admitted his guilt. They say he told them when he was sent to the bank in New York Saturday to deposit the checks and money the sight of the large amount of cash and checks dazzled him. He decided he wanted to see the world and went to the station and bought a ticket to Kansas City, where he hoped he might become a cowboy.

As he did not want the checks to get lost he said he left the train at Albany and carefully hung up the bag containing the money. Later it was recovered and turned over to the police. They have since been turned back to the New York office of the company. Joe had \$99 of the stolen money left and this the police are holding.

CLAIM PRESIDENT INFLUENCED THE VOTE

[UNITED PRESS LEASED WIRE.] Washington, July 15.—An echo of the Lorimer case was heard in the senate this afternoon in the introduction by Senator Bailey of Texas of a resolution hinting that President Taft had unduly influenced senators to vote against the Illinoisan.

The preamble to the resolution declared that senators alone are the judges in cases involving the right of a colleague to his seat, and that any attempt on the part of the president of the United States to influence senators in such a case violated the constitution.

East Will Cool Off.

[UNITED PRESS LEASED WIRE.] Washington, July 15.—"Cooler weather for the entire eastern half of the continent," was the optimistic forecast made by the weather bureau today. If the St. Swithen's Day superstition works out, it will come near raining for the next forty days throughout the east. The weather bureau predicted probable showers all over that section as a part of the cool wave.

Italians Whip Turks.

[UNITED PRESS LEASED WIRE.] Rome, July 15.—Repulsed with enormous losses, six large Turkish forces from Regdaline and Zozars are today in full retreat before General Garioni, the victorious Italian commander. The fight took place to the west of Tripoli, and resulted in the capture of Sid Ali, the Turkish commander, according to advices received here today from Garioni.

Folding-Bed Got Him.

[UNITED PRESS LEASED WIRE.] Los Angeles, Cal., July 15.—The aid of six fellow lodgers and the cop on the beat was required to extricate Roy Banneck from his folding bed. His wife, returning from the theatre during the rescue, saw the crowd about the bed and fainted. Both survived.

INTERURBAN EXTENSIONS.

(Continued from Page 1.)

ceived this matter and framed that threat before even counselling with me either took me for a weakling, a man who could be frightened into acting against his best judgement or he is bereft of those finer feelings of humanity which require that we should look upon our fellow man, whether in office or out of office, as possessed of equal rights and feelings akin to ourselves. That second resolution I take as a down right insult. I have solicited, as you know, the wishes and opinions of the league, but I did not expect the league to preface their demands with a vile threat. It is bad enough to menace one with "the big stick" after the answer is received.

I hope you will read this letter in open league as I feel that an apology is due me. Very truly,

E. T. Rigdon, Alderman 2nd ward.

Results "the Day After."

Growing out of the disturbance on the streets of the city Saturday night, caused by assaults made on a number of young ladies by some Greeks who took undue liberties, the city recorder today imposed fines of \$5 each against D. Raymond, Jack Rose and Maliss Cosano.

Two combatants in a street melee were fined \$25 each for their fun. In all fines of about \$100 were imposed and collected in the recorder's court this morning from those taken into custody Saturday night.

LORIMER'S SUCCESSOR IN DOUBT

[UNITED PRESS LEASED WIRE.] Springfield, Ill., July 15.—Governor Deneen today called on Attorney-General Stead, and asked for an opinion as to his power to appoint a successor to Senator Lorimer, ousted from the senate Saturday. Immediately after his conference with the attorney-general, the governor said that he expected to dispose of the matter within the next few days. Former Senator Hopkins, the nominee at the primary before the 1909 legislature, has made no direct plea to Deneen that he be named, but he is using all his influence to that end.

GOVERNMENT OWNERSHIP IS THE REMEDY

[UNITED PRESS LEASED WIRE.] Washington, July 15.—"The Interstate Commerce Commission's ruling in the express cases, if it goes into effect, will reduce the cost of living, provided the middlemen do not absorb too much of the difference," said Chairman Clements, of the commission today. He pointed out that the commission's ruling was an order to show cause why the new rates should not become effective.

"Necessarily," the chairman said, "the tendency of important reductions, such as are proposed, would be in greater or less degree toward a reduction of the cost of transporting products from the producer to the consumer in all lines of business."

"Government ownership of express companies is an imperative necessity, as shown by the commission's ruling," said Representative Lewis (Democrat, Maryland) today. "The order does not reach the farmers and cannot be made to do so. In any event it will probably be held up for years in the courts. The relations of express companies to their traffic is purely parasitic, and rates cannot be made to secure relief. There is but one remedy for human or transportation parasites, and that is to eliminate them entirely."

ARRESTED FOR SWINDLING OLD PORTLAND COUPLE

[UNITED PRESS LEASED WIRE.] Sacramento, Cal., July 15.—Solomon Alexander, who is charged with swindling an aged couple of Multnomah county, Oregon, by inducing them to invest their life's earnings, \$1850, in an "automatic roller printing machine," a fake invention, is being held by San Francisco officers until officials from Portland arrive. A requisition for his return was granted by Governor Johnson today. The couple said to have been swindled by Alexander is now destitute.

SHOULD SETTLE IT WITHIN THE PARTY

[UNITED PRESS LEASED WIRE.] Trenton, N. J., July 15.—In a formal statement today Governor Edward C. Stokes went on record against any third party proposition. The former governor was a Roosevelt supporter, and believes that the fight should be made within the party.

GREATEST BUILDING IN WORLD

Next to the Eiffel Tower, the new Woolworth building in New York is the tallest structure ever reared to the skies by the hand of man. This skyscraper will be fifty-five stories high, totaling 750 feet, and will be head and shoulders above the Singer and Metropolitan towers.

To erect this wonderful building powerful electric motors must raise more than 13,000 tons of steel, brick, stone, etc., some of it to the roof. Without electricity it would be difficult, if not impossible, to build and maintain such a mighty building. When completed it will be a small city within itself, fully connected with local and express elevators, telephones, electric lights and a dozen other things from huge ventilating fans to push buttons, operated by electricity.

Electricity, the master mechanic, is practically building this enormous structure. To hoist the steel and set it in place are six derricks driven by eighty horse power motors. Four of these followed the course of construction to the twenty-sixth floor, the limit of the building proper, after which two proceed with the tower work as far as the fortieth floor, from which one of the derricks keeps pace with the work. The hoisting engines and motors are seldom moved. They remain several floors below the working level, the cables, of course, running through the structure from the drums to the block and tackle on the lifting apparatus itself.

A telephone system supplemented by pull-bell, for the motorman of the derrick acts entirely on signal, just as the engineer of an ocean liner drives his ship entirely by the bells from the bridge. Only, in the erection of a modern skyscraper the bridge is seldom more than a plank extending over the edge of the floor. While the lookout, instead of being in the crow's nest at the masthead, rides through space on the girder. The work of the hoist is by no means completed with the safe delivery of the steel at the top floor; it must all be fitted together, and so skilled have the workers become, and so expert are they with their signals, that the beams are guided into their place with little friction and loss of energy.

Although steel-hoisting is thrilling and to a certain degree picturesque, as it is watched daily by thousands from the City Hall Park and the post-office, it is far from being the heaviest part of the work. Seventeen million brick, weighing 45,500 tons, and 7,500 tons of terra-cotta are also used, but they are carried to the brick layers in prosaic wheelbarrows, and on every-day hod hoists. Six of the hoists are operated by 40-horse power motors.

Cement and concrete are mixed in the basement, the machines, four in number, being operated by 15-horse power motors. A plumbing system is necessary, and temporary pipes lead to hydrants and two 15-horse power motors keeping the water in circulation. Another motor of 50-horse power pumps rain-water and leakage out of the basement.

There are two compressor plants on the work, one for the steam riveters and drills and the other for shooting cement. Seventy-five horse power are required for the riveters, and all day long their gattlinggun fusillade is heard. The electrical installation amounts to about 1,200 horse power in motors, 300 arc lights, and about 2,000 incandescent lamps. A force of six electricians is kept busy looking after the wiring.
