WRESTLING WITH THE PLATFORM

[UNITED PRESS LEARNED WIRE.]
Chicago, Aug. 6.—The Coliseum filled slowly. The resolution committee continued at work up to 12:35 o'clock, when the convention was called to order by Chairman Beveridge. The members of the platform committee worked hard to frame a concise document, the leaders insisting that unless this were done the progressive declaration of principles would not get the necessary newspaper publicity.

Three planks dealing with the negro question are occupying much of the committee's time. It is now expected that an agreement will be reached along the lines suggested by Colonel Roosevelt in his open letter to Julius Harris.

The New York delegation, headed by a brass band, was the first to reach the hall. They entered at 11:55 and paraded the aisles. Other state delegations quickly followed. At the meeting this morning the New York delegates elected George W. Perkins former member of the banking firm of J. P. Morgan & Co., national committee man from that state. Oscar Straus, former member of Roosevelt's cabinet, was offered the place, but declined, saying that a younger man should be named.

TWO DIVORCES ONE SUIT IN ATTACHMENT

Lola Dice was granted a divorce this forenoon in Judge Galloway's court from B. C. Dice, on account of desertion.

The suit for divorce of Nellie M. Williams against Charles E. Williams is on trial this forenoon and continued until afternoon on account that all the witnesses have not appeared in court. There are three children involved in this case, who the plaintiff asks to have awarded to her, so the matter of their support will have the attention of the court before the question of alimony can be settled.

Bernhard Friesen has filed an attachment suit against the proprietors of the Kit Carson Buffalo Ranch shows, in which he alleges that on July 31, 1912, the defendants obtained \$1500 from him, no part of which has been paid, except \$400. The papers were served on the owners of the show at 1:30 this afternoon.

SAVS POLICE PLACED ENEMIES IN HIS CELL

[UNITED PRESS LEARNED WIRE.]
New York, Aug. 6.—Protesting that two men placed in the prison by a certain inspector have been hounding him for days, "Bridgie" Webber, being held here for connection with the Rosenthal murder scandal, declared today that his life has been threatened if he supports the statement of "Jack" Joe.

Webber, it is claimed, arranged matters so the two men could talk with him whenever they desired.

Two policemen were charged today with having refused to arrest two men who were pointed out to them as "Jack the Blood" and "Lefty Louie," claiming, they feared a fine for leaving their vests.

FOUNTAIN PRESENTED TO CITY.

(Continued from Page 1.)

the city is to protect and maintain the fountain, and if this obligation is met in the same generous manner as was the impulse that actuated the gift then the fond desire of that charitable pioneer will have been fulfilled.

"Without desiring to obtrude a suggestion I hope that this body, as representative of the city, will be able to arrange for a display of the fountain during each day and for at least one-half hour each night during seasonable periods of the year.

Respectfully yours,
CHARLES L. McNARY,
Executor of the Estate of Louise Waite, Deceased.

A vast amount of ill health is due to impaired digestion. When the stomach fails to perform its functions properly the whole system becomes deranged. A few doses of Chamberlain's Tablets is all you need. They will strengthen your digestion, invigorate your liver, and regulate your bowels, entirely doing away with that miserable feeling due to faulty digestion. Try it. Many others have been permanently cured—why not you? For sale by all dealers.

FOREST FIRE BULLETIN.

Western Forestry and Conservation Association.

Portland, Aug. 5.—July passed practically without forest fire loss. August began with unusually favorable conditions, and better equipment than ever before by all protective agencies except the federal forest service, which is hampered by congressional delay in acting upon its appropriation, is the summary of a statement issued today by the Western Forestry and Conservation association upon advices received from all protective headquarters in the Pacific Northwest. Due partly to the weather but also to the perfection of preventive measures which, like the block signal system on railroads, safeguard without being spectacular, the situation is novel in that the middle of the usual four months fire season has arrived, and there is not a single fire of importance to report.

Although small fires are becoming numerous, green timber is not dry enough to carry them unless strong wind prevails and the patrol forces are handling them promptly. The season has been favorable for disposing of dangerous slashings and never before has there been such system and success in extinguishing smoldering logs and snags left after burning to become a menace later. On the other hand the growth of grass and underbrush has been so heavy as to threaten peculiar danger from now on. Marked improvement in care with fire is reported, although there is considerable complaint against careless

DANDRUFF AND FALLING HAIR CAN BE STOPPED WITH HERPICIDE

Every woman who is obliged to wear false hair, or man a toupee, feels that it is a misfortune. What makes the burden so doubly hard to bear is the knowledge that the loss of natural hair could, in most instances, have been avoided.

The arch enemy of good hair is the dandruff germ. This is now a well established scientific fact. There is one remedy on the market which, used regularly, will kill the germ and keep out every trace of dandruff.

This remedy is Newbro's Herpicide long known as the Original Dandruff Germ Destroyer. By keeping the scalp clean, Herpicide not only prevents the hair from falling out but allows it to grow as nature intended. Begun in

leaving of debris by county road builders and against the operations of small and irresponsible loggers.

The state forester of Montana has received \$3500 from the federal government through the Weeks law to be used outside the national forests in the territory protected by the state and the Northern Montana Forestry association.

Idaho has had a few small slashings and lightning fires, but practically no damage. The cooperative patrol association.

Idaho has had a few small slashings and lightning fires, but practically no damage. The cooperative patrol associations have completed several new telephone systems, and are rapidly increasing patrols to meet expected dry weather.

Washington reports no July fires of consequence, but the laws are being enforced rigidly to prevent danger later. Several attempts to burn without permit or operate unguarded engines have been followed by prompt arrest and conviction. The Washington Forest Fire association has 90 patrolmen out and is devoting special attention to finding and extinguishing any fire left after spring slash burning. The state forester has 27 regular wardens on duty and is increasing this force gradually, besides having a special force of 35 secured by government aid under the Weeks law.

Oregon had but one fire worthy of mention in July, and this was speedily extinguished, without loss, by the Columbia County patrol association. About 350 wardens are on duty in the state outside the national forests, employed by state, counties and private owners.

Although the usual fire season is half over, Congress has made no appropriation for the federal forest service. The national forests are being guarded on a deficiency fund, which it is said would be wholly inadequate in an ordinary season, but so far there has been little loss.

It is emphasized by all authorities that, while the immunity enjoyed so far shortens the dangerous season, and has permitted careful preparation a few hot drying days may bring the maximum hazard at any time now. All persons are urged not to attempt slash burning and to exercise great

Stock turnovers ?
If you will answer this question your way, we will send you our new 100 page retail book, "A Better Day's Profit."

This book tells how chain stores, with cut prices but frequent turnovers—many small profits—make money while driving the little fellow out of business.

It tells how to keep your dollars working—how to put them into your business and take them out with a profit every week—how some retailers turn their stock every day.

Give us the answer on your letterhead, or ask how to get the answer, and we will send the book.
